Mining Stocks Bought or British Columbia Mines

Two of the best purchases of stock just now are the DUNDEE and the MORNING AND EVENING STAR, both at Ymir, B.C. Being familiar with this section of the country, and knowing the management of each company, I can confidently recommend the purchase of shares to anyone seeking a good investment. In view of the DUNDEE expecting to have their mill in running order by the middle of October at latest, I strongly advise the buying of shares at the present reasonable figure.

The MORNING AND EVENING STAR are two claims adjoining the Dundee, having an extension of their ledge, from which assays have been taken of over \$100 per ton. On the surface of the Evening Star the values obtained were \$12 in gold and 5 ounces in silver. A shaft 100 feet deep is being sunk on the property, and development work will be actively carried on.
