## The Automobile Trade In St. John

### BALL PLAYERS INVADE PAIGE-DETROIT PLANT

Branch Rickey takes St. Louis Browns on tour of inspection.

Branch Rickey, who is endeavoring to pilot the St. Louis Browns up the pennant ladder of the American League, took advantage of his team's recent invasion of Detroit to enlighten his boys on the motor car situation. With Mr. Rickey motoring runs a very even race with the national pastime for the capture of his favor and he spends a great deal of time touring in his Paige car.

Mr. Rickey naturally wanted to see the big Paige factory in Detroit where the new Six models are being made as fast as double shifts of men can turn them out. Accompanied by several of his players Mr. Rickey spent a morning at the Paige factory. With the manager were Jimmy Austin, captain and third base; Earl Hamilton, pitcher; Darrell Pratt, second base;

Sam Agnew, catcher; Johnny Lavan, shortstop. The ball players carefully inspected the Paige line, went all through the various departments of the factory and watched with great interest all the various processes by which the raw material is quickly transformed into a modern high grade automobile. They were all intensely interested, for the experience was new to them, although they are all automobile fans. They were greatly impressed not only by the size and equipment of the factory but also by the care and skill required to insure quality in a high grade product.

Mr. Rickey, whose experience with the Paige has made him familiar with every feature of the car, was almost as good as an official guide. He recounted how he had recently put his car to a very severe test. During the early spring he drove in his Paige from St. Louis to Houston, Texas, covering a large section of Oklahoma. The total distance of the tour was 3,100 miles, and, although the roads in many places were in wretched condition, he experienced no difficulties whatever, finding it unnecessary to take a tool from the tool box or even to clean or adjust a spark plug. Before he left the factory Mr. Rickey placed his order for a new Paige Six.

Viewing a great automobile plant in operation and inspecting fine cars put a lot of pep into the Browns, for they went back to Navin Field that day and licked the Tigers three to one.

### MOVIE MEN SNAP

#### CANADIAN FORD PLANT

Making Automobiles every three minutes to be shown on screen.

Ford, Ont., May 14, 1915.—How 1,600 Canadian workmen turn out 160 Ford cars a day will be shown in a 5,000 ft. moving picture film which is being taken in the factory of the Ford Motor Company of Canada, Limited. The Ford plant is the largest automobile factory in the British Empire.

New Ford cars are being turned out at the rate of one every three minutes at the Canadian Ford factory. Every operation from pouring castings to the completed machine will be shown in the film. Among the features of the pictures will be a panorama of the plant and its water frontage taken from a steamer passing down the Detroit river.

A huge drill boring forty-one holes into a casting at one turn from four directions will be one of the interesting sights, as well as other almost human machines that perform without being touched by an operator and then automatically ring a bell when the particular steel part is completed.

The electric mono-rail will also be photographed. First will be shown a view of this powerful machine, which operates on a single overhead steel rail, switching into the various factory buildings. Then the camera and powerful calcium lights will be mounted in the little cabin where the mono-rail operator rides, and the machine will glide from one end of the long machine shop to the other, taking panoramic views as it goes. Another novel sight will be long incline down which every new car passes three stories to the ground.

### THE EAST END

#### LEAGUE SCHEDULE

At a meeting of the executive of the East End League held last evening the following schedule was arranged for the first two weeks of play:

May 17—Glenwoods vs. Nationals.  
May 18—Alerts vs. Commercial.  
May 19—Nationals vs. Alerts.  
May 20—Glenwoods vs. Commercial.  
May 21—Nationals vs. Commercial.  
May 22—Glenwoods vs. Alerts.  
May 24—Alerts vs. Commercial.  
May 25—Nationals vs. Glenwoods.  
May 26—Alerts vs. Nationals.  
May 27—Glenwoods vs. Commercial.

May 28—Alerts vs. Glenwoods.  
May 29—Commercial vs. Nationals.

3-Passenger Roadster

## For Pride's Sake

Drive a Hudson This Year.

For pride of ownership, for this is the class car in the Light Six type. For pride in your judgement, because 12,000 owners have proved this car right. And for joy in motoring—that depends on fine engineering, on freedom from trouble, on lightness, economy and beauty.

### A New High Mark

In this latest Hudson, Howard E. Coffin has set a new high mark in designing.

In this car he created the Light Six type—the dominant type of today. In this car he has brought out the final refinements, after four years of work.

Here the lightest 7-passenger Six. Here is the car that stands out among all in its class for beauty, luxury, finish and equipment.

### The Years at Stake

Remember the years at stake—the years you will drive your new car. Any extra weight means a constant tax. Any mistake in designing, any weakness or shortcoming means constant trouble and expense.

You know the Hudson is right. Any owner can tell you. And 12,000 owners have driven this Light Six some 30 million miles. This is the only model of this new-day type which has had time to prove itself faultless.

### No Shortage Now

Last spring thousands of men had to wait weeks for this Hudson. There will be delays this spring for late comers. They cannot be avoided.

But our winter output and trebled capacity enable prompt delivery now. You can get the car you want without waiting. Come while this condition lasts.

This year there are many Light Sixes. Few are attempting to sell anything else above \$1,100. But the demand for the Hudson is greater than when it stood alone. For Hudson was first. It has proved itself out. It is a Howard E. Coffin model. And our years of stant have given us time to bring out perfection in this type.

You will prefer it for a hundred reasons which you can see yourself. We urge you to prove this now.

7-Passenger Phaeton or 3-Passenger Roadster, \$2,100, f.o.b. Detroit. Duty paid.

**HUDSON MOTOR CAR CO., Detroit, Mich.** Hudson service adds another joy to motoring. It means constant satisfaction. We'll explain it when you come.
