Ludgate Stops Work

On Deadman's Island Until Some Definite Agreement is Reached

He Expects Sensational Developments in the Course of a Few Days.

Vancouver, May 9.—(Special)—A large party of men went over to continue work on Deadman's Island this morning, but when about to begin Mr. Ludgate sent word that he had no work to do.

Mr. Ludgate says he has made arrangements with Hon. Mr. Martin to suspend operations for a few days, pending a definite understanding being arrived at between the Provincial and Dominion Governments. This delay will be the last, he says, as in a few days there will be sensational developments.

Mr. Maxwell, M. P., wired to Mr. Ludgate as follows last night: "Hold possession of the island, the Dominion Government will vindicate your rights. Meantime the possession by you makes title good, and your lease gives you full rights."

Interview With Hon. Mr. Martin. In an interview this morning, Hon. Mr. Martin said: "It is quite clear if the Government refuses to deal with the matter until the question of law between it and the Dominion Government is settled, that Mr. Ludgate will be obliged to look elsewhere for a location, as it is not likely that such a question can be settled for a good many months to come. As the local Government has stood by for twelve years, and allowed everybody to think that the Dominion Government owned this property, it would appear to me to be a very unfair thing to offer the island for sale without taking precautions to insure the erection of some kind of manufactory there which would give the city the same benefits it has been led to expect from Mr. Ludgate's enterprise."

"My view is that the Province should dispose of the island under such conditions as would protect the general interests of the Province and at the same time ensure the establishment of an industry for the benefit of Vancouver, and I see no reason why that step should not be taken at once; the transfer being made conditional upon the Province finally obtaining the title.

"If this course should be adopted and for any reason Mr. Ludgate still abandons his location in Vancouver, no one could charge to the Provincial Government the loss that would result to the city."

VANCOUVER NEWS NOTES.

Pacific Cable Offer—Action of Government Endorsed—Early Closing Nothing New About Deadman's Island.

Vancouver, May 10.—Vancouver Board of Trade last night passed a resolution endorsing the action of the provincial government in proposing to subscribe \$1,000,000 to the Pacific cable project.

The storekeepers have decided to close each evening except Saturday at 7 and have a half-holiday every Wednesday.

Hon. Mr. Martin left on the Chamher today.

There are no new developments in the Deadman's Island affair.

CARNEGIE'S FORTUNE.

He Will Reserve Only a Small Portion For His Daughter.

New York, May 9.—The London correspondent of a morning paper quotes Mr. Andrew Carnegie in an interview as saying in answer to a question regarding the disposition of his fortune of \$200,000,000: "I intend to distribute my wealth, reserving only a provision against any anxiety for the future of my daughter. She will not be a great heiress. My time will be spent in searching out good objects, both in America and Great Britain, and in writing."

TRAINS SEIZED BY SHERIFF.

Guthrie, O.T., May 10.—Two freight trains and a passenger train on the Atchison, Topeka and Santa Fe road were stopped by a sheriff and an armed force of deputies at Norman yesterday and chained to the track. This property was levied on to collect \$7,000 taxes owed by the railroad company for 1928. The company tendered the county treasurer all the taxes and a mill levy for schools which was in dispute, and the company now has a suit against the county for collection.

MONTREAL STOCK MARKET.

Montreal, May 9.—Stock market, morning session. War Eagle xd sellers 305, buyers 307, sales 1,500 at 307; Payne ad, sellers 305, buyers 300, sales 500 at 303; Montreal and London sellers 60 buyers, 65; Republic of M. C. 133 buyers 132 1/2, sales 750 at 132; 200 at 132 1/2 and 100 at 133.

OTTAWA NOTES.

Ottawa, May 9.—An act to incorporate the Northern Telegraph Company passed the railway committee today. Those asking incorporation were: D. C. Corbin, Spokane; Duncan Ross, Greenwood, B. C., and others. The capital stock of the company is placed at \$50,000. The head office is to be at Greenwood. The company may construct and operate lines between such points in Yale, West Kootenay and East Kootenay as the company may desire. Mr. Bostock was in charge of the bill. The Dominion government has under consideration the question of amending the Election Act, so that when by-elections take place in any province of the Dominion they will be held on the latest revised lists. There is no immediate intention of doing this, but it will likely be accomplished in the near future.

