Bull Pools Are Aggressive in Closing Hour, and Number of Specialties Are Marked Up Sharply in Price-Foreign Exchange, Excepting Sterling, Is Strong.

New York, Jan. 19.—The stock market today seemed disposed to throw off much of its recent apathy and reactionary tone, prices of many popular shares moving upward to the accompaniment of broad and active dealings.

On the surface there was nothing in the advance to suggest any pronounced change of sentiment or revival of public interest, altho developments pertaining to market values were partly of a more hopeful character.

Commercial authorities reported a quickening of business in various lines of trade. This was reflected in the invasion of this city by buyers representing foremost mercantile interests of the United States.

Offsetting this, however, the Pennsylvania Railroad system announced the prospective cutting down of its working

sylvania Railroad system announced the prospective cutting down of its working time, with the alternative of a 20 per cent, reduction in the working force, and The Iron Age emphasized the low rate bonds were unchanged on call.

FUTURE PRICE OF SILVER

DEPENDS MUCH ON CHINA and Faper Company at Port Arthur has been or mpleted and power was turned on Friday last. Production of ground wood pulp will commence on the 24th.

Pixley & Abell, of London, Eng., in their annual report, have the following on the prospects of the silver market. Now that so many countries have reduced the fineness of their silver coinage, whilst others have abandoned the use of it altogether, and seeing that it very improbable that it will be a buyer of silver for many years to come, the position of China becomes of far more importance to the market than ever before. The future of the market nor before. The future of the market nor before of the world at large and its ability to for the world at large and its ability to the erops, whilst owing to slackening trade and proved the erops, whilst owing to slackening trade and are she finds little or no demand for her products. Until we see renewed activity in the export trade of the world at large she finds little or no demand for her products. Until we see renewed activity in the export trade of the erops, whilst own whether the selling of silver by the continent will still be on as large as cale at present, and also whether the production, announting to some 50 or 60 million ounces per annum, is now taken off the market under the provisions of the Pittman act. A Africk recovery in the export trade of China may, therefore, well mean a charper from the world and any therefore, well mean a cale of China may, therefore, well mean a sharp rise in the value of silver, but at the moment no signs of such a recovery are in sight.

Locally the trading did not show much broadening, but there was evidence of certain investments carrying into the stable industrials. General Electric was selected as one of this, and the price casily recovered to 104. Bell Telephone was also one of the stocks regarded more from the standpoint of investment than speculation, and there was a demand for Consumers' Gas, which advanced to 136 on one sale. The latter shares were down to 125 only a few days ago.

The more speculative issues followed the general trend, and Brazilian and the papers sold at higher prices.

In the banks there was some irregularity. Comnerce was down, due, it was thought, to old country selling on the removal of the embargo. The list otherwise was firm. Transactions in the government bonds fell off again, but prices were steady, and the 1931 war loan sold at a new high of 33%.

KEORA HAS DECLINE

Montreal, Jan. 19.—A complete reversal of form marked the trading on the local stock exchange today, the bulk of the president stated that the earnings were about able to meet the fixed charges under present rates of exchange.

J.H. Plummer, in response to interrogations, said that, under normal conditions, it might be made one of the greatest enterprises of its sort in the world. Barcelona was a rich city, but owing to labor and political troubles all progress had been arrested. The people were unwhays or industrial extensions at the moment,

"The advent of our various troubles had preferred! 37 and there is thus a larger capital invested than was expected," said Mr. Plummer, "Whether earnings will so for mark of the the various troubles of the sample of the greatest changes in Sugar, which was down a point at 103; one of 2½ points at 78½ for Carriage Factories at 12, and a points for Steel of Canada at 64.

Among the losses the largest was made in Sugar, which was down a point at 304, There was a better trend to the quiet industrial late in the bond department. Total sales, listed, 10,325; bonds, Nova Scotia.

Mentreal, Jan. 19.—The local market for cash grain was without any feature, to note today. There were no new developments in the local flour market. The trade in mill feed remains steady, as does that for rolled oats. The baled hay market is, unchanged. A stronger feeling prevails in the egg market and prices are firm under a steady demand for potatoes. There is a good steady demand for butter and a fairly active trade is reported. Business is also active in cheese.
