Mrs. Edwards' Infants' and Mothers' Friend CONTAINS NO OPIUM.

R. STARK, Esq.,

Windsor, August 14th, 1860.

Dear Sir,—I have used five or six bottles of Mrs. Edwards' Infants' and Mothers' Friend, and find it the best, most harmless and certain remedy I have ever used for disorders of the bowels, teething, gripes, want of sleep, &c. Mothers should always have it near them.

I am, Sir, W. MIDDLETON, Nurse.

The Best Medicine of the kind Ever Made.

Blancett, September 21, 1860.

ROBERT STARK, Esq. Dear Sir,—We find your Magical Pain King a most useful remedy to have at the house. We use it for a great many things, such as headaches, rheumatism, sprains, cuts, &c. I often take a tea-spoonful at night before going to bed, as it makes me sleep well and feel refreshed in the morning. The headaches with which it cures away pain, is wonderful. We have used two boxes of Carter's Pills, and found them the best pill we ever used as a family medicine. I can not say anything about their effect on curing diseases, as we have only used them as a purgative. Yours truly, F. D. ROSS.
