OSTEND TO BE ABANDONED.

ROTTERDAM, Jan. 6.—On New Year's Day four 28-centimetre guns were removed from Ostend to Heyst, to defend the coast. The transference of such guns from Ostend is significant as indicating that no great attempt will be made to hold Ostend once the affies commence to advance along the coast. The line intended to be held by the Germans is evidently further east. From the Dutch frontier three hundred men have been observed during the last two days putting heavy guns into position. The cannon are easily to-day from Trieste. visible from the frontier. Four German Merchant Ships Auctioned in London.

PROCEEDS GO TO SAILORS

'Ulla Boog' Is the First Vessel To Be Offered and It Brings £23,150 -Sale Is Attended by Shipping Men From All Over Britain-Liverpool Merchants Urge Prompt Sale of All Prizes.

LONDON, Jan. 6 .- The Baltic Ex-

change Building was bright yesterday with red ink notices, announcing that four German ships captured since the outbreak of war, and now lying in various British ports, would be sold at public auction at 2.30 o'clock. This is the first auction since the ships were under the Prize Court ruling, and by 2.30 the room especially prepared for the occasion and the adjacent corridors were packed with top-hatted, grey-haired and bald men, representing as the shrill call of the telegraph boys reminded one, of ship-ping interests from all over Great Britain. "By order of the Marshal of ford Agricultural Society will be held the Admiralty, no bids will be considered which represent an advance o less than £5," said the auctioneer. The first ship offered for sale, after the conditions, principally design-

ed to prevent boats falling into the hands of foreigners, were read, was the "Ulla Boog." It was a single-deck steamer of a gross tonnage of 1,698, and immediately £13,000 was bid for it. This bid was rapidly jumped £500 or £1,000 at a time until £22,500 had been offered. Then it was raised £50 to a fid of £23,150, at which price it was knocked down. The bidding for the other ships followed more or less the course of the bidding for the 'Ulla Boog." The total sum realized by auction was £130,735. This sum will be divided by the Government among the whole navy. Before the outbreak of the war the prize money of this description was divided among the sailors making the capture.

The Liverpool Chamber of Commerce, at the suggestion of Lord Derby, passed a resolution yesterday saying that there was a shortage of event of the capture of enemies ships and proceedings for sale should be expedited.

In other words, the right of search cannot be waived, because of the possibility of shifting cargoes at sea and the impossibility of having the Treasury officer who ships to ber destination to guard against smugglers who may carry cop

against smugglers who may carry copper or other contraband on small ships to be transferred at sea.

The waiving of the right to search of ships bearing contraband cargoes, in the opinion of several prominent British officials, would be an invitation for smugglers to ply their trade, whereas the retention of the right would tend to prevent dishonesty.

This position is precisely the same as that taken by the Foreign Office concerning the certification of manifests of American cargoes by British

fests of American cargoes by British consuls at American ports.

The Government is constantly in communication with representatives of Sweden, Norway, Denmark and Holland. It is reported that all of the nations are to take steps to revise their lists of prohibited exports so that they will correspond with the British contraband list, thus making possible a resumption of shipping to neutral European countries from America so as to avoid delay or the danger of seizure.
