WINTER WHEAT IN FINE SHAPE

Abundant Moisture Where
Needed Makes Outlook Ex-
cellent—Prices Weak.

CHICAGO, March 25.—Crop conditions gave the wheat market today and they drove prices downward almost from the start. The close was steady at a net loss of 1-16c to 7-8c; oats at a net decline of 3-8c to 5-8c, and provisions were off 7/16c to 3/16c. Crop advices were of character to help the wheat bears. From nearly all parts of the winter wheat belt came reports of abundant moisture, along with advices that the growing plant could not be in better condition. This, in the opinion of the trade, counteracted the decrease of 3,322,000 bushels in the world's available supply over the corresponding week of last year, and a decrease of 1,808,000 bushels in the domestic visible as compared with a decrease of 1,277,000 bushels a year ago.

Heavy Primary Receipts.
Primary receipts also gave support to bear sentiment, as they were 549,000 bushels as compared with 551,000 bushels a year ago.

Corn showed weakness throughout the day, taking a downward turn immediately after a fairly strong opening. The few enquiries from the east asked for bids on re-sale, eastern buyers apparently being overloaded. Oats seemed without the buying spirit. Provisions were weak.

NORTHWEST RECEIPTS.

Receipts of wheat at northwest points, with usual comparisons, follow:

	Week	Year
Chicago	175	173
Minneapolis	144	65
Duluth	144	65
Winnipeg	144	65

EUROPEAN MARKETS.

The Liverpool market closed 1d to 1d higher on wheat and 1d to 1 1/2d higher on oats. Paris wheat closed 1/2c to 1/2c higher.
