

# FILM MAKERS LOSING MONEY IN FEATURE PLAYS

So Says Samuel Goldfish, Of  
The Lasky Feature Co.

## STAGE AND FILM NOTES

Local News of Interest — Steven-  
son's Famous "Treasure Island"  
Staged—W. S. Harkins' Visit  
The Hard-working Playwright

Samuel Goldfish, head of the Lasky  
Feature Play Co., in a recent interview  
declared that the motion picture indus-  
try was not only suffering at the pres-  
ent time from over-production but that  
it was being unjustly and undeserv-  
ingly attacked by uninformed writers for  
some of the magazines, who have en-  
tirely misplaced the motion picture as  
an amusement and as an art.

"Perhaps my statement that there is  
more money being lost in motion pic-  
tures than there is being made will be  
a surprise to a great many persons,"  
continued Mr. Goldfish. "But it is true,  
and the time is not far distant when the  
public will learn its lesson in financial  
loss, and when the motion picture in-  
dustry will learn the effects of its fol-  
ly by a severe and thorough readjust-  
ment of conditions."

"At the present time in the United  
States there is more motion picture film  
manufactured than there is film ex-  
hibited. No industry can long withstand  
without upheaval such an unhealthy  
condition."

"As regards the attacks against the  
photoplay art from writers who are  
misquoting and misrepresenting the  
aims of the men engaged in the indus-  
try, I think I am reflecting the opinion  
of other manufacturers when I say we  
are concerned only with the effects of  
these attacks. One of the greatest fac-  
tors in the growth and development of  
the motion picture has been the faith  
which the public has extended to earn-  
est effort. Consequently any unjust  
criticism that is unjust and untrue  
might serve to weaken this strong bond  
which the years have built between the  
public and the motion picture."

Mr. Goldfish said that much of the  
misconception of the present business  
and artistic status of the photoplay  
industry has been due to a general belief  
that before the present great develop-  
ment ends the motion picture will have  
supplanted the stage, and the rewards  
previously reserved to the theatre will  
come to the motion picture.

"It must not be inferred, however,  
that I am of the opinion as the execu-  
tive head of one of the big producing  
companies, that the future of motion  
pictures is not to be a brilliant one.  
Quite the contrary. I do believe that  
the day is not far distant, however,  
when the overexpansion and unsound  
conditions will right themselves. It will

# QUICK BEAUTY FROM Purer Blood

All Pimples, Blackheads, Boils and Im-  
purities Leave Quickly by Using  
the Greatest Blood Purifier,  
Stuart's Calcium Wafers

The action of Stuart's Calcium Wafers  
is wonderful indeed. The causes of  
nearly all poor complexions are the im-  
purities in the blood, and which show  
through the outer skin tissue. The blood

"Ladies, Only Pure Blood Ever Makes a  
Queenly Complexion. I Know!"

is constantly in motion, so that no com-  
plexion can ever be beautiful unless the  
entire blood stream is purified. This is  
why face creams and cosmetics utterly  
fail to give real beauty, and which com-  
plexion, rash, tetter and skin dis-  
colorations.

Stuart's Calcium Wafers are the most  
powerful blood purifiers which science  
has ever discovered. They at once be-  
gin their work and in a few days the  
result is seen in the quick disappearance  
of all pimples, red spots, boils, muddy  
complexion, rash, tetter and skin dis-  
colorations.

Stuart's Calcium Wafers are harmless,  
very pleasant to the taste, are put up  
in convenient form to carry, and can be  
obtained at any drug store, at 50 cents  
a box.

Follow the example of hundreds upon  
hundreds of women who have been  
made beautiful in this way. Send com-  
plete coupon today for free sample pack-  
age.

FREE TRIAL COUPON  
F.A. Stuart Co., 313 Stuart Bldg.,  
Marshall, Mich. Send me at once,  
by return mail, a free trial package  
of Stuart's Calcium Wafers.

Name \_\_\_\_\_  
Street \_\_\_\_\_

mean a cleaning out process, one of  
elimination of the anti and unworthy  
and survival of the fit. It will be a great  
benefit to the industry. For one thing  
unreasonably high salaries to artists will  
stop. The present made-up motion pic-  
ture among motion picture producers  
for the services of stars cannot long  
endure.

