

ADVERTISING RATES.

\$1.00 per inch for ordinary transient advertising. For Sale, Wanted, etc., 50 cents each insertion.

Special contracts made for time advertisements. Sample copies cheerfully sent to any address on application.

The subscription rate is \$1.00 a year, but if 75 cents is sent IN ADVANCE the paper will be sent to any address in Canada or United States for one year.

SUN PRINTING COMPANY, ALFRED MARSHAM, Manager.

NOTICE.

When a subscriber wishes the address on the paper changed to another Post Office, the OLD ADDRESS should ALWAYS be sent with the new one.

THE SEMI-WEEKLY SUN

ST. JOHN, N. B., SEPTEMBER 3, 1902.

NO SURPLUS IN SIGHT.

More than a century has passed since Malthus published his first essay on the principles of population, setting forth that the tendency of the human race, and of all other races, was to increase more rapidly than the means of subsistence.

The century since Malthus wrote has not seen the population of the world double four times or even twice. Those communities which have been comparatively free from calamity, and which have maintained a much higher standard of comfort than was possible for the most prosperous working class of a hundred years ago, have made no such increase or anything like it.

Chancellor Andrews of the University of Nebraska is one of the surviving Malthusians. He admits that the teacher was wrong in many things. The period required for doubling the population in England is, according to Dr. Andrews, not twenty-five years, but sixty-nine. This removes the danger point a few thousand years and makes the trouble less insistent.

THE CHARGE AGAINST LEYDS. Brussels despatches say that Dr. Leyds, formerly European representative of the Transvaal Republic, has been dismissed because he refused to account for a sum of money entrusted to him. It is not very clear what the money was for, or what his position would now be if he were retained.

THE NEGLECTED BOYS. The boys and girls who are growing up in this city without useful parental control and without school instruction are few compared with the whole population. Recent events have turned public attention to these children, revealing them as a source of danger and trouble to the town even in their youth.

PRIZES AWARDED. Dr. T. F. Johnson and S. T. Golding were appointed to distribute the prizes offered for the best horse which appeared in Monday's labor parade.

DR. PUGSLEY'S SURPRISE. The attorney general has announced the beginning of an agitation in favor of St. John as the terminus of the fast line of steamships. Dr. Pugsley has not been in any hurry about it. His speech on the subject of the exhibition was the first public declaration from him on the subject.

BOSTON LETTER.

Death of William A. Nickerson of St. John.

Murderer John C. Best Placed in a Death Cell, and a Death Watch Put Over Him.

Ridiculing the Recent Naval Manoeuvres—The Protestant Episcopal Church—Recent Deaths of Former Provincialists—The Markets.

(From Our Own Correspondent.)

BOSTON, Aug. 28.—The tour of Theodore Roosevelt, the "Rough Rider" president, through New England this week had the effect of bringing together immense crowds in most of the large cities. The president with his trip in western Massachusetts next week has addressed nearly a quarter of a million people, and has made at least 25 speeches.

The many friends of William A. Nickerson, formerly of the large wholesale firm of A. Shuman & Co., who died last week, gathered yesterday at his home in Roxbury. He was born in St. John 41 years ago. He was a son of John C. Nickerson, who was a member of the Legislature of New Brunswick and is survived by a widow, a young son, a brother, Charles, and a sister, Mrs. Gannett of St. John.

THE LABOR PARADE.

(From Monday's Daily Sun.)

Yesterday's labor parade was a creditable exhibition of St. John workmen. Other parades may have produced more picturesque effects of the kind that are obtained by elaborate equipment and costly adornment. But it is doubtful if any city on the continent has seen a body of men representing the various trades and industries. It was not alone that the men were physically superior but they leave with the observer the impression of manliness and independence and give evidence that they live sober, orderly lives. No doubt there are some dissipated men among the industrial population, and the day would hardly be finished without some slight evidence of the faulted workmen of St. John are remarkably good risks for an insurance company.

THE EXHIBITION.

(From Monday's Daily Sun.)

