

# THE BUCKEYE LIGHT

ITS EFFICIENCY IS UNIMPAIRED BY COLD WINDS

GIVES A GOOD LIGHT IN ANY WEATHER....

“Buckeye” Heaters

Tire Expanders

Oil Rivet Forges

Blow Torches

Locomotive Fire Kindlers Etc.

Used by the British, United States and Australian Governments

Special Tripod, Wheel, Pole and Derrick Arrangements

The Macleod Pattern Double Torch Light Gives 8,000 Candle Power

We Stock Different Sizes Generating from 1,000 to 5,000 C. P.

Consumption of oil less than one-half gallon per hour for every 1,000 c. p. used—4,000 c. p. per hour being obtained from 1½ gallons.

The Light can be operated by any workman without interfering with his regular work.