"There is a belief that money and  
money alone will bring success to mo-  
tion picture. This belief also will be  
dispelled. On the contrary, what will  
bring success in the future will be  
brains, artistic ideals and organization.  
And all these things cannot be had for  
so much money."

Glee Club Concert

The excellent concert given on Mon-  
day evening in the Opera House by the  
Harmony Male Glee Club is proof of  
what St. John can do in the musical  
line. The programme given was a  
"first-class" and well deserved the  
favorable comment given by the public.  
The programme was a well planned  
and well executed one, and the main  
point is that the voices are there, and  
should be possible to go further than the  
realms of concert and soar into operatic  
spheres. There are clever young  
singers in the city and the forma-  
tion of a mixed glee club for the pre-  
sentation of light opera would be a  
venture well worth attempting, now that  
it has been shown possible to provide the  
material.

Harkins' Visit

The visit of the W. S. Harkins Co. to  
open at the Opera House on Christmas  
day is being anticipated with consid-  
erable pleasure. According to reports he  
has gathered a capable company and his  
shoulder one of the best of the most  
popular of the season. "Our Wives," a  
well known comedy, will be the opening  
bill, and a strong English drama,  
"A Spy in the House," will be given in  
the evening.

"Fair and Warner" has a striking  
electric sign running at right angles to  
the facade of the Eltinge Theatre, New  
York, which is plainly visible all along  
42nd street. A quaint little old lady,  
hurrying along with her companion, stop-  
ped under it the other day and said:  
"Ain't New York wonderful? They're  
telling the weather in these signs now-  
adays!"

Nat Farnum, who played here last  
winter, was well received in Milwaukee  
this week with "The Tip Top Girls," a  
musical show.

Parisian Girls

The engagement of the "Parisian  
Girls" at the Opera House this week has  
proven popular with many of its patrons,  
but there were many present at the  
opening who would have wished for  
something milder. While the show con-  
tained many features of a bright and  
pleasing nature, it was too strongly bu-  
lesque to be stamped as musical comedy,  
and some of the lines and pantomime

# Had Palpitation OF THE HEART

ALSO WEAK and DIZZY SPELLS.

When the heart begins to palpitate it  
will beat fast for several seconds, then  
slow, then start to flutter, and a feeling  
of utter depression will come over your  
whole system, accompanied by weak-  
ness, fainting and dizzy spells, and if you  
should happen to wake up in the night  
with your heart palpitating, and that  
"all gone" sinking sensation, you feel as  
if you were surely going to die.

When you feel this way, you may be  
sure that both your heart and nerves are  
out of order, and what you require is a  
real good heart and nerve tonic, one that  
will build up and strengthen both the  
heart and nerve system.

For this purpose nothing can equal  
Milburn's Heart and Nerve Pills.

Mrs. J. S. Nicholls, Listowel, Ont.,  
writes: "I was weak and run down, my  
heart would palpitate, and I would take  
weak and dizzy spells. A friend advised  
me to take your Heart and Nerve Pills,  
so I started at once, and found that I  
felt much stronger, and my heart was  
ever so much better in a short time. I  
cannot praise your medicine too highly  
for it has done me a world of good. My  
husband has also been bothered with  
heart trouble, ever since childhood, and  
finds great relief by using your valuable  
pills."

Milburn's Heart and Nerve Pills are  
50 cents per box, 3 boxes for \$1.25, at  
all dealers or mailed direct by The T.  
Milburn Co., Limited, Toronto, Ont.

could well have been dropped. Applause  
however, was generous, for the audience  
on the opening was composed almost en-  
tirely of men, but it should be remem-  
bered that even under such circumstances  
it is not necessary to make indelicate re-  
marks. The programme given was good  
in places, but it would appear that there  
is sufficient material in the company to  
provide a better show.

