J. C. BISHOP, Auctioneer.

KINGS COUNTY MAN RETIRED FROM TEACHING.

Progress—Enterprise.

Last Wednesday Mr. B. McKittrick, B. A., tendered his resignation of the position of Principal of the Lunenburg Co. Academy and the Public Schools of the Town of Lunenburg, to take effect at the end of the present year in July next. When the present school year ends, Mr. McKittrick will complete twenty-eight years of earnest and effective service as principal of our schools and he will have the satisfaction of knowing that in this long term of office he has succeeded in bringing the County Academy and our whole school system to a high state of efficiency. A clear proof of the accuracy of this statement is found in the fact, that in the last provincial high school examinations, the Lunenburg County Academy made the best showing of all the County Academies in Nova Scotia, its students securing the highest percentage of success in obtaining the grades applied for.

Mr. McKittrick's career as teacher and principal is a remarkable one. Graduating from Dalhousie University with the degree of Bachelor of Arts in 1877, he taught in country schools successfully for a few years. In 1879 he was called to the principalship of the Co. Academy of Sydney, a position he filled successfully for eleven years, with the exception of six months, during which he was principal of the County Academy at Truro. In 1890 he accepted the position of Principal in Lunenburg, when Mr. McIntosh resigned to become Inspector of Schools for the District of Lunenburg and Queens Counties. From 1890 till the present time, this service has been continuous, with the exception of a few months when the state of his health required leave of absence, which was readily granted by the Board. Thirty-nine year of continuous service as a County Academy

Principal probably constitutes a record for the province, if not for the Dominion. During his twenty-eight years service in Lunenburg, Mr. McKittrick has taught and supervised the education of the children of many of his earlier pupils in this town. A majority of the present staff of our public schools has been educated under his wise, kind and stimulating instruction, and it is no ed to them the fact of his resignation some of them were moved to tears.

It is needless to say that his resignation which was prompted by a wise resolution to retire before advancing years and the severe strain of the work impaired his efficiency, was accepted by the School Board with sincere expressions of appreciation and regret. And the Board did a wise as well as a kindly act when it unanimously voted him a retiring annuity of \$200.00 in view of his long and faithful service. He has earned the right to this recognition by a service that has not only been long and faithful, but has never been adequately recompensed, financially. Happily for the community he has never been actuated by pecuniary motives. He has taught earnestly and successfully, because he is a born teacher and has always loved his work. He has taken a warm interest in the progress and subsequent careers of his earnest pupils, and he has spent much nervous force in stimulating pupils who did not realize the value of an education. The people of Lunenburg owe him not only a pension, but lasting gratitude in addition. We believe Mr. McKittrick's retirement does not mean his removal from the community. In addition to being a successful teacher, he has been an all round good citizen and it is a source of satisfaction to believe that for many years to come the town will have the advantage of his presence and his influence in all movements tending to its progress and betterment.
