GOVERNMENT HOUSE AND THE OPPOSITION.

ends either party in the legislature expect to serve by the juggling of figpower, the Liberals strain tion, whatever party be in power. should stick to, is whether the money spent has been well spent. If we get complaint unless it can be shown that there is no money to settle the bills. Sir James Whitney and his lieuten ants have been able to get enough to keep all the pots boiling so far.

The only serious complaint made yet is over the new government ment house at all, which perhaps Mr ought to be a good one. Apparently in it does not come well from a party that is doing its best to supplant him that is doing its best to supplant him with a nominee of their own. There appears to be no desire among the Liberals of the opposition to abolish the cocked hat and gold corset now worn by Sir John Gibson. Perhaps it is on Sir John's account that objection is taken to the Don Valley brickyard chimney smoke. Opposition orators do not make it clear whether it is the Don or the valley, or the brickyard, or the chimney, or the smoke they object to, or some, or any, or all of them, separately, independently or in conjunction, but after the four corners of while. King and Simcoe and the prospect of henna of the Don goeth up for ever icals in the form of a coagulent, and people, my heart goes down in my mouth. 'Tis little I care for summer, suggestions are dismal to a gold-laced o' purifying surface water to spring for a zero hummer with plenty of snow and sleet; me for a rousing win-

It is also alleged by the opposition that the new government house site when it is a question of removing disis remote, unfriended, melancholy and ease infection and rendering a water yet Spring with her downy pinion will slow, but why object to having the entirely safe, neither system can be startle me into tears. Down by the whose ill-health has been a matter of fuss and feathers stowed away in a absolutely depended upon, and disincorner? Why not rather applaud Sir fection must be adopted. This can they caper along the street. Out by troubles in Dodd's Kidney Pills and the calm Pacific where the Rockies Dodd's Dyspepsia Tablets. things? Expeditions have been sent filtration methods. out to discover the site and they returned admitting failure. They had discovered other things, and seen many beautiful places in the general There was a snowdrop in bloom in sight of the Don Valley brickyard chimney smoke they had failed to see. Sir James has relegated government second. house to a corner-a veritable nook, and only Mr. Rowell and his friends are dissatisfied. Perhaps their real sensational Evidence at Vancouver estate interests lay in a different estate interests lay in a different part of the city.

IMMIGRANTS THAT GO HOME. Not only is the United States immi gration department concerned about the movement of farmers to Canada, but also about the habit of European peasant farmers to remove home after accumulating enough savings to enable them to purchase holdings in their native countries. In the last report of the commissioner general he stated that the returns indicated that each year hundreds of thousands of aliens go back to their native lands taking with them what they have saved from their earnings. That amount is estimated to be on the average \$600 tify and was committee him time to sober up. each, and in a single year this totals up to about \$250,000,000. The men who thus save \$600 to \$1000 are, he says, not idlers, drunkards and improvidents, but form the part of an alien population that should be retain ed and enlightened as to the agricul tural opportunities of the United

It may not prove easy to retain this class of industrious alien even if they are informed that they can purchase good land in America at much cheaper prices per acre tran can be done in their native countries. For many, probably most, of them have crossed the ocean, not with the intention of making a new home, but of earning the money required to enable them to return and assume that position in their birthiplaces which represents their ideal of comfort and happiness. Europeans of the south and east are not colonizers as that name is understood by northern races. They may not have

greater love of country, but they are restless without the environment into which they were born. Therefore they work all the harder for the wherewith

The commissioner general thinks that under a systematic campaign of education that flow of men and doilars toward Europe might be turned towards the fertile acres of the United States. Should that suggestion be adopted and an effort made "to po!nt the way to a profitable investment of will pay for The Daily World for one year, delivered in the City of Toronto, or by mail to any address in Canada, Great Britain or the United States. to ethnologists. > SLOW AND RAPID FILTRATION. "Purification of water by slow and rapid sand filtration," is the title of an address by Mr. T. Aird Murray, M. C.S.C.E., which he has issued in an enlarged form as a pamphlet on the request of the Canadian Public Health the pure sweet water Toronto used to have before it was found necessary to rob it of all its charms by chlorinpages equally with the more technical readers who will be glad to possess it as a handbook to the waterworks situation. It is fully illustrated by views and diagrams of various filtration plants. Copies will be sent to those who desire them on payment of post-

> Mr. Murray does not hold a brief for either the slow or the rapid systems but thinks that local demands must determine the choice of the system, while the modifications caused by the introduction of disinfectants have also to be considered. Mr. Murray allows three and three-quarters pints of water a day for each person, but we presume the extra quarter pint would not be injurious if a man persists in drinking two quarts a day. A third of this is taken in solid food form, meat vegetables, fruit, etc. The other two

## LIFE'S MINOR ILLS

Since Dodd's Kidney Pills Cured Her Kidney Disease

New Brunswick Woman Tells How She Was Rescued From III Health By the Twin Remedies, Dodd's Kidney Pills and Dodd's Dyspepsia Tablets.

NEGUAC, Allain P.O., N.B., March 14 .- (Special.) -- Mrs. Joseph G. Savoy, a well-known resident of this place,

Yet till the Spring's retreated, yet till the summer's o'er, yet till the Autumn's fleeted, still will by heart be sore. But when the wind grows snappy, glad on my way I'll bowl; then am I truly happy; then I can sell tolks coal! please with no ill effects.'

Mrs. Savoy was in a generally run-down condition, and her cure came about by using the natural remedies. Dodd's Kidney Pills cured and in-vigorated her kidneys, thus purifying

the school board, and former Architect Leach, in consideration of an
trade, thru the establishment of sence of whole milk, and the essence The condensed and evaporated milk

industries have made rapid growth and progress during the last few years on this continent. They are becom ng considerable economic importance in dairying. The establishment of such concerns is very beneficial both to the province at large and the turm-ers locally. The rest of Canada looks to Ontario to uphold the name of dairying. The market for the eyaporated milk, etc., is looked for in Winnipeg and the west, where the dairy industry is not as yet established. The farmers locally are educated to supply a higher grade and more carefully handled raw material to the tactory, for which they get a maximum price.

The Canadian Lacteal Company have as their president, A. F. Mac-Laren, Toronto, of the Imperial Cheese Wm. Flavelle, Lindsay, as vicepresident. J. J. Mason, Toronto, secretary treasurer. The company are
