

Two Mills Using Same Quality of Wheat May Not Produce Same Quality of Flour

The quality of flour largely depends on the milling. Two mills might grind wheat of the same quality and the product of one far outclass the other. It is not only the high quality of the hard wheat used, but also the superior milling facilities, that places "PURITY" flour so far above all others. Our milling plant at St. Boniface, Manitoba, cost nearly \$1,000,000, and is one of the most perfectly equipped mills in the world. The wheat itself is subjected to the most wonderful system of cleaning and scouring, passing through twenty distinct machines. Fifty-five steel rollers, the largest in Canada, reduce the wheat into flour. Then it is purified and dressed by "bolting" it through silk sifter of fine mesh. Not a "branny" particle or speck of dust is ever found in "PURITY" Flour.

You may have to pay a little more for Purity, but baking results, quality and quantity, prove it is worth far more than the slight difference.

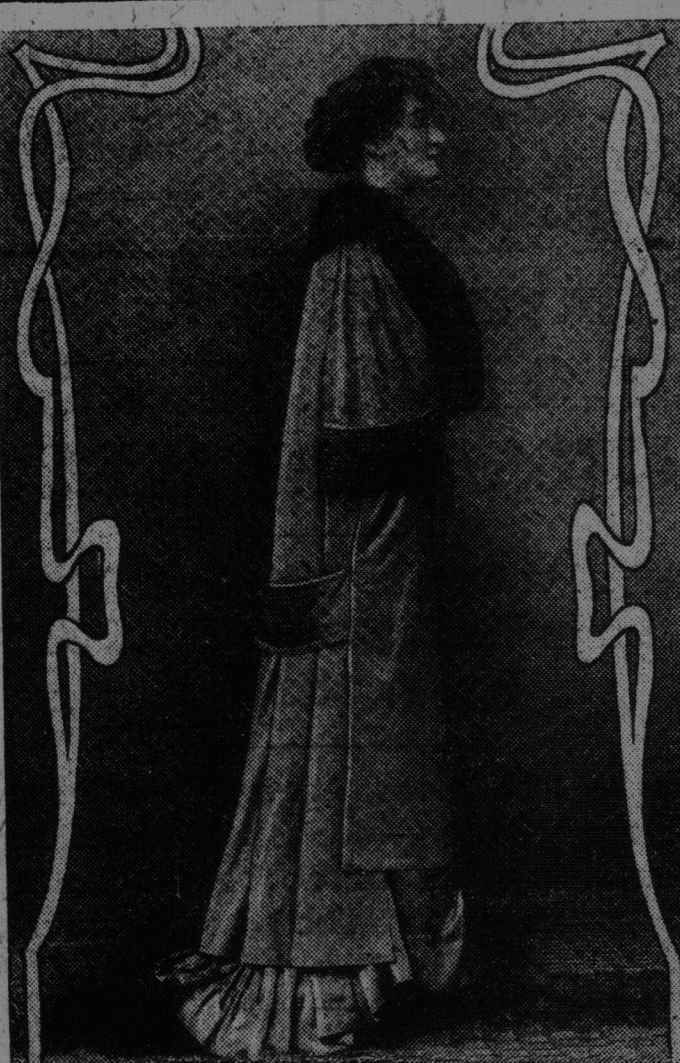

We have two other modernly equipped mills at Brandon, Man., and Goderich, Ont.

NOVEL WRAP IN RUSSIAN EFFECT
The broad strip across the back of this cloak, matching as it does the band trimming on the sleeves, makes a very smart effect. The cloak is of gunmetal broad cloth with a collar of black fur. The trimming bands are of satin in three shades of steel blue, and small cut-out heads are sewn thickly in rows over the blue satin. The coat is lined with blue satin in the medium shade.

