CALENDAR 1875.

Golden Number.....	14	Dominical Letter.....	C
Epact.....	23	Roman Indiction.....	3
Solar Cycle.....	8	Julian Period.....	6,588

The year 5336 of the Jewish Era begins Sept. 30th, 1875.
 Ramadan (Month of Abstinence observed by the Turks) begins Oct. 1st, 1875.
 The year 1292 of the Mohammedan Era begins Feb. 7th, 1875.

THE SEASONS.

Sun enters Aries, Spring begins	20d	12h	Greenwich mean time.
Sun enters Cancer, Summer begins	21d	9h	
Sun enters Libra, Autumn begins	22d	23h	
Sun enters Capricornus, Winter begins	21d	17h	

ECLIPSES.

In the year 1875 there will be two Eclipses, both of the Sun.

I.—A Total Eclipse of the Sun, April 5th, 1875. Visible in portions of Africa and Asia, and the intermediate Indian Ocean.

II.—An Annular Eclipse of the Sun, September 28-29, 1875. Visible in Canada. Begins on the earth generally Sept. 9th, 10h, 1m, a.m., mean time of Greenwich, in Longitude 61° W, Latitude 38° N. Ends on the earth generally, 29th, 3h, 54m, a.m., in Longitude 30° E., and Latitude 20° S.

The Sun's risings and settings are given for the Sun's centre, corrected for refraction.

The Moon's rising is given from full to change, and the setting from change to full.

FEBRUARY.

HYPOPHOSPHITES, first discovered by Dr. Churchill, of Paris, so far back as 1857, as the Remedy for Consumption, Throat, Bronchial and Chest Diseases; compounded according to his recipe, still stands unrivalled, year by year adding fresh proofs to its curative effects. It is recommended by the leading Physicians of Europe and throughout the Colonies; is palatable to take, promotes appetite, strengthens the nerves and muscles, improves digestion, creates healthy blood, and restores the phosphorus originally existing in the system. A fuller reference, however, to the action of this invaluable preparation will be found on page 8. The Victoria Hypophosphites, so well known throughout the country, is prepared according to the Formula of the Original Discoverer himself, and is obtainable at any Drug Store in Canada.
