the Synod Hall. The Bishop took the chair. A brief address of congratulation to the recently appointed Dean was read by Rev. H. J. Johnson, and a presentation was made consisting of the five volumes of Hastings's Dictionary of the Bible, bound in half morocco, together with a newly pub-

lished map of Palestine. A leatherette label in the first volume bore the inscription—"Presented to the Very Rev. Thomas Reilly by his brethren in the diocese as a mark of their sincere esteem and regard on his appointment as Dean of Ardagh." The Dean briefly returned thanks.

the food that supplies in digestible form all the proteids and heat-making units that are needed for work or play in any climate. Its daily use is an easy solution of the servant problem because it is ready-cooked and ready-to-serve and is delicious in combination with all kinds of preserved fruits.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Try Toasted TRISCUIT, the Shredded Wheat wafer, for luncheon, with butter, cheese or marmalade.

SHINE WHERE YOU ARE.

Don't waste your time in longing
For bright, impossible things;
Don't sit supinely yearning
For the swiftness of angel wings.
Don't spurn to be a rushlight,
Because you are not a star;
But brighten some bit of darkness
By shining just where you are.

There is need of the tiniest candle,
As well as the garish sun.
The humblest deed is ennobled
When it is worthily done.
You may never be called to brighten
The darkened regions afar:
So fill, for the day, your mission
By shining just where you are.

Just where you are, my brother,
Just where God bids you stand,
Though down in the deepest shadow,
Instead of the sunlit land;
You may carry a brightness with you
That no gloom or darkness can mar,
For the light of a Christlike spirit
Will be shining wherever you are.

"UMBRELLA SAM."

I'll tell you how he came to be called that.

At school he was always trying to shield some one in some way.

"Take care there!" he would say. "Next thing your ball will go through the window, and then you'll be punished." It was said on the school ground that Sam would lie awake all night studying how to keep a fellow from getting a whipping.

I don't know as that was true, but I do know that he walked two blocks out of his way just to prevent little Kitty Gray from being scared almost to death by Butcher Adam's fierce dog.

"Ho!" Sam declared, "I'd just as lief go this way every night."

"He's keeping the storm off Jimmy," said a boy one day, pointing to where Sam stood with his arms around the trembling little fellow, while big Bully Smouse stood over them shaking his fists and threatening.

"He makes a pretty good umbrella," said the teacher. "I should feel proud if I could do as good service."

And from that day he was called "Umbrella Sam."—Selected.

too fast, and wants nothing to come into his life that will gladden his heart and renew his youth.

I came to a full stop, and would not have missed the sight for a great deal. As the girl stood there on that bright October morning, it was difficult to tell where the sunshine left off and the girl began. They seemed made for each other; it was a perfect match, with the dividing line hard to discern.

"Have you any objections to telling me your name?"

THIS WASHER MUST PAY FOR ITSELF.

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse, but I didn't know anything about horses much. And I didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right," but pay me first, and I'll give you back your money if the horse isn't all right."

Well, I didn't like that. I was afraid the horse was "all right" and that I might have to whistle for my money if I once parted with it. So I didn't buy the horse, although I wanted it badly. Now, this set me thinking.

You see I make Washing Machines—the "1900 Gravity" Washer.

And I said to myself, lots of people may think about my Washing Machine as I thought about the horse, and about the man who owned it.

But I'd never know, because they wouldn't write and tell me. You see I sell my Washing Machines by mail. I have sold over half a million that way. So, thought I, it is only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the horse.

Now, I know what our "1900 Gravity" Washer will do. I know it will wash the clothes, without wearing or tearing them, in less than half the time they can be washed by hand or by any other machine.

I know it will wash a tub full of very dirty clothes in Six Minutes. I know no other machine ever invented can do that, without wearing the clothes. Our "1900 Gravity" Washer does the work so easy that a child can run it almost as well as a strong woman, and it don't wear the clothes, fray the edges, nor break buttons, the way all other machines do.

It just drives soapy water clear through the fibres of the clothes like a force pump might.

So, said I to myself, I will do with my "1900 Gravity" Washer what I wanted the man to do with the horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time.

Let me send you a "1900 Gravity" Washer on a month's free trial. I'll pay the freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freight too. Surely that is fair enough, isn't it?

Doesn't it prove that the "1900 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for you. It will save its whole cost in a few months in wear and tear on the clothes alone. And then it will save 50 to 75 cents a week over that in washwoman's wages. If you keep the machine after the month's trial, I'll let you pay for it out of what it saves you. If it saves you 50 cents a week, send me 50 cents a week 'till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself earns the balance.

Drop me a line to-day, and let me send you a book about the "1900 Gravity" Washer that washes clothes in six minutes.

Address me personally, B. P. Morris, Mfr. "1900" Washer Co., 357 Yonge St., Toronto Ont.
