When in Opposition, Mr. Whitney and his supporters unanimously declared for the Government-ownership of Niagara power development (vide the Miscampbell resolution of Feb. 5, 1902). Mr. Whitney in office has distinctly repudiated the policy of government-ownership. He peremptorily refused to listen to overtures for the to the Province of the Electrical Development Company's He has been in control for over three years, and while the Government's attitude has prevented the extension of Niagara power lines in the Province by private enterprise, the transmission of Niagara energy as a public enterprise is still a matter of

Mr. Whitney and his adherents before attaining office voted for the Pettypiece bill, which would have greatly ncreased the taxation of railway property; for the two-cent-a-mile passenger rate on railways subsidized by the Government; for the reduction of the the taxes on breweries, distilleries, and corporations. In office they prefer to forget these things.

A NEW DANGER TO SCHOOL

CHILDREN. The startling occurrence at St George's school yesterday, suggests the fear that conditions in some of the other schools may not be any better. For years the policy of school boards has been to provide increased accommodation for a constantly-growing population by adding to and enlarging existing structures. Several such enlargements have been made to St. George's school until it has grown from the smallest to the largest public school building in the city, some twenty thousand dollars having been spent last year upon a very handsome and commodious addition. In carrying out improvements some years efforts were made to make the as new. but it would seem that in this case, at least, far more important considerations have been neglected for ing, secured only with nails of insufacient length, seems even to a lay-

man a slipshod way of doing things. That there was not loss of life or serious injury to occupants of the room was due to the alertness of the children and the cool-headedness of the

The duty of the city engineer's department in this matter is plain. Not only should the other rooms in the same school, which are said to be in the same condition be made secure before children are again admitted to reporting any irregularities in deliv- them, but every school in the city, particularly those which have been subjected to such repairs and alterations, should be minutely inspected.

The St. George's school incident reveals a new danger to the life and limb cl school children which few 45 people thought possible. In the past we have been accustomed to regard Delivered by carrier boys in any fire as the only menace, and with that danger always in mind an excellent system of fire drill has been instituted. Such drills, however, are of little use when a celling or a roof or a wall gives way, and the school authorities should see to it that such occurrences are rendered impossible.

THE PIONEERS OF PROGRESS.

Mr. Duncan C. Ross having pointed his victory was one of gratitude to out that the provincial expenditure in those Liberals and non-party electors the past three years, on a per capita who gave him their support. He basis, had increased as much in the pledged himself to recognize the non- past three years as in the previous 33 party character of his triumph and to years, our local contemporary retorts ferring to the election campaign that is deal fairly by all classes and parties, that is merely proof of the stick-in-How has he repaid his non-Conserv- the-mud policy of the Ross Governative adherents, and kept his promise ment, "which made no real attempt to of fair play? THE GOVERNMENT'S DOWNFALL [Woodstock Sentinel-Review.]

The Whitney Government began very well and gave promise of much usefulreputation for open-mouthed frankness that was pleasing to plain people; some of his colleagues showed a disposition to grapple with public problems in a way J. M. McEvoy as the attorney-general that seemed to mean business, and altogether the Government attracted much favorable comment from even its political opponents; but of late it has lost much of e ground gained in the earlier days. It has allowed itself to get out of touch with the people; it has shown an open disregard for public sentiment. Liberals with whips. If it gets another trifled with serious problems. For all this of most careful and artistic training. has been largely responsible. A Legislature less hopelessly lopsided would have kept the Government in its place, would Mr. Whitney says he boasts of the have compelled respect for public opinion,

A VEGETARIAN'S WANTS.

FROM BAD HOLE

Mr. Bole's Affidavits Attacked, But Opposition Fails To

Ottawa, May 7.-The objections offered by the Opposition to the Dominion elections bill were crystallized today in the form of an amendment, moved by Mr. Roche, of Marquette, and framed in caucus. In effect it affirms the necessity of legislation with the object of insuring clean elections, but concemns the arst clause of the meet in business, but they won't believe bill as invidious and unjustifiable discrimination against the Provinces of Manitoba and British Columbia. Mr. Roche, though perhaps the fastest speaker in the House, occupied fully four hours today in attacking what he characterized as the obnoxious clause in the bill. It was to be expected that the Opposition would make some attempt to wriggle out of the hole into which Mr. Bole thrust them when he unmasked the manipulation 'Cause me dad said he'd lick de stuf- of the Galician vote in North Winnipeg by Conservative officials at the last provincial election, and in their dilemma they had to fall back upon the gentleman who is said to have dic-"An honest government demands hen- tated their attitude in the present fight, Hon.
