Trouble at an End.

NO ARBITRATION COMMISSION

Cleveland Has No Power Beyond Initigating the Strike—The Proposition Sent to the General Managers.

Chicago, July 12.—The most important development in the labor situation is the aumouncement from the headquarters of the American Railway Union that a determined effort is to be made to invoke the Federal laws against the members of the General Managers Association and that with this end in view a conference will be held to day between W. W. Irwin, of Minneapolis, the principal counsel for the men arrested for participation in the Homestead riots, and a number of local attorneys. Mr. Irwin, it is stated, is now on the way to Chicago in company with a prominent member of the Knights of Labor who was sent to enlist his services in behalf of the Union.

The anticipated tie-up of business as a result of the sympathetic strike order issued by the representatives of the allied trades, and the appeal to the Knights of Labor of Mr. Sovereign, did not materialize to any visible extent. The most radical reports kept the total that has so far responded within 15,000. It is claimed, however, that many of the unions are so situated that they cannot shut down at once and that the full effects of the tie-up will not be apparent before the end of the week.

SACRAMENTO, Cal., July 12. — The Southern Pacific Company broke the blocade at Sacramento yesterday and the engine that hauled the first train out lies on its back in a slough by the side of a broken bridge with three of the cars that made up the train.

Under the wreck in coze and alime of stagnant water lie the bodies of the engineer who held the throttle and three soldiers who were guarding him.

The dead are: Engineer Samuel Clark and privates Byrne, Lubberden and Clarke. Several other men were in jured and one of them will probably die. This is Westley Dugan, also a private in battery L of the Fifth Artillery. One of his arms was torn from its socket and broken in three places and his jaw was broken.

The strikers deny responsibility for the disaster. Their leaders have expressed horror at it and hope that it will be the last act of violence in the strike. They say that they cautioned their men not to see the service was gored to death by a bull on Thursday evening.

normal state of affairs on all lines will be restored within a day or two. Reports of railroads to the General Managors' Association are all in one strain and indicate that the strike is over so far as the railroads are concerned. So confident are they that the trouble is over that they have decided to close the buseau of information connected with the institution this evening. At the headquarters of the American Railway Union there was no falling off in the enthusiasm or in the elaims of ultimate victory. The officers insist that the strikers were standing firm and that they were be-

WASHINGTON, July 14,—The President was onewhat annoyed yesterday by the persistent attempts in some quarters to make it appear that he had appointed an arbitration board at the request of the labor leaders. Nothing is further from the truth. The commission which he has agreed to appoint, under the law, has no power beyond that of making a general investigation of the strike on the railroads which led to his proclamation. It will have no anthority to investigate the differences between the Pullman Company and its employes.

DOMINION PARLIAMENT

Orrawa, July 11.—Hon. Geo. Foster, Minister of Finance, moved in the House of Commons yesterday the second reading of the bill to ratify the French treaty. He supported it in a very short speech. Sir Richard Cartwright did not very strongly oppose the treaty, but held that it was all in favor of France and against it was all the showed that the prohibitionists and the wine growers were opposed to the treaty, and that it would reduce the revenue when Canada could ill-afford to lose it. to the treaty, and that it would reduce the revenue when Canada could ill-afford to lose it.

Mr. O'Brien, Conservative, moved in amendment: 'While this House is willing at all times to sanction any treaty at which on fair and equitable terms will add to Canadian trade, it is unable to assent to the treaty that has been made with France on the ground that it will not prove reciprocal in its results, in that it gives to France greater advantages than Canada receives, being unfair and unequal, inasmuch as, according to one of its terms, France is entitled to the benefit of all commercial advantages which Canada may hereafter give to any other foreign country, and not merely in tariff matters, while Canada is only to participate in any reduction of duty granted any other power in any of the articles enumerated in the treaty. It is further unequal and unfair in this, that while any increase in the duties on the class of wines, which under it France is to have advantages in respect of entitles France to denounce the treaty. Canada is not placed in the minimum tariff which is to be enforced so far as Canadian products mentioned therein are concerned, and in the opinion of this House is unfair and unjust to the great mass of consumers that duties should be lowered as, by the treaty, they are to be on articles of luxury while high duties are to be maintained on many of the necessaries of life and this, too, at a time when, owing to the falling revenue, the duty can lb be spared."

Orrawa, July 12.—The French treaty passed the committee in the House of Commons yesterday and stands for a third reading.

Hon. George Foster then moved: "That CHICAGO, July 14.—Prendergast, the assassin of Mayor Carter Harrison, was hanged yesterday. He seemed to be indifferent to his fate and died game.

At 11.57, nine minutes after the trigger was sprung, Prendergast was announced dead. from the time he left his cell. He was dissuaded by Shiriff Gilberts from making a speech.