Treasure Island Staged

"Treasure Island" has found its way  
to the stage at last. It is being pre-  
sented in New York at the quaint little  
Punch and Judy Theatre, and indica-  
tions are that it will prove a success. At  
any rate, the dramatized version of  
Stevenson's tale ought to be a great  
drawing card for the holiday season. No  
boy could fail to be thrilled at the sound  
of the men around the fire in the old  
Admiral Bewick, roving forth the sea  
with the immortal and blood-curdling  
refrain:

Fifteen men on a dead man's chest  
Yo-ho-ho and a bottle of rum!  
It was Jules Eckert Goodman who  
undertook the task of preparing "Treasure  
Island" for the stage. The critic all  
agreed that he has done the difficult  
task very well indeed. Heywood Brown,  
of the Tribune, says: "The chief draw-  
ing card of the play is the story of the  
task of the playwright who dramatized  
"Treasure Island" was to get the spirit  
of the man who said to 'mish the joy is  
to miss all.' Jules Eckert Goodman has  
not missed. Romance ramped at the  
Punch and Judy Theatre last night.  
Stevenson aimed at the heart of the boy  
when he wrote his story, but he struck  
the fancy of the world. To the boys  
"Treasure Island" is a life line. This  
double appeal is well preserved in the  
dramatization."

The reviewer of the Sun says:—"The  
Punch and Judy, with its beguiling old  
English atmosphere, the perfect plan to  
hear Stevenson's story told again from  
the stage. You may have read it under  
an electric light in the presidential suite  
of the newest and biggest hotel in the  
world, but all the joy in the book has  
never been yours if you never read it in  
the country with the wind rattling the  
windows and playing tricks with the light  
oil lamp on the table beside your head.  
Mr. Hopkins' playhouse is a life line.  
An evening spent with it is evidence  
enough that it was just what the time  
needed. A good picture, colorful, out-  
standing melodrama made its appearance in  
Broadway."

The Hard-working Playwright

Just how encyclopedic the education  
of a latter-day American playwright  
must be, is demonstrated by about the  
most thrilling three minutes in Broad-  
way these nights when a real business-  
like burglar "blows" the safe in the  
of the Hewitt Candy Company in  
the third act of Edgar Selwyn's new  
comedy, "Rolling Stones," at the Harris  
Theatre.

A well-known central office detective  
who attended the performance of the  
evening, was positive that if the "burg-  
lar" had never had any actual experience  
in the craft, he had, at least, profited by  
a bit of professional instruction. How-  
ever, the instruction was given by that  
"well-known central office detective" who  
removes a case from the window,  
definitely fits it in on the office car-  
pet, and enters. He moves about with  
his electric flash until he locates the safe.  
Without wasting time with the combina-  
tion, he drills a hole with a chest-bi-  
cious each of the hinges, blows out the  
shavings, pours in a quantity of nitro-  
glycerine "soup," attaches a battery and  
quickly blows off the door. Nothing is  
complete in the safe-blowing line has  
been seen on the American stage before  
or since.

Mr. Selwyn declares his information  
was derived from nothing more out-  
standing than assiduous reading of the  
daily newspapers which regularly con-  
tain accounts of the "last word from  
Paris" in safe-blowing technique.

MORNING WAR CABLES

There are many indications that the  
Germans are preparing for a great of-  
fensive movement on the western front,  
possibly in the St. Mihiel district, and  
the Russians also report indications of a  
concentrated attack by the Germans in  
the Dobruja district.

The German patrol boat Bunz has  
been wrecked on the island of Lange-  
land, in the Baltic Sea, and the bodies  
of several German officers were found on  
shore.

The destruction of a Zeppelin and the  
death of the entire crew is reported from  
Namur.

Killed in Auto Accident

Ambrose Smith, merchant and restau-  
rant keeper of New Glasgow, died yes-  
terday as the result of injuries received  
when his car turned turtle, pinning him  
underneath. His chauffeur, William Mc-  
Neil, was thrown clear and escaped un-  
injured.

Deferred Dividend Declared

The directors of the Nova Scotia  
Steel and Coal Company have declared  
a dividend of twelve per cent. on pre-  
ferred stock, covering the deferred di-  
vidends.

# SEVEN MILLIONS OF CARTRIDGES A WEEK

That is Record of One War Plant  
in Birmingham, Eng.