CHINESE AND CUBA.

Washington, May 9.—The Chinese legation here has made a strong protest to the state department against the extension of the Chinese exclusion act to Cuba. Mr. Yung Kwal, attache of the legation, says that in view of the fact that Chinese would make the best kind of citizens for the settlement, he believes the order would be modified so as not to exclude his countrymen. The Dowager Empress, he adds, has recently granted most liberal protection to Americans, and wishes to become more closely allied with America, and this country will be going against its own interests if it refuses to meet China half way. Secretary Hay said the matter was under consideration by the state department.

Shipping Disaster

The Loch Sloy Wrecked Off the Coast of South Australia.

Five Passengers and Twenty Five of the Crew Drowned.

Adelaide, South Australia, May 9.—The British ship Loch Sloy, from the Clyde for Adelaide and Melbourne, has been wrecked on Kangaroo Island.

Five passengers and twenty-five of the crew were drowned. Three men who were on the vessel have been landed.

Kangaroo island lies off South Australia, and is 95 miles in length east to west, and 25 miles in width north to south. The island, which has abrupt indented shores, was discovered by Captain Flinders, and named after the animal that abounds there; and is now visited chiefly by whale and seal fishers. The population is about 300.

Subsequently two sailors from the Loch Sloy were saved after wandering in the bush, where they were obliged to leave the passengers four days ago. They were then starving and helpless, and are now probably dead. The privations endured by the sailors were frightful.

ANGLO-AMERICAN COMMISSION.

Washington, May 9.—It is stated that the joint high commission will not be reconvened in August. The conference adjourned after having made good headway, as it was thought at the time, towards the drafting of an agreement, owing to an unexpected and insurmountable obstacle in the shape of the lumber and boundary questions. It was to meet again in August. It was hoped that some of the difficulties that had presented themselves in the way of a conclusion of the work of the conference might in the interim be removed by diplomatic negotiations. It has now been demonstrated, however, that the temper of neither side has yielded sufficiently to warrant the expectation of any successful result attending the re-convention of the commission.

BRITISH COLUMBIA'S OFFER.

London, May 9.—Mr. J. F. Hogan, Home Ruler, asked in the House of Commons today if, in view of British Columbia's offer to bear one-ninth of the cost of the Pacific cable, the government would reconsider its own proposals and endeavor to bring them in harmony with the wishes of the Canadian and Australian governments. Mr. Chamberlain, secretary of State for the Colonies, said that he had not received the replies of the colonial governments, but that if representations were made in their behalf with reference to Great Britain's offer, they would be carefully considered.

ANOTHER FATAL CYCLONE.

Wichita, Kas., May 10.—A cyclone struck Coldwater, Kas., last night completely destroying 12 houses and killing Jos. Bowers, a prominent cattleman. A general store was wrecked and a brick block blown down. The Presbyterian church was blown away and the court house unroofed.

DR. A. W. CHASE'S CATARRH CURE... 25c. Is sent direct to the diseased parts by the Improved Bloating Pills. It is the only medicine that cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

Kensit's Protest

Scene at To-Day's Sitting of the Archbishopal Court in London.

The Noted Anti-Ritualist Accuses Archbishops of Having Broken Their Vows.

London, May 9.—There was a scene during to-day's sitting of the archbishopal court, which convened yesterday for a hearing of the charges of ritualist practices against the Rev. Henry Westall, vicar of St. Outberts, Philbeach Gardens, and Rev. John Hall, vicar of the Church of St. John, Timber Hill, Norwich.

During the proceedings, John Kensit, the noted anti-ritualist, arose from a seat at the back of the guard room of Lambeth palace, where the court is sitting, and shouted: "I wish to protest against this so-called spiritual court, especially against an inquiry by your graces, who, for years, have deliberately set at naught your solemn ordination vows, and allowed and often promoted well known law-breakers in the church."

A storm of hisses greeted the speech, and the Archbishop of Canterbury, the Most Rev. Frederick Temple, cut Mr. Kensit short by adjourning the court for fifteen minutes, amid cheers and derisive laughter.