The exhibition, formally opened on Saturday, will be really opened today. It is a good show, and worthy of inspection from all points of view. Mention was made at the opening meeting of the duty of St. John people toward the exhibition. They will stand repeating. The man or family who comes in from the country has many items of expense. A St. John family pays on the admission fee, which is not high. The city houses are crowded half a dozen times for what it costs the visitor to go once. St. John people have more interest in the success of the fair than any one else, and, therefore, visit the buildings with the first opportunity, setting a good example to their country friends. Nothing will advertise the exhibition better than the report of large attendance in the first two days.

THE CHARGE AGAINST LEYDS.

Brussels despatches say that Dr. Leyds, formerly European representative of the Transvaal Republic, has been dismissed because he refused to account for a sum of money entrusted to him. It is not very clear what the money was for, or what his position would now be if he were retained. But he may have good reason for not telling what he did with the Transvaal money. The disclosure of his expenditures might be damaging to the reputation of some pro-Boers in the British Empire, and would certainly throw light on the manufacture of much public opinion on the continent of the United States. It would be interesting to see the accounts of Dr. Leyds, if he kept any, but the search would produce unnecessary international embarrassments.

Mr. McKeown says the reason there is no winter port agitation in St. John is that everybody has confidence in the authorities who have charge of public affairs. Times have changed since Mr. McKeown waited upon the Lieutenant Governor with a series of charges against the official and personal integrity of Mr. Bliss. Or perhaps it is only Mr. McKeown who has changed.

DR. PUGSLEY'S SURPRISE.

The attorney general has announced the beginning of an agitation in favor of St. John as the terminus of the fast line of steamships. Dr. Pugsley has not been in any hurry about it. His speech on the subject of the exhibition was the first public declaration from him on the subject.

Nature's Remedy For Diarrhoea.

and all Summer Complaints in Children and Adults.

FULLER'S BLACKBERRY CORDIAL.

Price, 25 cents.

THE BAIRD COY., Limited, PROPRIETORS, WOODSTOCK, N.B.

nothing more than two or three third class cruisers about as powerful as coal barges, and a few old tugs. The defence had some of the strongest battleships in the world, and the navy. No account was taken of speed, and the attacking fleet was limited to a stretch of coast of not more than 100 miles.

Politics are once again obtruding themselves upon the notice of the electors and a general election is already being talked of. The political situation is already somewhat unsettled, and it is not unlikely that a general election will be held before the end of the year.

The spruce lumber interest report that the inquiry for their product shows considerable improvement, and the market is more firmly inclined. Laths are selling at 1.50 per 100, and 1.1-2 in. at \$2.50 to \$3.00, and 1.1-2 in. at \$2.50 to \$3.00.

LAMENESS IN HORSES, HARD AND SOFT LUMPS RELIEVED BY LEMMING'S SPAVIN LINIMENT.

For curing lameness from whatever cause, Sprains, Curb, Splint, Ring-bone, and for removing obstinate lumps and all similar affections or discharges. Cures when other remedies fail. Do not confound this preparation with Spavin Cures and other preparations.

GRAND MANAN.

GRAND MANAN, Aug. 28.—Capt. Irving Agallier's new steamer Grand Manan is out on the coast. The steamer is out on the coast. The steamer is out on the coast.

OPPOSITION LEADER.

HALIFAX, N. S., Aug. 28.—For a long time Mr. Borden, M. P., has been receiving the attention of the western parts and the Pacific Coast of the Dominion, and he has long wished for an opportunity to visit the western part of the Dominion.

Several artists have been spending the summer on the island. Several large excursions have visited the island from St. Stephen's lately.

LAURIER IN PARIS.

PARIS, Sept. 1.—The Canadian colony of Paris gave a banquet tonight to Sir Wilfrid Laurier, prime minister of Canada. Mr. Ribot, a former French premier, presided. The two hundred guests present included Lady Laurier, W. S. Fielding, Canadian minister of finance, and a number of prominent French statesmen.

DON'T TRY PRESSURE.

