

SOME STIRRING ADDRESSES GIVEN IN CITY YESTERDAY

Dr. Flanders Says Temperance People Should Turn Aldermen Out Because of Recent Actions—Rev. Dr. Raymond Speaks to Every Day Club on Liquor Question—Hon. Robert Maxwell Before Thorne Lodge.

In the course of his sermon in Centenary church last night, Rev. Dr. Flanders said that it was a mark of imbecility for the citizens to criticize the aldermen because when they voted for them they had virtually said they were all right.

The subject of the sermon was the Ideal City. Dr. Flanders said that since coming to St. John he had been taxed. In Ontario and Quebec he did not tax himself, but he had often felt speaking on public topics, but had always refrained because of the circumstances.

Men had been making great progress in material things, but there was room for great progress in the field of moral reform. The people as individuals must do this work, and the speaker expressed his belief that God had made it well for a prominent place and there would be no narrow lanes or alleys to shut out the sunshine and light of day.

The people as individuals must do this work, and the speaker expressed his belief that God had made it well for a prominent place and there would be no narrow lanes or alleys to shut out the sunshine and light of day.

Some lapidists, he said, seemed to care only for the rent and the price of the stone. Ten days ago, he said, a man took a house and moved in. Unfortunately he had neglected to sign a lease, and several days later, after sickness had come into the family, the landlord called with a lease in which a higher rent than had been agreed on was named.

In the ideal city emphasis would also be laid on the intellectual and moral life of the citizen. Public schools would be sufficiently large so that it would not be necessary to put sixty pupils in a room which ought to contain forty.

Dr. Flanders took issue with the aldermen for refusing to grant a vote on the local vote in some of the wards recently and said that if the temperance people did their duty these men would resign their office and retire into silence.

The speaker went on to inquire what would be the proper form of government for the ideal city. Abraham Lincoln's theory of government by the people, for the people, he thought, was too self-centered. The two great principles, Thou shalt love the Lord thy God with all thy heart, and thy neighbor as thyself, would be incorporated into the government of such a city.

TRY THIS FOR YOUR COUGH

Mix a half-ounce of Virgin Oil of Pine with two ounces of Glycerine and a half-pint of good Whisky; shake well, and take a teaspoonful every four hours. It is claimed this mixture will break up a cold in twenty-four hours, and cure any cough that is curable. Being free from opiates, it is far preferable to the ordinary cough remedies, and as it provides a quantity sufficient to last the average family entire year, it is as inexpensive as it is effective.

CAVANAUGH RESIGNS FROM POLICE FORCE

He Returns His Uniform and Equipment to Chief Clark and Will Go Back to the Fire Department.

Patrolman Matthew Cavanaugh, who was suspended for three days last Friday for delay in reporting to Chief Clark changes which he preferred against Patrolman Ira D. Perry, has resigned from the force.

Chief Clark said he would not stand in his way, adding that he had nothing against him and as far as the suspension was concerned Cavanaugh knew the cause and there would be no purpose in discussing it.

A little later Cavanaugh handed the chief his resignation in writing, and the chief's resignation was accepted. He joined the police force on Aug. 21 last.

When interviewed after the occurrence Chief Clark said beyond confirming the fact that Cavanaugh had resigned he had nothing to say. He was surprised when Cavanaugh came in and made the announcement.

A coincidence, in view of the recent investigation, is a report on the police books that the side door of the Brasley Drug Company in Mill street was again found open early on Sunday morning.

Acting Sergeant Scott and Policeman Totten made the report and say that they found the side door of the building open between 3 and 4 o'clock yesterday morning. The door is in a hallway off Mill street.

The police were a light burning at the foot of the stairs. There were also a number of lights in the upper part.

Acting Sergeant Scott opened the outer door, which was unlocked, and going to the side door, he turned the knob and the door opened. The key of the door was in the lock on the inner side.

After locking this door the policemen started back to work, and out of the front door, which they secured with their spring lock.

Charles E. Farrand, the manager of the drug company, was communicated with yesterday and said he could not understand the side door having been left open. It was the duty of one man generally to see that the place was locked up.

Mr. Farrand said he also happened that the janitor always locked the side door as far as he could see, nothing had been taken.