COAL TRAIN DERAILED.

Fifteen Cars Completely Smashed, But No One Injured.

Departure Bay, B. C., May 9.—The Esquimalt & Nanaimo railway's coal train, running between this place and Wellington, with fifteen cars heavily loaded, with coal, jumped the track yesterday morning, completely smashing up fourteen of the cars and slightly damaging the engine. Fortunately no one was injured, but one of the brakemen just saved himself by jumping in the nick of time.

BRAVERY OF U. S. SOLDIERS

Late Advances From Manila Tell of Many Deaths of Daring in the Philippine Islands.

Manila, April 2, via San Francisco, May 9.—Instances of personal bravery have been noted quite as numerous among the American soldiers in the Philippines as during the campaign in Cuba, but correspondents have not had the same opportunity to chronicle these deeds of daring in the Orient because of the thickness of the country penetrated. Many heroic acts were also unheeded for days after their occurrence.

When Captain Hale was assigned to a brigade in the Philippines he appointed Captain Clay, who had displayed considerable bravery in Cuba, to the position of adjutant. On the first day of MacArthur's advance Capt. Clay received

A Bullet Through the Neck.

He lays six hours in the jungle before he was discovered, and the wound was dangerous, his life despaired of. When brought to the hospital it was thought best that his family should be informed he was but slightly wounded. He is now, however, well on the road to recovery.

Among those officers who have fallen to one will be longer or more loyal remembered by his comrades than Lieutenant Gregg of the Fourth Infantry. His fearlessness and confidence in his powers contributed to his death. In the beginning of the hot fight at Marquina, which General Hale occupied with such skill and success that it was worth more attention than the overshadowing importance of MacArthur's advance permitted, Gregg was near his Chief.

The horse he rode had just been shot under him, and he was falling off the saddle when a man warned him that a shot had been fired by a sharpshooter in a tree nearby. Refusing to take cover, as most of the men were doing, the lieutenant stepped forward and standing erect unceasing his field glasses to look at the tree. Just as he raised them to his eyes a puff of smoke was seen in the tree, Gregg put his hand to his breast and fell forward killed instantly.

An Officer Wounded.

Manila, May 9, 6:35 p. m.—A reconnoitering party from Major-General Lawton's command, and which consisted of two companies of the Mile company and two companies of the Oregon regiment, under Major Digzies of the Minnesota regiment, advanced yesterday to a point about ten miles north of Baling. There the Americans were met with a volley from a force of rebels behind a trench. Major Digzies was wounded.

Major Digzies was wounded in the head and a private soldier was also wounded. Major Digzies and the private, together with ten typhoid patients, were brought by a special train to Manila today.

The Don Jose, the last of the steamers under the American flag, which were detained by the insurgents since the beginning of the war, was found by the gunboat Manila at Batangas, and arrived here today.

THE PEACE COMMISSION.

Proposals Which the United States Delegates Will Submit.

London, May 9.—The Standard's Berlin correspondent says: "The United States delegates to the peace conference at The Hague have instructions to advance three leading principles—the institution of courts of arbitration, the extension of the prohibition of Paris of 1856 to the non-confiscation of cargoes not contraband of war, and the extension of the Geneva agreement to war by sea."

VENEZUELA ARBITRATION.

As Mr. Maerens Will Attend it is Expected the Peace Conference will be Brief.

Washington, May 10.—The British-Venezuela arbitration, which was to begin at Paris on the 24th of this month, has been postponed until June 15. An inference has been drawn from this postponement that the Carr's assess congress will be brief, as Mr. Maerens, the embassier Rus in London, is one of the Russian delegates to the Carr's congress, and is also one of the arbitrators on the British-Venezuela question. It had been expected that Mr. Maerens would leave the congress while in session.

THE RUSSIAN FAMINE.

St. Petersburg, May 10.—At the instance of the Caarina two commissioners have been sent to the famine stricken district of Russia to enquire into the distress there and take prompt means for its alleviation. The Caarina has given 50,000 roubles for the relief of the sufferers.

Outrage by Strikers

Attempt to Blow Up a Duluth Street Car With Dynamite.

Ten Passengers Slightly Injured—Mobs Destroy Tramway Company Property.