You cannot by process of law prevent anyone from drugging themselves to death. We must meet the evil by appeal to the intelligence. One of the drugs that does the most harm to Americans, because of its wide spread use and its apparent innocuousness, is Coffee. Ask any regular coffee drinker if he or she is perfectly well. The least one of these things with an extra vigor can keep well against the daily attack of caffeine (the coffee). The heart and pulse gradually lose strength, dyspepsia, kidney troubles and nervous diseases of all sorts result, and the clearly marked effects of coffee poisoning are shown. These are facts and worth anyone's thought. The reasonable and sensible thing, is to leave it off and shift to Postum Coffee. The poison that has been secretly killing is thus withdrawn and a powerful rebuilding agent put to work. The good effects will begin to show in a few days. It has a cooling effect, and is worth anything you try it.

CHATHAM, N. B., Aug. 28.—A serious and probably fatal accident occurred at the pulp mill on the north side opposite the town of Chatham last night. The cylinder head of one engine blew out and a man named McKeown was struck on the head and killed.

NERVES GAVE WAY.

PE-RU-NA CURED.

Miss Aseneth Brady, Cor. Sec. Illinois Woman's Alliance, had Headache, Backache and Serious Indigestion.

Miss Aseneth Brady, Corresponding Secretary Illinois Woman's Alliance, writes from 2725 Indiana Avenue, Chicago, Ill.

"Last year from continued strain in literary work I became very much exhausted, my nerves seemed to give way, and I had backache, headache and serious indigestion.

"One of my friends suggested that I try Peruna. It certainly acted like magic on my system.

"Within ten days I felt new life and health given me; and by taking an occasional dose off and on when I feel extra tired, I keep my system in perfect order."—MISS A. BRADY.

Mrs. Fanny Klavdatscher, of Summitsville, N. Y., writes as follows:

"For three months I suffered with pain in the back and in the region of the kidneys, and a dull pressing sensation in the abdomen, and other symptoms of pelvic catarrh.

"But after taking two bottles of Peruna I am entirely well, better than I ever was."—Mrs. Fanny Klavdatscher.

Send for "Health and Beauty," written especially for women by Dr. S. B. Hartman, President Hartman Sanitarium, Columbus, O.

OTTAWA.

New York Cidder Given a Big Reception. Census Department Completes Its First Volume.

OTTAWA, Aug. 31.—The Tenth National Guard of Albany, 320 strong, arrived here last night, the guests of the Governor's Footguards. They got a grand reception. The two corps attended divine service at the cathedral this afternoon.

Bound volumes of the common Hansard for the past session have been sent to members of parliament. The statute books are also ready, and may be obtained from the King's printer.

The census department has completed the copy for the first volume of the census report. Dominion Geographer White is preparing special maps of the dominion, showing municipal boundaries, to be issued with the first volume.

FREDERICTON NEWS.

FREDERICTON, N. B., Aug. 28.—The death occurred shortly after three o'clock this afternoon of Westworth Winslow, of Upper Woodstock, who was visiting his brother here. Several weeks ago the deceased was suffering from an abscess in his head and came to the hospital here and underwent an operation, which seemed in every respect successful. He, however, did not seem to recover his strength and remained here the guest of his brother.

Mr. Winslow was in the 67th year of his age. He was the second son of the late Sheriff J. T. W. Winslow of Carleton county. He was in Australia and New Zealand for a number of years, but for the greater part of his life had resided on the homestead at Upper Woodstock, following the avocation of a farmer. Three brothers survive: T. B. Winslow, deputy commissioner of public works; E. B. Winslow, C. C. of this city, and F. E. Winslow, recently superannuated from the management of the Bank of Montreal at Chatham, and now in England with his family. The funeral will take place from the residence of T. B. Winslow at 3 o'clock on Sunday afternoon, interment at Forest Hill cemetery.

LAURIER IN PARIS.

PARIS, Sept. 1.—The Canadian colony of Paris gave a banquet tonight to Sir Wilfrid Laurier, prime minister of Canada. Mr. Ribot, a former French premier, presided. The two hundred guests present included Lady Laurier, W. S. Fielding, Canadian minister of finance, and a number of prominent French statesmen.
