VICTORIA THE GOOD. ame fact constitutes a signal warn-In accordance with custom that has ing of the danger that would accrue become time-honored in this city, from a monopoly such as is contem-Dawson has garbed herself in holiday plated in the Treadgold grants. array for the purpose of celebrating For the proper development of the with fitting ceremony the birthday of numerous propositions that are lying the universally revered Queen Vicundeveloped cheap and abundant watoria who will be known in history ter is needed. Given this boon and as Victoria the Good. the annual output will be doubled

The program of events which is being presented in Dawson today is symbolic of what is taking place over the entire globe, wherever the British flag floats. An empire upon which the sun never sets has ceased for the time being from the cares and responsibilities of everyday life and is deof paying respect to the sovereign whose tender, womanly personality brought sunshine and joy into thelives of millions of her subjects dur-

ing her long and eventful reign. In the celebration of Victoria day in Dawson international distinctions are forgotten. With one accord and in spite of the fact that this is a remarkably cosmopolitan community, the whole population is' represented in paying a spontaneous tribute of respect to the memory of the great queen

Victoria was more than a monarch She was a womanly woman and as maid, wife, mother and queen she gave the world an example that has made a deep and lasting impression wherever the graces and virtues of time I have frequently seen first God's noblest creation are appreciat- games of the season even among pro-

MR. VICTOR DUR

OUR GUESTS.

To the hundreds who have come from the surrounding mining districts behalf of the citizens of Dawson a most hearty and sincere welcome. An occasion such as the one which is being celebrated today is valuable over the territory for exchange of may be shown by either player or experiences and renewal of old acquaintance. The story of an unusually satisfactory and prosperous cleanup season will be told and repeated reward will be a season of good, today in a hundred different forms. The mining districts are making a

splendid record this year and the reports which of late have been coming in and .which will be substantiated by visitors from all over the creeks **小小小** should serve to dissipate the somewhat gloomy view of affairs that has prevailed in Dawson as the outcome of a long winter.

The mining centres are all throbbing with life and activity, attendant upon the work of gathering the annual golden harvest. On the average, the dumps are yielding a satisfactory profit, and reports of failures and of claims abandoned are less frequent than in any previous year. Few cases of unpaid wages have been brought to the notice of the courts, and there is little likelihood of any considerable difficulties of that nature

The best news that the cleanup season has brought is in connection with the new districts that have been opened up during the past year. All the available evidence goes to indicate that the recently prospected portions of the gold bearing area are showing up splendidly and bid fair to contribute materially to the general prosperity.

In one district alone which might be mentioned, upwards of 400 men WEEEEEEEEEEEEEEEEEEEEEEEEEEEE

either. the game of Friday evening. The people as well as the players should bear. in mind that there is no charge for baseball in Dawson and that few into participate in the observance of deed are the places where such good Victoria day, the Nugget extends on quality of sport is furnished free of down an' pattin mud pies has missed charge. The individual players have been put to great expense in preparing for our entertainment and amusement and I, for one, say and emphatas bringing people together from all charity for any shortcomings that dat he has some brodders an' sisters was inevitable. ampire at this early stage of the seaon. Let the patrons of the great game uphold its promoters and players instead of roasting them and the