Birmingham, Eng., Nov. 8.—(Corre-  
spondence)—By the courtesy of the Min-  
ister of Munitions, Rt. Hon. David  
Lloyd George, a representative of the  
Associated Press has visited some of the  
largest munition establishments in this  
area, one of the eleven into which the  
country is divided.

Here, for example, is a factory where  
cartridges were made in peace times. It  
is not remarkable that in war times it  
is divided in size, in operation day and  
night, and with 700 employees. That  
seems the natural result of war.

But to see an enormous plant, cov-  
ering twenty acres, which a year ago  
were bare fields, with one building hav-  
ing a floor space of four acres, with 6,000  
employees, turning out the most delicate  
time fuses with regiments of men and  
women at work as if they had been at it  
for years—this is to grasp an idea of  
what England is doing and to realize  
why a cabinet post was created for the  
supervision of such undertakings, of  
which this gigantic establishment with  
its acres of delicate machinery is but one  
of thousands.

The cartridge factory is turning out  
7,000,000 cartridges a week. "We should  
be doing much more," said the manager,  
"if we could but get the machinery and  
the skilled labor that we know is com-  
ing."

The fuse output in this gigantic plant  
of mushroom growth was not stated, but  
the manager told the same story of the  
coming machinery and the coming skilled  
labor. The machinery, partly made in  
England, also has names of makers in  
New Britain, Canada; Providence, R. I.;  
Windsor, Conn.; Brazil, Ind.; Waynes-  
boro, Penn.; Cleveland, O., and other  
American cities.

"We have skilled laborers here from  
Denmark, Holland, Canada, even South  
America, and more are on the way," ex-  
plained the manager—another happy ef-  
fect of controlling the seas.

"Are many of these women wives of  
soldiers?"

"Hundreds, perhaps thousands. One  
advance of the British on the Western  
Front produced fourteen widows in one  
department. You see they work with a  
will."

The acres of roofs are dotted with  
British flags, with here and there a  
Belgian one. The refugees from the ter-  
rors of the German invader have been  
invaded need not be idle.

Indeed nobody need be idle in Birm-  
ingham, perhaps in all England if he  
or she is able to work. The Birmingham  
papers are full of advertisements calling  
for men, women and children to work in  
munition factories, and even the jeweler  
advertises: "Now that work and money  
are plenty, buy, etc."

It is as if England were planning to  
carry on war for years and years. Some  
of all this output is for Russia and other  
Allies.

What will these new plants be making  
a year or two or three years from now  
when the war is over?

"That's another problem," added the  
staff captain. "Our job is to get munitions  
with which to kill Germans."

And the staff captain, who is a man of  
letters, added: "The cartridges and shells  
made in the Birmingham area could  
reach its mark the war would soon be  
over."

# SIXTEEN KILLED AND MANY INJURED IN TRIPLE COLLISION ON ENGLISH RAILWAY

Sixteen persons are known to have  
been killed, more than fifty others in-  
jured and several are missing as the re-  
sult of a triple collision between a pas-  
senger train, a freight train and a pilot  
engine in a dense fog near Jarrow, Eng-  
land.

# CURES CATARRH, BRONCHITIS BY SWIFT CERTAIN METHOD

Thousands of drug fiends have been  
started on their downward course  
through catarrh snuffs containing some  
habit-forming drug. If you suffer from  
coughing or catarrh—don't use a  
snuff—use a sensible treatment like  
Catarrhoxone. It heals and soothes.  
In bronchitis and throat trouble no doc-  
tor can do better than prescribe Catarrh-  
oxone—try it—see what wonders it  
works—what power it possesses. Differ-  
ent from the old way—you inhale Cat-  
arrhoxone, the dollar outfit which in-  
cludes the inhaler and is guaranteed.  
Smaller sizes 50c; sample size 25c at  
all dealers.

There is still in operation in Japan a  
shipbuilding yard which was estab-  
lished 1900 years ago.

# Xmas Week

Will be ushered in Monday, as  
far as business is concerned,  
and we would again draw at-  
tention to the fact that  
EARLY SHOPPING IS  
MORE SATISFACTORY TO  
BOTH CUSTOMERS AND  
DEALER.