THE MAN IN THE PULPIT

BY L. THE REV. C. R. FLANDERS, D.D.
The Man With the Fountain Pen

The pastor of the Centenary Methodist church is one of the pulpits of the city. He worthily maintains the high traditions of the important position he fills. With the rich experience gained by many years of ministerial labor, he retains a youthful freshness of manner and brightness of outlook. He is perfectly at home behind the sacred desk, and speaks with ease and vivacity. His words flow readily, and are simple, direct, and forcible. At times his style is brightened with the play of a lively fancy. He makes frequent use of illustrative incidents, which are told in an interesting, and sometimes, humorous way. He is not, perhaps, to be regarded as a profound thinker, but his conceptions of truth are clear, and are so expressed as to come home with equal clearness to the understanding of his hearers. In listening to him one feels that his ministry is practical and helpful. His pleasant voice is in it the tone of true sympathy. The whole service as conducted by him is restful and refreshing. Those who sit beneath his ministrations, coming from the toils and cares of the week, find comfort and strength in his quiet and spiritual message. They are not, however, allowed to remain indifferent to the message, and the strenuous aspects of the Christian life. They are placed before them lofty ideals; they are reminded of the necessity and blessedness of service for God and humanity; and, now and again, they are startled by the trumpet that summons to lofty warfare.

Dr. Flanders is decidedly evangelistic; he is a true product of Methodism; and best of all he is a good minister of Jesus Christ. His many friends will pray that his bow may long abide in strength.

WHAT A MAN EATS IN 70 YEARS

Rather a Surprise When It is Figured Up—Total 95 Tons

(New York Sun.)

If a man of seventy years was starving, it would probably be little comfort to him to think that he had consumed in the course of his life 83 3/4 tons of solid food and 42 3/4 tons of liquid, or about 126 tons in all. The average man, however, consumes much more than this. He eats, on an average, about 120 cubic feet of food and 60 cubic feet of liquid, or about 180 tons in all. This is a surprising amount, considering that the average man weighs only 150 pounds. The average man also consumes about 100 cubic feet of water, or about 15 tons in all. This is also a surprising amount, considering that the average man needs only about 50 cubic feet of water to live. The average man also consumes about 100 cubic feet of air, or about 15 tons in all. This is also a surprising amount, considering that the average man needs only about 50 cubic feet of air to live. The average man also consumes about 100 cubic feet of sleep, or about 15 tons in all. This is also a surprising amount, considering that the average man needs only about 50 cubic feet of sleep to live.

Deranged Kidney Action

Causes Florid Skin Blotches, Flushing

Mrs. Conrad Schmidt, Hamilton, discovered that a great many women would like to know the cause of redness, that unhealthy natural color suffuses the entire face. It is humiliating indeed to a refined person to always present the appearance of "drunk drinking." In writing of her case, Mrs. Schmidt says: "Cosmetics and local applications were quite useless. By reason of an aching pain in the back I was recommended by a friend to use Dr. Hamilton's Pills to relieve my kidneys. I discovered that the cause of redness, that unhealthy natural color suffuses the entire face, was the cause of my heightened color. Dr. Hamilton's Pills at once removed the cause of the pain and gave me a complexion that most young girls might envy. I have the most satisfactory proof that Dr. Hamilton's Pills not only regulate the organs but purify the blood thoroughly. No other medicine will so quickly clear the skin, cure pimples, eruptions and all blemishes. For general family use, as a blood cleanser and tonic laxative, Dr. Hamilton's Pills can't be excelled. Beware of substitutes. All dealers sell Dr. Hamilton's Pills, 25c. per box, or The Catarrhose Co., Kingston, Ont.

Those Corpuscles

In your blood—red and white, keep you well if they are healthy, cause you sickness if diseased. To make and keep them abundant and healthy, is to have pure blood, freedom from disease and vigorous health. The chief purpose of Hood's Sarsaparilla is to do this, and its success is attested by thousands of wonderful cures. Cures of all blood diseases, scrofula, eczema, rheumatism, catarrh. Get Hood's Sarsaparilla today.

