Concrete Roads Exceed Farmer's Expectations

THIS LETTER FROM MR. GEO. W. BURT, of Redford, Wayne County, Michigan, shows how well satisfied the farmers of that section are with concrete roads. Nearly one hundred miles have been built in Wayne County.

"Mr. Edward N. Hines,
Board of County Road Commissioners,
Wayne County, Detroit, Mich.

Dear Sir:—

Our concrete roads are far ahead of the expectations of the majority of us farmers. Where we used to be two days marketing fifty bushels of produce, we now market twice as much in one day, and can go to the city anytime we want to. We do not have to wait till the roads are good so we can go. Also, our horses and waggons will last twice as long.

Hoping you will keep right on building these roads, and that the county will stand back of this movement, I remain,

Yours truly,
(Sgd.) Geo. W. Burt

Redford, Wayne County, Mich.

Concrete Roads

are the best, cheapest and most satisfactory roads that can be built. Best, because they permit bigger loads, increase land values and improve conditions generally. Cheapest, because they are permanent and require practically no repairs, which permits road taxes to be spent in building more good roads. Most satisfactory, because they are open to traffic every day in the year, lower cost of marketing and cost of living and increase the farmer's profits.

Good Roads literature telling all about concrete roads will be sent, free, to everyone interested. Write to

Plans That Save Hundreds of Dollars

Carefully-made barn plans are the first essential of well-built, economical barns.

By avoiding all the mistakes in barn building, which are invariably made when the barn plans have NOT been given careful thought, they save a great deal of money. Mistakes in the sizes of cattle-stands, gutters, passages, wrong location of windows, silos, posts, inconvenient arrangement of stalls, feed-bins, wrong system of framing—all these mistakes increase building costs, and cost money and time and trouble as long as the barn lasts.

LET BEATTY BROS. HELP YOU PLAN YOUR BARN

We invite you to write us, telling us what your ideas are, when you will build or remodel, size your barn will be, and number and kinds of your stock. Your letter or postal will have our prompt attention. We'll make you pencil plans, with all dimensions and positions carefully marked, and will write you personally about any improvements we have to suggest in the layout of your barn.

We'll also send you our book "How to Build a Dairy Barn," that gives a fund of valuable information about laying cement floors and walls, framing, lighting, ventilation, and other difficult problems. At your request we'll forward our new 64-page book about BT Galvanized Stable Equipment.

OUR SERVICE IS FREE, for our aim is to encourage the building of modern economical barns. Why not have a well-laid-out barn, when it will cost you no more than a poorly-planned one? Address to-day.