The murder of Carter Harrison was one of the most dastardly on record. The Mayor had returned home from attending the closing ceremonies of the World's Fair about six on the evening of Saturday, October 31, last year. It was near 8 b'clock when Prendergast, who had been hanging around the premises, approached his house and rang the bell. A girl answered the ring and was asked if the Mayor was at home. On receiving a reply in the affirmative, Prendergast pushed his way in, saying at the same time that he must see Mr. Harrison. The Mayor, hearing the noise, entered from the dining room to the hallway, and the girl then took her departure.

"Well, what do you want with me?" asked the Mayor.

Then the assassin drew a revolver from his pocket and without a word of warning commenced firing. The first shot was fatal in itself, entering the Mayor's right breast and penetrating the lung. The wounded man attempted to retreat to the dining room, but was followed by Prendergast, still firing. Three shots in all were fired, two having fatal effect.

Carter H. Harrison was five times elected Mayor of Chicago –1879, 181, 1883, 1883, and 1893. He was born in Kentucky in 1825. When he was eight months old his father ciied, but the circumstances of the family were left in an unusually promising condition. At the time of his death he was a widower, but was engaged to be married to a Miss Annie Howard, whom he called for constantly while he was dying. The lady, however, did not arrive until the murdered Mayor had breathed his last.

Commons yesterday and stands for a third reading.

Hon. George Foster then moved: "That it is expedient to provide that the Governor in-council may enter into a contract for a term not exceeding ten years with any individual or company for the performance of a fast weekly steamship service between Canada and the United Kingdom, making connection with a French port, on such terms and conditions as to the Carriage of mails and otherwise as to the Governor in-council' seems expedient, for a subsidy not exceeding the sum of \$750,000 a year."

The Minister of Finance went on to ex-The Mimister of Finance went on to explain that there would be four new ressels equipped with all the modern improvements of a first-class line of steamships. The speed is to be 20 knots an hour and the carrying capacity of the steamers is to be 10,000 tons register. The boats would give a freight and passenger service. They would carry 500 first-class and 1,000 sterenge passengers. The cost of the vessels would be from £400,000 sterling.

Sir Richard Cartwright, in criticizing the resolution, said that it was not possible to navigate the St. Lawrence at a rate of 20 knots. The river was too dangerous for that speed.

The resolution was adopted.

Mr. Rutherford bled to death in a few minutes. Deceased was 80 years of age, well-known and highly respected. He leaves a widow and a grown-up family of tree. Sir John Thompson complained of the vagueness of Mr. Tarte's charges, but asked the House to let him reserve his decision as to parliamentary investigation for a short time. He promises an investigation into the charges of illegal collection of travelling expenses by Judge Olimet.

Ottawa, July 14.—The case of A. J. Turcotte, M.P., was discussed in the House yesterday. It was brought up on a motion of Mr. Giroud (Jacques Cartier) to adopt the report of the Committee on Privileges and Elections, which exouerated Mr. Turcotte from the charges preferred against him. A Child Burned to Death.
LONDON, Ont. July 11.—The three-year-old danghter of Lewis L. Richards, 55
Sprace street, met with a terrible accident which resulted in her death. Mrs. Richards heard the little one screaming in the back yard, and running to the back door she saw her daughter enveloped in flames. With the assistance of the servant girl she picked her up, and both tore her burning clothes off. In doing so both had their hands badly burned, and before they succeeded the unfortunate baby's body was almost burned to a crisp. The child set her clothes on fire while playing with matches.

These charges were that he was a Government contractor, or rather holding a contract from the Government with the Militia Department through a third party. This is a violation of the Independence of Parliament Act. The case was ventilated before the Privileges and Elections Committee and by a majority the committee decided that the charges were not proven. On the motion to adopt the report Mr. Edgar proposed an amendment to the effect that the charges were proven.

The resolution adopting the report and exonerating Mr. Turcotte was carried by 82 yeas to 53 nays, a majority for the Government of 29. Messrs McCeill, Dickey and Weldon, Conservatives, voted against the Government. These charges were that he was a Gov Farmer Patten Discharged.

Brantford, July 14.—The case of Thos. Patten, a farmer from near Paris, for seduction of Annie Newman, was heard at the police court yesterday. After hearing the witnesses the magistrate dismissed the case on the grounds that the girl was not a ward of the defendant and the agreement between Mr. Patten and the home was merely a master and man agreement. The girl could have left at any time. Doubt existed as to the age of plaintiff.

Lincoln Paper Mills Destroyed.

MERRITTON, Ont., July 13.—The Lincoln Paper Mills at Merritton were struck by lightning and damage to the extent of \$47,000 was done. The stook room, printing and bagging departments, with several small buildings, were destroyed and much valuable machinery was injured. The steamer from St. Catharines was called into Paris, Ont., July 12.—A young man named James Crawford, a carpenter, while cutting logs with a steam sawing machine, met with a terrible accident, which resulted met with a terriors accident, which resulted in instant death. It appears he was placing a plank on the table which feeds the saw and was caught by the belt and hurled across the saw, which severed his head from his body, at the same time cutting one of his legs and arms off. He leaves a wife and four children, action. The loss is covered by insurance in the Hartford and six other companies. It will be at least three months before the mills will be in full operation again.