STAGE OFFER TO RUNAWAY HEIRESS

Roberta du Janon Can Have \$2,500 a Week in Vaudeville

SUICIDE THREAT

Says She Will End Her Life if Walter Whom She Enticed Away is Punished—The Scene on Her Return Home

Philadelphia, Jan. 16.—Roberta du Janon, granddaughter and heiress of Millionaire Robert Brier, Ferdinand Cohen, the Bellevue-Stratford waiter with whom she ran away, and Tootsie, the girl's fox terrier, arrived in Philadelphia from Chicago. One of the first things the girl said when she was questioned here, and she repeated it again and again, was: "Fred didn't entice me away, I tell you. He didn't! He didn't! Can't you understand what I'm saying. He didn't entice me. It was I who enticed him, and if they make him suffer for something he didn't do, I'll commit suicide." The Broad street station and the station at West Philadelphia were thronged by thousands of curious people who wanted to see the couple. One hundred extra policemen were at the West Philadelphia station, where the prisoners were taken from the train by Detectives Emmanuel and Scanlon to keep the crowd back. As soon as the train stopped many persons tried to rush into the cars, but were held back by the police. The girl and her dog were hurried through the station to taxis, while the police guarded all exits from the station and refused to allow any one out until the case was safely away.

Tag Day for Funds for Poor Consumptives

Tag Day will this year in Winnipeg be set apart for one of the most laudable purposes for which it has ever been instituted, in fact, for its original purpose, namely, for the collecting of funds for the erection of an institution in Winnipeg for the free care of incurable consumptives. The day has been fixed for May 7, and the campaign will take place on that day in Winnipeg and every city and town of the province. The arrangements are under the direction of the provincial board of health, and the affair will be a grand success. The day has been fixed for May 7, and the campaign will take place on that day in Winnipeg and every city and town of the province. The arrangements are under the direction of the provincial board of health, and the affair will be a grand success.

PREACHER RAPS REVIVAL MEETINGS

Trenton, N. J., Jan. 17.—Addressing an audience of fellow-preachers at a meeting of the Methodist Minister's Association, Rev. George W. Ridenour, pastor of Wesley church, did not hesitate to criticize present-day revival methods and to take ministers of all denominations to task for failing to do their full duty in their pulpits for fear of losing their jobs. He said that while he is a firm believer in foreign missions, yet it is his opinion that there is fully as great need for missionary work among the people of Trenton as there is in Africa or other foreign countries.

PUBLIC LAVATORIES

(Ottawa Free Press.)

The Free Press is glad to note that, on the motion of Ald. Bower, the city council has appointed a committee to go into the question of the need and cost of providing public lavatories in various parts of the city. That such conveniences should be provided everywhere is agreed. The Free Press has on more than one occasion expressed dissatisfaction at the civic neglect in regard to this matter. Ottawa is behind the times. All the larger cities are now equipped with public lavatories. There is no reason why it should be left to the hotels to provide these conveniences. Two or three underground lavatories should be constructed in the downtown district of Ottawa at once. The cost would not be great—it would be infinitesimal compared with the public advantage which would accrue. Let us hope that Ald. Bower will press his proposal to a successful issue.

MULTITUDE OF DRUMSTICKS

Mr. White-Rambo, you seem fond of the leg of a fowl.

Rambo—Deed! Ah is. What a great institution de chicken would hab been de Providence had given him as many legs as a centipede!

The Times Daily Puzzle Picture

Had Suffered for Weeks—Used Fourteen Different Remedies Without Effect.

CURED QUICKLY BY "NERVILINE"

No stronger proof of the wonderful merit of Nerviline could be produced than the letter of Miss Lucy Mosher, who for years has been a well known resident of Windsor, N. S.

"I want to add my unsolicited testimony to the efficacy of Nerviline."

TESTIMONIAL

NO. 3785

Nerviline. I consider it the best remedy I have ever used for a cold, sore throat, wheezing tightness in the chest, etc., and can state that for years our home has never been without Nerviline. I had a dreadful attack of cold, settled on my chest, that fourteen different remedies couldn't break up. I rubbed on Nerviline three times a day, and was completely restored. I have induced dozens of my friends to use Nerviline, and they are all delighted with its wonderful power over pain and sickness. "You are at liberty to publish this signed letter, which I hope will show the way to health to many that need to use Nerviline." (Signed) "LUCY MOSHER."

