REAL REFORM NOT PENAL INFLICTIONS

Big Brothers and Sisters Would Utilize Gang Spirit to Build Character.

Closing sessions of the convention of the Big Brothers and Big Sisters yesterday included a stirring address from Floyd Starr of Albion, Michigan, who told of the Starr Commonwealth unique in character and is an institu-tion to show that a corrective school tion to show that a corrective school need not be institutional. In the discussion it was resolved to call upon the authorities to remove the idea of penal punishment and substitute methods to bring about real reform among the boys and girls concerned. It was proposed that by means of clubs and supervised playgrounds the "gang spirit" should be utilized for the purpose of character building. A resolution was passed asking that the resolution was passed asking that the provincial government should provide an institution for the defectives of

velopment of police women for protective and preventive purposes, effective censoring of moving pictures, the establishment of detention homes and provision in the courts for boy and girl delinquents of various ages. Work done by the National Urban League and Atlanta Urban League for the colored population received complimentary notice.

A good deal of discussion took place in regard to the budget, Delegate Noble suggesting that assessment whould be made upon various communities interested, and that a paid secretary should go out to make a survey and to instruct workers how to begin a branch. Others thought the financial help should be more or dess voluntary and in proportion to the size and wealth of the community. It was finally left to be decided by the executive.

A gharming readen perture to a Dentity of their own candidate. This will leave their own candidate. This will leave a clear field for the soldiers' representative, and the returned men hope that some local M.P.'s will follow the friends in London.

Lieut.-Col. (Dr.) Reason, late A. D. M. S., is coming to Toronto in the near future to address a G. A. U. V. mass meeting on the soldiers' attitude in politics. This event is looked forward to with a great deal of interest, as Dr. Reason was well-known and liked as a soldier.

British soil."

'Several other Canadian representatives concurred with this statement, and intimated that there was a possibility that they would withdraw if the question was brought before the convention for debate. There are about thirty delegates from the Dominion in the convention, but a number of these are reported to favor the Irish resolution.

The resolution in question claims that the Irish republic has already been established, and that the English government, thru its troops, is seeking to destroy it. The convention is asked to "reaffirm its endorsements of the Irish republic and demand that the military forces of occupation in Ireland be withdrawn from that country, and that the Irish people be allowed to guide their own destinies, and permitted to take their place amongst the free nations of the world."

Judge Coatsworth Says Some Services Rendered by Them Were as Volunteers.

Judge Coatsworth has now issued his decision in the arbitration between the provincial government and eight returning officers who officiated at the last general election, in regard to the remuneration of the latter. His hon-or holds that whatever duties any of the officers interested may have had as chief enumerators ended when each as chief enumerators ended when each one of them handed in his list of voters to the clerk of the peace, about August 1, 1919. Whatever services were thereafter rendered were not as chief enumerators, but either as volunteers or returning officers. His honor finds it proved that the returning officers interested had their offices kept open night and day, devoted exclusively to election work in August, September and October; that the offices were manned continuously by a competent staff, and that the returning officers gave their own services continuously during that time to the detriment of their own pusiness, in consequence of instructions from the chief election officer under the agreement that they would be reasonably compensated. His honor modified the claims of the eight returning officers to figures which he thought right, after carefully reviewing the whole situation. The following cuts are accordingly made in the amounts claimone of them handed in his list of vot-Baltimore; C. C. Schuyler, Denver; F. Baylan, Toronto.

What Supports the Heart?

By N. COOK, M. D.

The heart is the hardest worked organ of the human body. It beats on an average of seventy times a minute—from the minute of birth to the minute of death. Every half minute or every thirtysecond beat, the whole
of the blood in the

body is pumped through the heart, so that the dual heart moves about six tons of blood in each twenty - four hours. On the purity of that blood health depends. On the strength of the heart depends the strength of the body.

The question then is, how can we keep the blood pure and the heart strong? What is blood? Blood is only digested food. No man is stronger than his stomach, because physical strength is derived from food di-

sted and assimilated. Deaths ascribed to weak heart and "heart failure," should be called weak stomach and "stomach failure."

It is this dependence of the heart upon the stomach which explains the relief from "heart trouble" effected by the use of Dr. Pierce's Golden Medical Discovery. This remedy is for diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, eliminating from it the substances which corrupt and poison it. Even this alone would take the strain from the overtaxed heart. But Dr. Pierce's Golden Medical Discovery also acts directly upon the heart itself. It strengthens the heart's action upon the heart itself. It strengthens the heart's action.

This is the time of year when we need a reliable tonic. Toxins (poisons) pile up within the body after a "hard winter," and we feel tired out, blue and discouraged. If you want vim, vigor, vitality, try this Spring Tonic of Doctor Pierce's.
