

DOWNING STREET OFFICIALS ARE THREATENED NOW

Barbados Erected There Are Due to Discovery of Dangerous Irish Plots.

BOMBERS READY TO DO DAMAGE

Liverpool, London and Manchester Were to be Scenes of Big Outrages.

London, Nov. 28.—The capture during raids in Ireland of Sinn Féin documents alleged to give details of contemplated attacks on British government buildings in England was said Saturday in police circles to be the cause of the erection of the formidable barricades which have been put up at the entrance to Downing street and King Charles street.

In addition to the plot reported in a House of Commons Wednesday by Sir Thomas Greenwood, the chief secretary for Ireland, for the destruction of property in Liverpool and Manchester, it is stated in police quarters that numerous other acts of terrorism were being planned.

Threaten Government

According to published reports members of the government have received a number of threatening letters recently, but the officials are maintaining silence on this subject.

It is also stated that sensational disclosures have been made concerning the activities of plotters in London. In one case, according to the police, motor cars were to have been employed to transport bombers from various parts of London to carry out the destruction of the government buildings.

Neither Mr. Lloyd George nor other members of the government have asked for the protection now afforded by the barriers, it is declared, but the police decided they were necessary to protect the government's property and the lives of the officials.

GETS MEDAL FOR SELLING STOCKS AT HIGH PRICE

Strange Decoration is Awarded Philadelphia Officer by President's Order.

Washington, Nov. 26.—Ernest C. Morse, of Philadelphia, former director of army sales has been awarded the Distinguished Service Medal, for "disposition of great quantities of supplies at exceptionally advantageous prices." For a period of more than a year after the war Mr. Morse directed the disposition of all army supplies in the United States and all supplies sold abroad after the liquidation commission had completed the disposal of \$1,000,000,000 worth of army supplies in France to the French government for approximately \$400,000,000. Mr. Morse made a trip to Europe about a year ago to find a market for the army surplus. He returned as head of the sales division several months ago.

The Order Text.

"The order conferring the award follows: "By direction of the President, under the provisions of the Act of Congress approved July 9, 1918, the Distinguished Service Medal is awarded Ernest C. Morse, director of sales, supply division, general staff, for exceptional merit and distinguished service. Charged with the very important duty of organizing and training a competent force for the entire novel functions of supervising, coordinating and directing the disposal, according to law, of the vast War Department surplus of supplies, materials and properties of every description, and with the formulation and development of sales policies, he performed his manifold duties with marked ability, energy and judgment, with the result that the United States disposed of great quantities of supplies at exceptionally advantageous prices."

If Hair Is Turning Gray, Use Sage Tea

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your crown. It makes or mars the face. When it fades, turns gray or streaked, just an application of two of Sage and Sulphur restores its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a very small cost. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and luster of your hair.

Everybody uses "Wyeth's Sage and Sulphur Compound" now because it restores so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

Experience Teaches.

Teacher—"Jimmy, give an example of minority ruling."

Jimmy—"There is a baby in my class."

Teacher—"Right, Jimmy."

JAPANESE CENSUS TAKERS FOUND AN UNKNOWN PEOPLE

Living in Primitive Manner in Mountain Fastnesses—Scientists Will Investigate.

(Copyright, 1920, by Public Ledger.)

Tokio, Oct. 28.—Japan's first official census, which has just been completed, has brought to light stories of tribes, tragedy and humor, but perhaps the strangest is that of the existence of several hamlets or settlements hitherto unknown to the outside world. One of these, with a population of 246 was discovered in the state forest of the Saitama Prefecture, on a tributary of the Sumida river; the chief occupation being hunting with the bow and arrow and making charcoal, which they exchanged in the neighboring districts for daily necessities.

The names of but three of the men were registered in the Prefecture. They were, and these three men had joined the hamlet many years ago. The opinion of the local authorities is that the ancestors of these people were refugees of the Samurais who were defeated in battle centuries ago.

In the wilds of the Chichibu district of the same Saitama Prefecture in Saitama (Crystal valley) was also discovered an unknown group of mountaineers known as Yamakochi—mountain men—numbering forty or fifty, who had never been registered. Another totally unknown village was discovered at Shogotoge, a pass leading to the upper reaches of the Daiho river, transverse the borders of Yamaguchi Prefecture.

The Yomai, one of the prominent Japanese papers, reports that a party of census enumerators, while passing through Crystal valley, met a human figure with very long hair, whose only covering was leaves and who made no response to the party's greeting. It is surmised that the Yomai have no understanding of Japanese. At the instance of the local authorities scientists will be sent to Crystal valley to make investigations.

WEAK WOMEN

cannot hope ever to become strong and well again unless they have plenty of good, rich, red blood of the kind that organic iron—Nuxated Iron—helps make. Nuxated Iron is like the iron in your blood and like the iron in spinach, lentils and apples, while metallic iron is iron just as it comes from the action of strong acids on iron filings. Nuxated Iron does not injure the teeth nor upset the stomach; it is an entirely different thing from ordinary metallic iron. It revitalizes worn-out, exhausted nerves and gives you new strength and energy. Over 4,000,000 people annually are using it. For sale by all druggists. Beware of substitutes. The genuine has N. I. stamped on every tablet. Always insist on having the genuine.

NUXATED IRON

N. B. RESIDENT SEEMS MAINE DIVORCE

W. H. Southard, Who Was Married at Andover, N. B., Wants His Freedom.

Special to The Standard.

Carleton, Me., Nov. 28.—When the Divorce Court of the State of Maine opens here on the first Tuesday of February, 1921, two New Brunswick men will be the principals in a divorce trial.

W. H. Southard, now of Presque Isle, Me., is applying for divorce from his wife, Beatrice M. Southard. They were married on July 20th, 1910, at Andover, N. B., by Rev. Mr. Simms. Her maiden name was Beatrice Maher.

In the libel, the libellant says he has conducted himself as a faithful, true and affectionate husband, but the libellee, regardless of her marriage contract and duty, deserted libellant on August 18th, 1910, without cause, and since that time has joined the ranks of the local authorities is that the ancestors of these people were refugees of the Samurais who were defeated in battle centuries ago.

The libellant has resided in the State of Maine for one year and says there is no collusion between himself and the libellee. He believes that said marriage should be dissolved and a divorce granted.

WENT TO WAR AND WON ENGLISH BRIDE

Special to The Standard.

Maryville, N. B., Nov. 28.—Another war romance came to a happy conclusion last evening, when in the presence of a few intimate friends Rev. J. B. Desmet united in marriage Arthur H. Bradley and Mrs. Mary Leah Page. The bride is a native of Ashton-under-Lyne, Lancashire, Eng., and the groom is a Maryville boy. The romance had its beginning in England, where the groom was serving in the ranks of the 25th Battalion. The bride came to Canada recently to meet her fiancé.

Why Windmill

Barbados Super-Fancy Molasses?

THE pure, whole-sugar Barbados is a truly delicious food that is full of health, energy and heat! It is vastly different from the unwholesome substitutes that now flood the market.

There is no Satisfactory Substitute for the Real Molasses.—Insist on "Windmill" Brand.

"Windmill" Brand is the finest product of the planters of the British West Indies. It costs you no more than the inferior canned goods, and it will make a wonderful improvement to every dish shown here.

We guarantee Windmill to be absolutely pure and highest grade Barbados Molasses.

If your grocer hasn't Windmill write and tell us his name.
