At Ristant, ate Min At L The Prepared Gumo is put into boxes, ex for Gardena. Its fertility on Greenhouse and all Flowers, Vines, &c., is very great!

and all Flowers, Vines, &c., is very great: Price
2a. 6d. per box.

This manure is so combined, that the Ammonia
and other fettilizing gases are absorbed, fixed,
and are given out to vegetation only as it requires
them. No rot, mildew, worm, fly, nor other insecie can approach it—an important consideration
to fartners generally, but particularly in cotton
said potato planting. It will be found admirably
adapted for the growth of Cane, Cotton, and Tobacco, in the West India Islands, and renovating,
restoring, and fertilizing such lands as have been
worm out and abandones.

One advantage PREFARED GUANO possesses over ordinary Manure, is, that in sowing all kinda of gain, &c., it should be used broadens after the ground is

a top-dressing in Winter.

From the Democratic Advocate, Williamsburgh, L. I., May 1, 1843.

Kentists Parties Guino.—This article of manure has prohably bein of more essential benefit to the contractivity than any other single discovery which has been made for many years. It is prepared with reference to the principles of Agricultural Chemistry; and in its effects, shows the great must be great the great must be great must be great must be great the great must be great must be great must be great the great must be great must be great the great must be great must be great the great must be great must b

Analysis of the Water of the Georgian Spring.

I have made a careful quantitative analysis of a quantity of this Water seat me by the Proprietor of the Spring. Captain Kains. It is a Saline Water, contaming earthy Chlorida, with portions of Bromids and lodids, thus resembling the Plantagenet Water, from which it differs chiefly in the presence of a portion of Salphates, which are not often met with in Waters of this class in the Province. It has a specific gravity of 1008.78, and contains in one pound avoirdupois, the affixed quantities of the following substances:—
