I don't know whether there (P3 P5 4
are plenty of lamps but available
for motorbike motorcycles
At some time on 20 Oct I was
coming into Bulleta I saw Pte
Halfpenny and asked him how the
bike was going and if he had noticed
any oil coming out of the exhaust. He
replied it was no bell. I thought
I did this because I thought
the machine was using oil and I
wanted him to check the oil on
the bike when in the shop on
20 Oct because the gas tank was
leaking.

Re examined.

So from noon 20 Oct the
bike was not returned to me with
any definite request to have it checked.
When the accused said to me
the bike was not bell I didn't
think that anything serious was
wrong