If your purchases require en-  
graving, why not buy NOW  
and save possible disappoint-  
ment.

Soldiers' Prize Contest

Remember the Soldier Boys.  
If you have already voted, can-  
vas a friend. The prizes, valued  
at \$100, are well worth a  
little special effort.

**For the GIRL WHO IS THIN**

It is all very well for fleshy people to admire  
a slim figure, but no girl likes to be referred to  
as "thin as a match" or "flat as an ironing-  
board."

Thinness means that the tissues are not pro-  
perly fed and nourished. It indicates a ten-  
dency towards anaemia, which must be  
overcome in its early stages. You may eat  
plenty of food, but you are losing weight, and  
with it reserve force. The blood has got thin  
and watery.

It is usually the nervously energetic girl or  
woman who wears herself down by worry and  
anxiety, until the nerves become irritable and  
the form emaciated.

This condition never rights itself, and for  
this reason you must seek external assistance,  
such as is found in Dr. Chase's Nerve Food.  
This treatment should not be confused with fat-  
forming, oil-composed preparations. It is  
rather a true tonic, which sharpens the ap-  
petite, improves digestion and restores richness  
to the blood. Through the medium of the  
blood it feeds and nourishes the starved cells  
and tissues back to health.

Under this restorative, upbuilding treat-  
ment the angles disappear, and the form is  
rounded out to healthy proportions. The new  
tissues formed are strong and firm, and give to  
the body the buoyancy and vigor which makes  
you look well and feel well. Nervous head-  
aches and indigestion disappear, and you feel  
again the joy of living. You can prove the  
benefit obtained by noting each week your in-  
crease in weight.

50 cents a box, 6 for \$2.50. All dealers, or  
Edmanston Bates &  
Co., Ltd., Toronto.

Dr. Chase's Recipe Book, 1,000 selected recipes, sent free if you mention this paper.

Dr. Chase's Recipe Book, 1,000 selected recipes, sent free if you mention this paper.

# St. Stephen's Cadets

The annual meeting of the St. Stephen's  
Cadets, which was held at the St. Stephen's  
Hotel, was held last evening, when most  
satisfactory reports were presented.  
Following the meeting a banquet was  
given by the cadets, and the evening was  
spent in a most enjoyable manner. The  
banquet was given by the cadets, and the  
evening was spent in a most enjoyable  
manner. The banquet was given by the  
cadets, and the evening was spent in a  
most enjoyable manner.

# MY TERRIBLE HACKING AND SPLITTING COUGH

WAS ENTIRELY CURED BY  
DR. WOOD'S NORWAY PINE SYRUP.

Mrs. Clara Jackson, Huntsville, Ont.,  
writes us under date of January 12th,  
1913: "I have been suffering from a  
coughing and splitting cough for many  
years. I have tried many remedies, but  
nothing has done me any good. I have  
been told that I should try Dr. Wood's  
Norway Pine Syrup, and I have done so.  
I have taken a bottle of it, and I am  
entirely cured. I feel like another woman.  
The terrible hacking and splitting  
cough, which troubled me all through the  
winter, is entirely cured. I would certainly  
recommend it to anyone troubled with  
coughing or lung trouble. I have not words  
too grateful to give you."

All obstinate coughs and colds yield  
quickly to the action of Dr. Wood's  
Norway Pine Syrup, combining as it  
does all the lung healing virtues of the  
Norway pine tree, and the soothing,  
healing and expectorant properties of  
other excellent herbs, roots and barks.

"Dr. Wood's" has been on the market  
for the past twenty-five years, and we  
claim that it is the best cure for a cough  
or cold that you can possibly procure.  
The thousands of testimonials we have  
received prove that our claim is right.  
All we ask you to do is to see that you get  
"Dr. Wood's" when you ask for it, and  
don't accept some no-account substitute.

Dr. Wood's Norway Pine Syrup is  
put up in a yellow wrapper; three pine  
trees the trade mark; price, 25c and 50c.  
Manufactured only by The T. Milburn  
Co., Limited, Toronto, Ont.

There is still in operation in Japan a  
shipbuilding yard which was established  
1900 years ago.

