Some of the marked advantages of the TELEPHONE business have over other methods of making money.

It shares in general prosperity and reaps an advantage in the average increase in values, and yet it suffers less than others when hard times come.

It supplies a necessity of life. Its income is stable and non-fluctuating, and the number of its telephones may increase largely and steadily.

It does not have to move its exchange because of a change in the business center of a city.

It is easy for it to extend its cables to supply increased demands.

A large proportion of its property may be economically shifted to meet varying public needs, and new lines begin to earn money before the bills for labor and material are due.

It does not make things to sell, and therefore carries no large stock of goods, nor does it need to hold idle vast quantities of raw material.

An inspection of the business of the New Brunswick Telephone Co. will verify the foregoing statements.

We can furnish you with this information. Why not send for it?

PORTUGAL DIVIDED AGAINST ITSELF; SITUATION SERIOUS

Downfall of the Government May Come — Strikes Develop and Some 40,000 Men Are Out

Lisbon, Aug. 28.—(Canadian Press)—The political situation in Portugal is taking a serious turn. The republican party is completely divided. The advanced element under the leadership of Alfonso Costa, provisional minister of justice, and the conservative section under Antonio Almeida, provisional minister of the interior, and Senhor Camacho, declared open war at the lecture on the presidency, the moderates winning the day.

The general opinion is that the government will be unable to resist the force of the attack of the ministers, and in such case dissolution of the chamber will be inevitable.

Strikes threaten to have serious effect on the coast. Forty thousand cork cutters, lighter men and vineyard workers are now out. The Diaro Noticias reports that at Moita, Alameda, Aldegalga, Alentejo and other villages opposite Lisbon, which are centres of the cork cutting industry, the people are abandoning their homes in fear of the riotous mobs.

Official buildings are closed, and guarded by the militia, and the streets are patrolled by the troops.

FIRE DANGER THREATENING THE BIG MILLS

(Special to Times)

St. John's, Newfoundland, Aug. 28.—Four fires again threaten the Reed Pulp & Paper Mills today, on the south bank of the Exploits river, a quarter mile from the mill. The fire is raging with renewed fury, fanned by a strong southwest wind, which is sending the flames straight over toward the mills on the opposite side of the river. The banks are lined with men fighting desperately to save the property. The outcome was uncertain up to noon.

CHEERING CROWDS GREET SIR WILFRID LAURIER AT THE STATION AND HOTEL

(Continued from page 1)

thought to attend the meeting. There is not the slightest doubt, said the senator, that Col. McLean will be elected in Queens-Sunbury and it would be surprising if all of his majority were double that of the last election. The Tory appeals seem to be falling on deaf ears and the party speakers are getting very cool receptions wherever they go. It is the opinion freely expressed in the country that the Conservative candidate has not any chance whatever of being elected.

MR. TODD SURE OF ELECTION IN CHARLOTTE

Senator Gilmore, who is in the city today, said this morning that there was no doubt that W. P. Todd, the Liberal candidate in Charlotte, would be elected with a handsome majority.

"The Conservatives are losing ground every day," said A. E. Bentley, M. P. P., "and I am afraid that by election day they will be able to count their noses in Charlotte county. The fishermen and farmers of the county are taking but little stock in the Liberal party. They are not interested in the election, and one and all they seem to be greatly in favor of the stand taken by the Liberal party."

W. P. Todd, the Liberal candidate in Charlotte, who arrived here at noon, was waiting for the train at the station. He was met by a large number of his supporters, and he was warmly greeted by the people throughout the county. He was practically unanimous as regards the benefit accruing from the reciprocity agreement, and if they voted against it, their action was due to party prejudice. He felt firmly that the result of the election would be in favor of the Liberal government's platform.

DR. ATHERTON'S CHEERY REPORT FROM YORK

Speaking of the outlook in York county, the Liberal candidate, in this city today, Dr. Atherton, said that prospects seemed particularly bright.

HON. MR. MARCIL LOOKS FOR LIBERAL GAINS

Hon. Charles Marcil, speaker in the house, was enthusiastic with the warmth of the reception accorded Sir Wilfrid, and Hon. Wm. Pugsley along the route of travel, and participated in the banquet at once gripped the interest of all who saw them.

The chief was in the best of health. He is firm in his belief in the re-election of his party. At Valleyfield he had addressed a largely attended meeting on Saturday, and on Sunday he returned to the city, where he was met by a large number of his supporters, and he was warmly greeted by the people throughout the county. He was practically unanimous as regards the benefit accruing from the reciprocity agreement, and if they voted against it, their action was due to party prejudice. He felt firmly that the result of the election would be in favor of the Liberal government's platform.
