

THE SOUTHERN COUNTIES AGRICULTURAL MEET.

A PUBLIC meeting under the joint auspices of the Ontario Department of Agriculture and the Southern Counties Agrarian Breeders' Club, will be held on Wednesday, June 13, 1917, at 1:30 p.m. sharp, at the Farm, Belmont, Ont. Prof. H. Barton of Macdonald College will take charge of the judging class; Prof. A. Letich, G.A.C., will also address the meeting. As this farm is not convenient to a hotel for a dinner, visitors are requested to bring a generous supply of lunch along with them. Ladies are especially invited and the meeting will be made welcome.

A meeting of the members of the Club is called for 11:30 a.m., to consider matters in connection with the consignment of cattle to be held next December, and any before the meeting.

Parties desiring to reach Belmont by train can reach there from St. Thomas at 7:32 a.m. and from Woodstock and Trenton at 11:38 a.m. Trains leave Belmont for the east at 4:52 p.m. and for the west at 7:42 p.m. We would suggest meeting to come in auto loads. Friends from the eastern part of our district are invited to meet at the home of the Secretary on the morning of the 13th, where a short time can be spent inspecting the Brookside herd. Leave St. Thomas at 2:30, the party will proceed direct to Mt. Hope, where a short stop will be made to inspect the herds of J. H. Harris & Son and the Morrison Bros. The party will then leave Mt. Hope at 10:30 and proceed to the place of meeting—Jno. McKee, Secy.

W. F. STEPHENSON, Secretary.

HAY

can be a pleasure to harvest and a good money maker—if you have efficient hay-making equipment.

Frost & Wood Champion Side Delivery Rake

It gathers up the hay into long, loose, fluffy windrows where it can cure uniformly. The hay doesn't burn and discolor—nor lose succulence and market value. The "Champion" has 3 tooth bars arranged on a cylinder which gives a steady rolling motion to the hay until it gets to the windrow. Two castor wheels support the rear and stop all "digging in" by the teeth. Light draft—very strong—and anyone who can drive can use it.

THE FROST & WOOD CO.
Ltd., SMITH'S FALLS

Montreal

St. John

Sold in Western
Ontario and Western
Canada by

USE A "CHAMPION" AND COMMAND TOP MARKET PRICE.

Increased production means bigger crops through less waste and higher quality for the crop you get. Use a "Champion" and get more hay and better hay.

Frost & Wood Champion Hay Loader

It's a pleasure to see it pick up the long windrows as clean as a whistle—just as fast as you care to handle the hay and all the work going where it ought to—on the machine. The "Champion" is very simple—6 tooth bars set in a drum, gather the hay and lift it on to a rope-and-slat apron which raises it to the wagon. The whole is operated directly by pawls in the wheels, and thrown in and out of gear by two small levers. Proper design—splendid materials—splendid service.

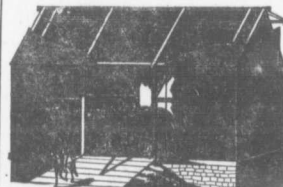

Let us send you new Hay-making Folder—just drop us a card or see our nearest Agent.

Take Your Opportunity — NOW

What are your prospects as "hired man"?

How long will it take you to own a farm of your own?

These are questions which every ambitious man must face.

Don't settle in the rut of hand to mouth existence.

Get A FREE HOMESTEAD

Our "Homesteaders and Settlers' Guide," to be had for the asking, will tell you how and where. Write to the nearest C.N.R. Agent or General Passenger Dept., 65 King St. East, Toronto, Ont.

More Profit from Your Cream

ONE man (name on request) writes in to say his 300 lb. Viking gives him 1 1/2 lbs. of butter closer by a good deal than the \$75 separator he used to have.

Ask your dealer for our free descriptive booklet, or write us Dept. 6 Swedish Separator Co., 515 South Fifth Ave., Chicago.

SEED CORN

"That Will Grow"

We can supply rack-cured corn on the cob or shelled, from the following varieties:

No. 1 Improved Leaning, Wisconsin No. 7, Early Yellow, White Cap Yellow Lead.

This corn was grown and cured by specialists in seed corn, and is therefore of a very superior grade of seed.

Let us quote you on all kinds of garden and field seeds, including mangel, sugar beets, turnips, carrots, potato beans, white beans, seed potatoes, buckwheat and field grasses.

Cotton Seed Meal, Oil Cake Meal, Corn Meal, Bran, Shorts, Feed Oats, Whole Oats, Pure Linseed Meal, Good Luck Brand Call Meal, and a complete line of Good Luck Brand Poultry Feeds. Write, please or wire for prices.
