It is also true that they bring them to our city and offer them for sale in market places. A VERY COSTLY SMOKE-HOUSE .- Ar intelligent and economical gentleman of Rochester, has just built a three thousand dollar smoke-house! He was induced to do so for the following reasons:-Finding many years ago that the habit of smoking tobacco was injuring his health, he discontinued the practice, although it cost him many a severe effect. He was subse-quently encouraged, however, at the pecuniary saving it was constantly effecting. By an accurate arithmetical calculation, he ascertained that the daily cost of cigars, with annual interest and compound interest, that is, with the interest placed out again on interest, would amount to over three thousand dollars in twenty years. Having already effected this saving he concluded to build a handsome dwelling. His friends often inquiring, "How can you afford to build so good a house?" He invariably answered, This is my smoke house—the amount I have saved in not puffing \$3,000 to the wind."
