RUSSIAN CAV ALIENS

MEETING THE JAPANESE

Nine Thousand Horsemen Try to Cross the Hun River to Strike Oyama's Left, While Shells Hammer Centre.

Tokio, Feb. 15.—(Special.)—The Russian army has begun an extensive cavalry movement against Field Marshal Oyama's extreme left. Last night they were attempting to cross the Hun River west of Liaoyang with 9,000 horsemen. The operation began west of Ching-shan and simultaneously another cavalry force approached Tacha, which is situated 15 miles southwest of Ching-shan and 27 miles west of Liaoyang. Nine thousand cavalry, with artillery, crossed the river a mile below Tacha and attempted to cross at 6 o'clock in the evening, advancing on Heikoutai (Peikowai). The shelling of Oyama's centre continues.

FIRSD ALL DAY.

Mukden, Feb. 15.—The Japanese began a heavy cannonade Tuesday afternoon on the Hun River right in front of the Russian lines. The shelling continued all thru the day. It is thought the Japanese are preparing for a general attack. The Russian guns are replying.

RUSSIAN DRIVE JAPS.

St. Petersburg, Feb. 15.—(Special.)—The Russian telegrams that the Russian army destroyed the buildings and walls of Nangai, from which the Japanese had been bombarding the Russian trenches. The Japanese were driven out. In regard to the attack on the bridge, Gen. Sakharoff says the Japanese force comprised 100 cavalry and 200 infantry. The Russian frontiers guards drove off the attackers, who subsequently destroyed a few railroads, blew up a bridge and then fled. The Russians were reinforced and pursued the Japanese to Mukden.

ONE SHELL TOLD.

Russian Heavy Artillery, Huan Mountain, Manchuria, Feb. 15.—During the Japanese bombardment of Poutouff (Lonsing) Hill, the Russian heavy artillery gun entered an underground but tore off the head of a lieutenant and wounded a sergeant. The Russian soldiers were playing cards in front of Koudou on the right bank. The Russians are trying to get a better position. The Japanese are attacking with good results, firing as many as 20 mortars simultaneously.

RUSSIAN RESOLVE.

St. Petersburg, Feb. 15.—The departure of Admiral Nelogoff's division of auxiliary cruisers from Liaoyang yesterday to reinforce Admiral Rozhkovsky's division, is evidence in the eyes of the admiralty of the difficulties caused by the strike. The point of rendezvous is not yet stated, but it is understood that it is beyond the Indian Ocean. Admiral Rozhkovsky has been ordered to delay in the monsoon period the resumption of his cruise. Along the Hun River, the Russian army is preparing to sound the overture of hostilities that are likely to be opened within a short time.

ALL UP WITH PARENT.

Majority Assent Given, But He Still Hums On.

Montreal, Feb. 15.—(Special.)—Majority assent was given in favor of Mr. Parent's crucial meeting to be held here to-morrow. While most people think the premier will make several appointments and then retire, others declare that he will accept vacancies in the cabinet and, if defeated in the house, will ask for dissolution. This would seem suicidal from a party standpoint, for, if Sir Louis Jetté should grant Mr. Parent an appointment, it would mean that he would no doubt run candidates in every county where the two factions are in evidence. The inventor, Mr. Langlois, the member for St. Louis, is managing editor of the following statement regarding the number of members in the legislature that has already promised to support Messrs. Gouin, Turgeon and Veir, in resigning from the cabinet: "We persist in maintaining that at the cabinet at the Chateau Frontenac 44 members declared their adherence to the present cabinet, who have not yet taken by these ministers. In addition, we state, in the most absolute manner, that at least six cabinet members up to a few days ago had not desired to pronounce themselves on the present crisis, have declared in the presence of witnesses that they would give their hearty support to the three members who had resigned. Fifty members out of 74 does not make a respectable majority, and as it is the cabinet that rules in a democratic country we believe Hon. Mr. Parent will succumb to the wishes of the majority."

SENATORS BUCK PRESIDENT IN AFFAIRS AT SAN DOMINGO

Seems Inevitable That Roosevelt Must Be Submitted to Humiliation of Having Action Disavowed.

Washington, D.C., Feb. 15.—An entirely new phase of the San Domingo situation was developed in the senate today, as a result of which the action of the president in assuming to take charge of the customs houses in San Domingo will be certain to come in for swift condemnation by the senate, and which will result in some action that will compel the United States authorities to withdraw from San Domingo, which was negotiated more than a year ago.

RUSSIAN LOSSES.

St. Petersburg, Feb. 15.—The official returns for the first year of the war, not including the Port Arthur attack, show that 120,459 officers and men passed thru the hospitals going north, of which number 719 officers were wounded and 12,881 were sick; 4,007 subsequently died in hospitals, 6,674 wounded and 11,348 sick were invalided; 9,429 returned to Russia and 2,645 are still in hospitals. Over 7,000, therefore, presumably returned to the front on the field of battle, or probably those slightly injured. The showing is considered to be remarkably good. The proportion dying in hospitals is very low, the total loss to the army in wounded and sick being a little over 30 per cent of whom almost half have still a chance of returning to the front. The other half will be invalided or returned to Russia. The killed in action are estimated to have numbered between 40,000 and 50,000.
