

## EXPECT RECRUITING TO BECOME ACTIVE

Seventeen Enlist From Total  
of Twenty-Four Ap-  
plicants.

### OPEN DEPOT NEAR EX.

Three Hundred Horse Trans-  
port Drivers Needed Now  
for Overseas.

Recruiting yesterday assumed great activity for the first three days of the week. Seventeen recruits were enlisted out of 24 who applied. Notwithstanding the large crowds in the city for the Exhibition, the recruiting sergeants are meeting with little success in their efforts to secure volunteers due to the fact that the eligibles are devoting their thoughts for the time being to the less serious aspects of life. More activity in recruiting is anticipated before the close, at the end of next week. Of those who enlisted yesterday, five joined the A.S.C., and the other units increased their strength as follows: 166th 1, 242nd 1, 67th and 70th Batteries 1 each, No. 1 Construction Battalion 1, R.C.D. 3, and the Guards 3.

The 69th Battery has recruited over strength, and the only recruits wanted now are a limited number of shoemaking smiths. Those who wish to join should apply at the 69th Battery orderly room, the armory.

A call has been issued by the Divisional Signaling Company for men of the following trades: Telegraphers, telephonists, instrument repairers, linemen, electricians, motor cyclists, harness makers and drivers. It is advisable for any individual desiring to join the above occupations that they should enlist with the Divisional Signaling, as they will be able to follow their usual trade while in the service. Application should be made to the recruiting office of the Divisional Signaling at the armory.

The Engineer Training Depot, which is stationed at Valcartier, has permission to recruit through the entire Dominion, and men of the following trades are asked for: Engineers, carpenters, wheelwrights, harness and saddle makers, blacksmiths, railroad construction workers, drivers, Lieut. J. L. Mallory is in charge of recruiting for this unit in Toronto, and he will be glad to furnish any information to intending recruits, who may see him at the orderly room of the 2nd Field Company, Canadian Engineers, south side of the armory.

No. 1 Construction Battalion, now encamped at Valcartier, will proceed overseas as soon as 20 men have been obtained. This battalion, commanded by Lt.-Col. S. Ripley, is offered entirely by well-known engineers and contractors, and is to carry on construction work at the front. A large number of applications have been received to fill up the required number, but the list is to be kept open at the recruiting depot, the armory, a few days longer, before a final choice is made.

C.A.S.C. have received orders to recruit at once 300 horse transport drivers, which are urgently needed to complete the draft going overseas shortly, also bakers, butchers, blacksmiths, carpenters and fitters. No. 2 C.A.S.C. depot is quartered at Camp Borden, and recruits will receive Army Service Corps training. There is an opening for two good cooks for overseas service. Applicants to join should apply to Lieut. R. M. Adams, C.A.S.C. quarters, armory.

In order that Exhibition visitors may be interested in the work of their unit, the Royal Canadian Dragoons have opened a recruiting office on Dufferin street, at the Exhibition entrance. Lieut. Saunders will be in charge and he will gladly explain the duties of the Dragoons to any desiring information.

The funeral of the late Pte. A. R. Thompson of the 21st Bantam Battalion, whose death occurred in the base hospital Monday night, was held yesterday from the undertaking parlors at 840 West Bloor street, with interment in the Necropolis. The funeral was military, with a firing party composed of members of the battalion, who came from Camp Borden in the morning. The service was conducted by Capt. Canon Dixon. Pte. Thompson had been in the hospital for many weeks. Death was due to tuberculosis. His home was in Beaverton, where his mother and sister, who were present at the funeral, reside.

Yesterday a squad of eight military police paraded the Exhibition grounds and corrected misdemeanors of visiting soldiers. The police force will be enlarged, it is expected, before the end of the week. Sgt. K'vott, an imperial army veteran, was in charge of the party on the grounds yesterday.

A draft of 100 officers, N.C.O.'s and men of the A.M.C. are required for overseas service as soon as the summer camps are over, and recruits are wanted to bring the unit up to strength and be in training before the draft leaves. Those desiring information should apply to Sgt. McElroy at the base

## SALE OF LIQUOR IN ROUMANIA FORBIDDEN

Severe Punishment to Be Inflicted if Law is Not Observed.

BUCHAREST, Aug. 31.—The police commissioners have forbidden the sale and consumption of alcoholic liquors in all establishments throughout Roumania, under penalty of severe punishment.

Roumania's action in prohibiting the sale and consumption of alcoholic liquors follows the lead of many of the European countries now at war, including Russia, France and Great Britain.

Russia, the first belligerent country to place a ban on alcohol, abolished the liquor traffic by imperial decree at the outbreak of the war. As a result of this prohibition the sale of intoxicants in Russia fell within a year and a half from nearly a billion rubles to approximately four per cent. of that sum. The four per cent. consisted largely of the sale of liquors for medicinal purposes.

In Great Britain restrictions were placed on the sale of liquor in the mu-

nicipal areas. The sale of intoxicants in licensed houses is only permitted for four hours a day, and six months' imprisonment and a fine of \$500 is the punishment for contravening the regulations.

In France wine shops are forbidden to sell any form of alcohol before noon. Sales to women and children are barred at any hour.
