THE SUNLIGHT GAS CO., Ltd., Montreal, P. Q.:

GENTLEMEN,—Yours of February 7th to hand, and contents carefully noted; also dozen burners. I am glad you sent some 1/2 ft., as they give plenty of light.

Now I will say a word in reference to how I like the Sunlight Gas Generator you sent me January 28th, 1901. I am delighted with it, and find it works perfectly. It is all you recommend it to be. It gives a pure white light—just like daylight. My stores are the lightest in the town of Amherst. I have nine 1/2-ft. burners in each of my stores, but five of your acetylene 1/2-ft. lights make it lighter than nine electric used to make it. My family and customers are delighted with your light; it gives a steady pure white light. I have 34 lights in my house and stores. We had no trouble in setting it up and putting it in operation. A child can run it with very little trouble. Have good sewer and water connections. My plumber was only 133 hours doing all the plumbing. The total cost, with brass chandeliers and swing brackets, was \$225, all complete.

I have taken out all my electric lights and wires, and would not have them back at any price. Words fail to express how well pleased I am with the Sunlight Gas Generator, and will do all I can to sell some more for you here. Hope to hear from you by return mail.

Yours truly,
F. A. CATER.

A BUSINESS EDUCATION IS NECESSARY ON THE FARM.

Mr. Daniel A. Campbell, of Port Elgin, Ont., says: "I could not have got along without it, and would not now part with the knowledge obtained for any amount of money. I find it just as useful to me on the farm as it was in business. When your business principles are applied to farming, it pays as well as any business, and is more independent. Every young man who wishes to succeed in any calling should have a business education, and the **NORTHERN BUSINESS COLLEGE** is, I believe, the best place in Canada to get it."