All sorts of aches, pains and sufferings—internal and external—yield to Nerviline. Accept no substitutes. Large bottles 50c.; trial size, 25c. All dealers, or The Catarrhose Company, Kingston, Ont.

ONLY ONE JOB FOR TAMMANY MEN

Mayor Gaynor and Patronage—The Wakefield Smallpox Situation—U. S. News Notes

New York, Jan. 16.—Like other animals, the Tammany tiger must be fed, but since William J. Gaynor was elected mayor of Greater New York, the tiger's diet has been almost exclusively kind words, Chas. F. Murphy, the leader of Tammany, has paid three visits to the Gaynor house in Brooklyn and three to city hall, but he has brought away hardly more than a cheerful smile. Nevertheless, every Tammany office-seeker continues to be told: "You must see Murphy first."

The "ages" of the organization have worked out an explanation for this anomaly which is both ingenious and instructive. The mayor is reported to have said to Murphy: "I am grateful to you for your support in the campaign. Any names you submit shall have preference. But they must be good names."

Of thirty-five Tammany district leaders, just one has got a job. Of the long list of new commissioners appointed at salaries ranging from \$5,000 to \$7,000, just one is a Tammany man—Rhineclander Waldo, the new vice-consul at the Interior. The thing Waldo did was to abolish the private stable the city had been maintaining for the commissioner.

Wakefield, Mass., Jan. 16.—The continuation of the epidemic of smallpox which broke out here some two weeks ago afflicting fifteen persons and causing one death, resulted in the board of health today refusing to allow the Congregational church society to hold a service.

A notice was also sent out by the board that the schools, which have been closed for a week, would not reopen tomorrow, as intended, but would remain closed for an indefinite period.

Albany, Jan. 16.—Sensational developments, including an investigation by the grand jury of Onondaga county, are expected to result from the efforts by the state insurance department to take over the business and \$3,000,000 assets of the People's Mutual Life Insurance Association and League of Syracuse.

Superintendent of Insurance Hotchkiss has said that eight of the nine directors of the association received various amounts for permitting the control of the society to pass into other hands and that part of the money received from the alleged purchaser, John T. Lewis, was disbursed by Lieutenant-Governor White.

As a result of Mr. White's connection with the transaction, he has resigned as director of the First National Bank of Syracuse. The money paid to the directors was disbursed through this bank.

Attorney-General O'Malley announced tonight that action will be brought against the eight directors of the association who received money by transaction of Dec. 21, when the control of the association is alleged to have changed hands.

Boston, Mass., Jan. 16.—The steamers Harvard and Yale, which will resume daily trips to New York about May 1st, will be fitted up soon for burning oil, instead of coal. It is expected their Boston terminal will be changed from India wharf to Union wharf, the boats of the Eastern S. S. Company transferring from Union to India wharf.

New York, Jan. 14.—Twenty million dollars in common stock is to be the share of the stockholders of the International Harvester Company in the profits of the past seven years. The announcement that this "money" would be cut was made at the offices of J. P. Morgan & Co. here yesterday. The distribution is to be made ratably as a stock dividend to the present \$90,000,000 of common stock.

TO OURE A COLD IN ONE DAY

Take LAXATIVE BROMO SODIUM TABLETS. Druggist refund money if it fails to cure. E. W. GROVE'S signature is on each box. 24c.

THE REASON

Magistrate (in police court)—How is it that I see you every month?

Rastus Johnning—I guess 'cos you only cides me thirty days at a time.

DODD'S KIDNEY PILLS

CURES ALL KIDNEY DISEASES. RHEUMATISM, BRUISES, BRIGHT'S DISEASE, DIABETES, GRAVEL, ETC.

