A Parliamentary Session

The uncertainty is over at last, and the Parliament of Canada is summoned to meet on Thursday, 18th April. The fact shows that the proverbial uncertainty of all things human applies especially to matters political.

It is evident that the Government did not know its own mind in the matter until a very short time before another session was announced, and that the secret, even then, was kept.

Mr. Lewis' letter in another column, on the subject of the breaking water, is very interesting as well as suggestive. Without laying much stress upon it, the facts stated show the urgent necessity of the breaking water.

The government, therefore, has acted wisely in deciding to have a session rather than a dissolution.

Mr. Adams' False Friend

It is said that imitation is the most sincere flattery, and if the flattery of the World were of any value, the ADVANCE ought to be congratulated on its local contemporary's surrender to the master of the art.

Mr. Adams knows also, that he has incurred the displeasure of the most influential men in the County who supported him four years ago, large employers of labor, men who are now in the ranks of the opposition.

"Milly and Fran"

The World appeared to have "broken loose" on Saturday. It sailed from the Revolving Britisher editorial, saying "The must have been hoodwinked by some public nuisance into making this senseless change."

Several voters have presented to us the question as to whether—having been induced to promise their vote to either of the Dominion candidates who have of late been canvassing the county or to their personal or political friends in view of the fact that there is not to be an election as it is understood.

The principle involved in that the professional politicians who are supposed to be disinterested, to manage conventions and political organizations, enjoy the confidence of political leaders, and, generally, act as directors of party affairs, cannot commit the rank and file of the electors under false pretences.

A correspondent "Justice," presents the view of many fair-minded persons in Chatham and its vicinity respecting the charges that have been made before the Local Government against the Police Magistrate of Chatham.