Duluth, Minn., May 10.—At one o'clock last night an attempt was made to blow up a West Duluth street car with dynamite. Ten passengers in the car all received slight bruises. The car was thrown violently on its side and the trucks were blown to pieces. No arrests were made.

The strikers have been quiet for several days and more cars run yesterday than at any time since the trouble began.

Mobs in different parts of the city attacked the cars with stones, breaking in the windows and wrecking the cars. There is talk of calling out the militia to protect the company.

GOLD QUARTZ NEAR HAINES.

A Deposit Similar to the Treadwell Property.

News was brought by the steamer City of Seattle that good gold quartz has been found by a Mr. Everest near Haines Mission. Actual assays give \$6 in gold and \$17 in copper to the ton. This deposit of ore is within six miles from the landing place at Haines Mission, and on Sunday Mr. DeWitt, Mr. Brownell, Mr. Babcock and others took horses as soon as they alighted from the boat to look at the quartz discovery.

The Everest quartz discovery has a wide deposit similar in extent to the Treadwell, and is of a very high position. Five claims have been recorded covering the vast body of ore in sight, and a United States deputy-surveyor and party have been sent to make official surveys of the property.

The Everest party has also located on a big ledge at Klukwan—some forty feet wide. This runs about the same value in copper as the other discovery, but no gold.

Since the arrest of the Indian chiefs and the removal of the barricades they erected in the canyon, work has been renewed on the trail. Marshal Tanner and Captain Yeatman went over on Sunday and found everything quiet. In a few days the troops will probably be withdrawn.

A SOUTHERN QUARREL.

Four Men Are Dead as a Result Over A Dispute as to a Bill.

Oklaoma, Miss., May 9.—Dr. William Murphy, of this place, to-night became involved in a dispute with Charles D. Clarke over a bill which Dr. Murphy claimed Clarke owed him. The dispute became heated, and a fight was precipitated. Clarke drew a knife and slashed Dr. Murphy, severing the Jugular vein. Howard Murphy, son of the physician, rushed to the scene of the killing and shot Clarke to death. Walter Clarke, brother of Charles D. Clarke, and Howard Murphy then began a duel to settle the matter. Pistols were used. The men fought viciously, the end being that both were killed.

HORSEWHIPPED THE MAYOR.

Bellefontaine, Ohio, May 9.—Mayor John Cassidy was horsewhipped yesterday by Miss Minnie Crawford, a milliner, on Main street. Miss Crawford was recently subpoenaed as a witness in the Mayor's court, and failed to respond. She became angered at the Mayor and yesterday waited for him as he was going to his office. Drawing a whip from under her cape, she lashed the Mayor over the head and shoulders, forcing him to take refuge in a drug store. Miss Crawford has not been arrested.

Carnegie on Science

He Offers to Assist Mr. Chamberlain in Raising Money for Birmingham University.

Will Give \$250,000 for the Establishment of a Scientific School There.

Birmingham, Eng., May 10.—Andrew Carnegie has written a letter to Mr. Joseph Chamberlain offering to contribute \$250,000 which Mr. Chamberlain is trying to raise for the University of Birmingham, provided the scientific school be made the principal department of the institution. Mr. Carnegie points out the great need in England of young scientific experts to manage works of the class which England must secure if she is to remain one of the principal manufacturing nations of the world. He urges Mr. Chamberlain to take Cornell University as a model.

Mr. Carnegie continues: "I am sure our people of the Birmingham across the Atlantic (Pittsburg) will heartily approve of a gift to the prototype on this side of the water; for does not the younger owe its greatness and prosperity to the old land? Let the gift therefore be considered only as a slight acknowledgment of a debt that Pittsburg, the greatest beneficiary of your steel inventions, can never hope to repay."

Carnegie's Millions. London, May 10.—In the course of an editorial commenting upon the reported intention of Mr. Andrew Carnegie to retire from business and during his life time to spend his millions for philanthropic purposes, the Chronicle today indulges in severe criticism of the alleged means by which Carnegie built up his fortune and says: "We will remember how the Homestead works were shut down for months because the men refused to have their wages lowered, and how barbed wire fences charged with electricity were set up, the place fortified, Pinkertons sent for, and finally, after a state of war and siege, the Steel Workers Union was smashed to atoms and the millionaire's works filled with Poles and Hungarians."