23 THE PR

NAVAL BILL STANDS OVER FOR PRESENT

Mr. Brodeur's Recovery Awaited—News Notes of Canadian Affairs

Ottawa, Jan. 16.—Hon. L. P. Brodeur continues to improve slowly, but there is no possibility of his being able to take up the arduous duties of the session for some time to come.

The naval bill, in consequence, will stand over until it is decided whether there is any possibility of Mr. Brodeur being able to pilot it through the house. In the meantime other business will be proceeded with.

There will probably be a debate towards the end of the week on Sir Wilfrid Laurier's motion to name a special committee to deal with charges made against N. P. R. engineers by Mr. Lamden, former chief engineer of the N. T. R. commission.

Should Mr. Brodeur have to go away for a holiday, Sir Frederick Borden, his colleague at the naval defence conference, will probably pilot the naval bill through the house.

According to the civil service list just issued there are approximately 3,500 civil servants in the government departments at Ottawa drawing about \$4,000,000 per annum. While fully seventy-five per cent of the civil servants draw less than \$1,000 per annum, the higher salaries paid make the present average \$1,282. There are 188 salaries of \$2,500 or over; 199 with salaries between \$2,100 and \$2,500; and 331 with salary limits of between \$1,000 and \$2,100.

Gloucester, N. S., Jan. 16.—As the result of a fracas among the Italians at Reserve, an Italian named Chas. Patroli was shot by a fellow boarder at the hotel at the hospital with two bullet wounds in his head, and it is feared death will result.

Moncton, N. B., Jan. 16.—At a meeting of the Labor Union last night to nominate candidates for civic elections which take place on the 26th, only two candidates were endorsed. The committee from Ward 2 named Con. H. B. Gordon and T. A. Fryers, while the committee from Ward 3, named H. H. Ayer and Temple Doyle were submitted for Ward 3, but this committee asked for an extension of time. The candidates for mayor, aldermen-at-large and Ward 1 were not endorsed. The meeting was attended by about forty.

The candidates in sight for mayor at present are Ald. E. A. Reilly and Ald. W. D. Martin.

Judge Ritchie, of St. John, lectured here tonight under the auspices of the Y. M. C. A. of this city, before a large audience. His subject was "Aids for Young Men," and he was listened to with great interest. Dr. L. N. Bourque presided, and at the conclusion the lecturer was tendered a vote of thanks, moved by F. P. Murphy, and seconded by Jas. Flanagan, and W. Boudreau. Short speeches in the addresses were made by F. P. Murphy, Hon. F. J. Sweeney and Father Savage.

SAYS STOVAIN WILL REPLACE CHLOROFORM SOON

New York, Jan. 17.—Dr. Thomas Jones, the eminent advocate of stovaine in surgical operations, sailed on the steamship Adriatic for Europe. Dr. Jones performed twenty-three operations while in America with the use of stovaine.

"Naturally the doctors here wanted to have the usefulness of my method proved to them," said the surgeon, "and I think it will be found that within two or three years stovaine will have displaced chloroform as an anesthetic in surgical operations."

LOST \$100,000 IN CARD GAME, HE SAYS

New York, Jan. 17.—The tale of a large sum of money lost at a card game is the subject of a motion made before Justice Hendrick in Frank Macdonald's case against William H. Nolan to recover a check for \$118,000.

It appears from the assertions of the lawyers, that Nolan and Philip McKenna engaged in the game in which a limit was set at \$1,000 on the cases and \$2,000 on doubles. Nolan, according to Joseph S. Epstein, Macdonald's counsel, backed the dealer. At the end of an all-night session McKenna was said to have won \$100,000.

"It's a novel thing to hear of a man who is running a gambling game losing so much money," commented Justice Hendrick after hearing the argument. "Usually it's the public that loses."

It appears that Macdonald who declares he had no part in the game, is the only one who is out any money. He says he can't collect from Nolan, as Nolan is trying to make it appear that he lost the amount he paid to McKenna in a gambling game and that the law protects him.
