WAR BABIES' HOME

Fine Property Near London

Secured for the

Purpose.

Special Cable to The Toronto World.

LONDON, June 3.—The Women's So-

cial and Political Union today pulled out

all their old organization talents and

the Palladium Vaudeville Theatre, not

with sufficient success, to represent

one of every class of the community,

including even a batch of wounded sol-

diers in charge of their parents, for the

purpose of hearing Mrs. Pankhurst speak

on the necessity for organized national

service. Before the meeting, with no

particular grievance against the govern-

ment, old-time suffragettes discussed

among themselves the reasons why the

condition could have failed to invite Mrs.

Pankhurst to take office, and the general

opinion being that they sooner or later

will have to include her somehow in the

list of their supporters.

Continuing, she said: "We la-

ment the way the government muddled

the war arrangements and left us out

in Germany today there are over half a

million women making shells. In Eng-

land we want not merely to devote our-

selves to the making of munitions, but

also see that every woman who is in-

organized way not in the present haphaz-

ard fashion is devoting herself solely to

war purposes.

"One of the chief ways wherein the

W.S.P.U. had intended to devote their

energies is in regard to 'war babies,'

and because of the increased talk

about the incursion of illegitimacy into

the war, but she was glad to say that

there will be good men and women who

would not only show an increase, but

even a decrease of illegitimacy. But the

present was the great opportunity for

women to grapple with this problem of

illegitimacy children whereof it is esti-

mated 37,000 are born annually in Eng-

land. The W.S.P.U. meant not only to

bring to the notice of the public the

existence of these babies, but after the war

the women would break down the cruel Eng-

lish law which prohibits a woman from

wherein would be brought up all the

illegitimate babies who were motherless

and because the mother was unable to

bring them up. A beautiful young

lady with 21 children had already been

rescued from near London and they in-

stantly to start an experiment in

raising these children on lines of loving

care, healthy surroundings, and all the

best methods of treatment the modern

knowledge could suggest. This was a

woman's work and she appealed to men to

support it financially, asking them to

do something to equalize the burden that

fell on the unmarried mother, for in these

days the punishment for wrongdoing al-

ways fell hardest on the poorest.

The collection taken realized nearly

\$15,000. Mrs. Douglas Hamilton gave

\$500, and the Duchess of Marlborough

\$500.