THE SAMOAN COMMISSION.

Representatives of the Three Powers at Apia and Assume Control of the Islands.

Washington, May 10.—The United States naval transport Badger with the Samoan commission will arrive at Apia, Samoa, today. There is much interest among officials in the important change in conditions to be brought about when the commission assumes charge of affairs. It will involve a practical suspension of the Treaty of Berlin and the system of administration by which the islands have been governed for the last ten years, and the temporary rule of the commission with supreme executive and administrative authority.

By arrangements made before the Badger sailed she will enter the harbor of Apia with the flags of Great Britain, the United States and Germany displayed. The warships of the three countries will fire the salute accorded to the mission. There will be an exchange of calls between naval commanders, the commission and consuls. These formalities over, the consuls of the three governments will suspend functions, and all authority heretofore exercised by the consuls and other officials will, for the time being, be in the hands of the joint commission.

MOB LAW IN TENNESSEE.

Masked Men Take a Negro From the Work-house and Thrash Him.

Lebanon, Tenn., May 10.—A mob of fifty masked men terrorized this place yesterday. First the jail was visited and Ewing Hodge, who is charged with attempting to murder a white woman, was demanded. Being assured by a search of the jail that the inmate accorded to the mob, the men turned their attention to the city work-house. There Bill Dibble and Leslie Huggins, two negroes charged with attempting to force a way into Mrs. Mace's house, were confined. Soon they were in the hands of the mob. The officers attempted to interfere and in the mix-up Huggins escaped. Dibble was hustled into a wagon, which started for the country. Nothing further is known, but it is rumored the negro escaped with a severe beating.

Awarded Highest Honors—World's Fair.

Gold Medal, Midwinter Fair.

DR. CHASE'S CREAM BAKING POWDER

A Pure Grape Cream of Tartar Powder. 10 YEARS THE STANDARD

COMSTOCK TAKES HIS SEAT.

Ottawa, May 10.—(Special)—The galleries of the House of Commons were crowded to-day, there being over 400 of the delegation that arrived from Brockville along with Mr. W. H. Comstock, M. P. Among those in the front seat of the Speaker's gallery were Mrs. Comstock and Mrs. Walsh, wife of Major Walsh. Lady Edgar sat between them. Mrs. McLannan, daughter of Major Walsh, was with the party. The delegates wore the colors of the Brockville Young Liberals with a photograph of Mr. Comstock. Messrs. Mulock and Fraser introduced Mr. Comstock, who took his seat amid great cheering. The Minister of Agriculture has authorized the National Council of Women to collect statistics on women's work in Canada for the Paris exhibition. In reply to Mr. Morrison today Premier Laurier said that the British Yukon Railway Company had no claim of any kind against the government.

In answer to Sir Ebbert Tupper Premier Laurier said it was not the intention of the government to bring in legislation this session giving representation to the Yukon territory. The special committee appointed to consider the Douglas Elevator Bill, entitled an act to regulate the grain trade in Manitoba and Northwest Territory, sat this morning. Mr. Bain presided.

GRAIN SHOWELLERS WIN.

The Buffalo Labor Trouble is Ended and the Blockade Will Soon Be Relieved.

Buffalo, N.Y., May 10.—The News says: "A conference was held this morning between Rowland B. Mahany, President McNabon, the new local assembly and several others. The report of Bishop Quikley was discussed and after a conference this statement was made: 'The report of Bishop Quikley will be presented to the men this afternoon. It will recommend a basis of an agreement. It will probably be accepted.'"

AGREEMENT REACHED.

Buffalo, N.Y., May 10.—Ex-Congressman Mahany addressed the grain showellers this afternoon and informed them that an agreement had been reached and that they had won a victory.

CANADIAN BRIGADIES.

Montreal, May 8.—It is reported that McGill University will confer the honorary degree of LL.D. on Rudyard Kipling.

Owing to the strike of moulders, thirteen foundries are idle.

Winnipeg, May 8.—N. W. M. P. Superintendent Cotton, Battleford, is dead.

Three hundred and twenty students are
