

INKERMAN,

Set off last year in a separate field of labor, is in a prosperous condition.— New appointments have been taken up; still the work is not large. With the blessing of the Lord the membership has increased the past year almost one hundred per cent. One new class has been formed of 27 members. With continued prosperity it must soon become self-sustaining.

ARNPRIOR

Mission is situated on the east end of South Renfrew. It comprises the village and three country appointments. A delightful Sabbath School is held in the village. Some of the country appointments are difficult of access; still good has been done, and the mission is growing.

BUNTLY

Mission has changed its boundaries during the past year, having taken an appointment in the rising village of Almont, which bids fair for a very promising position in the future. The mission has increased financially, a parsonage having been built and other improvements made. The field is promising.

WESTMEATH

Embraces the townships of Ross, Westmeath and Stafford; has 9 appointments, 4 classes, with a membership of 98. The missionary writes: "I have travelled during the past year 2250, miles and preached 190 times. The mission has a good church and is in a growing condition."

RICEVILLE.

The missionary, Rev. W. Johnson, says: "This field still retains its boundaries, character, membership and relative position. Some financial improvement during the past year. Religious interest somewhat on the increase. Still a hard field to cultivate, and will probably be mission ground for some time to come."

ROXBORO

Has improved rapidly during the past year. Two churches have been dedicated to God, about free from debt. Spiritual interest good.
