Always be sure that stock in pasture has plenty of water during these hot summer months. And provide enough shelter of some sort or other so that all the stock can rest in comfort during the very hot time of each day. Attention to details of this kind will be amply repaid, as those who have had experience well know.

most gloomy forebodings and dire threats. In spite of all the colony had made marvellous material progress and gave promise of still more remarkable achievements.

R. M. WILSON DEAD

With deep regret we note the death on Saturday, June 24, of Richard M. Wilson of Merringhurst, Man. Mr. Wilson was a well known pioneer and an active member of the Grain Growers' Association. He was for many years one of the leading directors of the Grain Growers' Association, and was held in high esteem by all because of his open dealings with his fellow men. Mr. Wilson was always an ardent Independent and had taken an active part in the political life of Mountain constituency.

From Mitchell, Ont., where he was born, Mr. Wilson came direct to the plains of Merringhurst with his people in 1879, after being compelled to drive in carts from Emerson. The comparatively sparsely-settled nature of the district may be imagined from the fact that Mr. Wilson's mother was the first white woman to cross the Pembina River near Rock Lake. In addition to looking after his grain interests, Mr. Wilson took a great interest in the breeding of pure bred cattle and Clydesdale horses.

CENSUS AND RECRUITING

An interesting article on the number of males between the age of 18 and 45 in Canada is contained in the last issue of the census and statistics monthly issued by the census and statistics office of the department of trade and commerce. The table shows that in the census of 1911 there were enumerated 1,720,070 men of available military age of whom 1,109,385 were Canadian born, 306,377 British born and 304,310 foreign born.

"While these figures represent conditions existing on June 1, 1911," says the Monthly, "yet, because of the heavy British immigration in 1912-13-14 as well as to the known tendency of young countries to maintain a high birth rate, they also show fairly well the number from which eligibles for military service may now be expected."

The statistics of the provinces follow:

Provinces	Canadian	British	Foreign
P. E. I.	16,868	16,592	157
N. S.	58,493	55,909	8,437
N. B.	68,710	64,188	2,371
Quebec	260,597	341,783	23,066
Ontario	582,246	410,866	156,329
Manitoba	122,762	49,868	55,068
Saskatchewan	158,907	61,163	28,871
Alberta	122,915	37,446	31,954
B.C.	158,272	41,508	54,718

The following analysis by Oliver Hezelwood from census returns and recruiting figures shows the situation in Canada:

Government's ap-	Males of permanent Rail-	service	of recruits	months
Maritime Provinces	161,337	65,000	31,081	
Quebec	362,677	139,000	54,908	
Ontario (less Thunder Bay and Rainy River)	527,934	185,000	138,491	
Manitoba and Saskatchewan, plus Thunder Bay and Rainy River	374,556	66,000	68,858	
Alberta	174,067	26,000	30,709	
British Columbia	166,556	27,000	30,709	

These figures show that Western Canada has already contributed more than its portion of the 500,000 soldiers required. It also shows that there are a larger proportion of males in comparison with the total population in the Western provinces of military age and that the proportion of enlistments in the West to the number of males available is not as large as in the East.

Putting Money in the Bank

regularly is better than Life Insurance if you live.

Yes, if you live, and also if deposited regularly! But how many live long enough to accumulate sufficient to provide for their family after they have gone?

Again, there are not very many who deposit with persistent regularity. Therefore, there is no doubt that Life Insurance is the better and certainly the safer way of accumulation.