# "77"

Humphreys' Seventy-seven  
For Grip, Influenza,  
COLDS

ACCELERATED ACTION.

Those who do not respond quickly to  
Homoeopathic treatment, can accelerate  
the action of "Seventy-seven" by alter-  
nating with Number One.

To get the best results, take "Seventy-  
seven" at the first feeling of a Cold—  
lastly.

Brotherhood Banquet

The annual banquet of the German  
street church brotherhood was held last  
evening with about one hundred mem-  
bers present. Speeches were given by  
the president, H. C. Marr, T. H. Es-  
tbrook, Rev. F. S. Porter, Dr. W. P.  
Bonnell, R. C. Haley, H. L. Ganter, E.  
B. Jones, W. F. Nobles, E. C. Brown,  
E. L. Risniz, G. N. Hatfield.

# ONTARIO'S GOVERNOR TO BUILD UP MERCHANT MARINE ON ATLANTIC

New York, Dec. 12.—William Downer,  
manager of the Standard Shipbuilding  
Corporation, recently organized with a  
capital of \$3,000,000, says that they pur-  
pose of the company is to help build up  
the American merchant marine on the  
Atlantic seaboard and to take advantage  
of the opportunities that will come to  
the American flag on the sea when the  
war is over. The new company has taken  
over the 30-acre plant of the  
Townsend & Downer shipyard at  
Mariners Harbor and work will be be-  
gun to double its capacity. It is an-  
nounced that contracts for the next  
several years have been underwritten  
and that a definite plan for shipbuilding  
has been decided upon.

# Million Dollar Residence Com- pleted and Sir John and Lady Hendrie Take Possession

Toronto, Dec. 12.—Sir John Hendrie,  
Lieutenant-Governor of Ontario, and  
his household are now "at home." Since  
he accepted office Sir John Hendrie and  
his family have been living in temporary  
quarters, but yesterday they took pos-  
session of the massive million-dollar  
residence in Rosedale that the Ontario  
government has provided for the king's  
representative.

The moving in was carried out quietly  
and unobtrusively for several days past.  
Furniture and other household goods have  
been taken from the temporary Govern-  
ment House to the new residence, and only  
a few loads had to be moved and  
Sir John, Lady Hendrie and other mem-  
bers of the household were installed  
before evening.

For the present at least there will be  
no formal reception in the new Gov-  
ernment House, apart from the custom-  
ary reception on New Year's Day.

The beautiful building of which the  
Lieutenant-Governor has just taken pos-  
session was commenced about three  
years ago following the sale of the old  
Government House property at King  
and Spadina streets. The new site chosen  
is said to have been the one best fitted  
by the late Sir James Whitney. It over-  
looks the Don Valley and some objection  
was taken by critics on the score that  
the building would be in the valley  
view. The fact that the level of the  
grounds was to be lower than nearby  
streets also brought protests, but the  
wonderful results achieved by the archi-  
tects and landscape designers are an  
effective answer to all criticism on this  
score.

The actual cost of the completed  
building and furnishings has not been  
given, but it is expected to fall some-  
what short of a million and a quarter  
dollars.

# NOVA SCOTIA COAL TO BE TESTED BY ADMIRALTY

Shipments Will be Made Shortly to  
West Indies Stations

London, Dec. 12.—For some time past  
Nova Scotia has been anxious to obtain  
an Admiralty test of washed nut coal  
obtainable in that province.  
Sir George Perley and Agent-General  
Howard, who approached authorities  
here, have received intimation that a  
telegram has been sent to the com-  
mander-in-chief of the West Indies sta-  
tion instructing him to arrange the  
earliest possible test of this coal on Ad-  
miralty vessels. They are also consider-  
ing the possibility of making a similar  
test on warships on the same station.  
A quantity of the same coal is also to  
be sent to Portsmouth for testing.

# Use the Bomb in China

Shanghai, China, Dec. 12.—A bomb  
was thrown last night at the building of  
the Asiatic Daily News, a newspaper  
published in the Chinese language which  
was launched last September for the  
purpose of pushing the propaganda for  
the restoration of the monarchy. The  
damage was slight and there were no  
casualties.
