## FAVORS THE U. S.

That is What Canada's Preferential Tariff Does.

Returns Prove the Claim—American Paper's Cackle Over the Fact.

Detroit Free Press.

Quebec, Nov. 26.—The official returns of Canadian trade for the last year with the United Kingdom and the United States show the much-heralded British preference to be no preference at all, despite the recent boasting remarks in England as to the patriotism of Canada's government in according such preference, which have been made by the ex-governor-general, the Earl of Aberdeen.

The claim of the government that in according a rebate of 25 per cent to British goods it was manifesting Canada's unbounded affection for the mother country, turns out to be false. It is easy enough to make pretense of a reduction, but when as a preliminary the duties are increased on specific articles the 25 per cent off really amounts to nothing.

And then, in the further process of tariff juggling, when the government decreases the duty on articles which Canada imports chiefly from the United States, it does not look as though Canada is animated with quite such a filial regard for the mother country as Sir Wilfrid Laurier might wish to have it appear at court and as imperial statesmen have been boasting of in the ears of the world.

The figures speak for themselves. The gross trade of Canada from July, 1898 to 1899, amounted to \$311,000,000 as against \$295,000,000 in the previous year. The exports were valued at \$159,000,000, of which Canada exported \$99,000,000 to Great Britain and \$36,000,000 to the United States. The total imports were valued at \$152,000,000 of which Canada purchased \$87,000,000 from the United Kingdom, and \$91,000,000 worth from the United States.

The peculiar nature of the preferential tariff is shown by the fact that of the goods Canada purchased in England \$10,000,000 worth was admitted free of duty, whereas of the \$91,000,000 worth purchased in the United States only \$48,000,000 worth came in free. Since the preferential tariff went into effect the imports into Canada from the United Kingdom have increased from \$33,000,000 in 1897 to \$87,000,000 in 1899, while, on the other hand, the imports from the United States have risen in the same period from \$59,000,000 to \$91,000,000.

### CONTINUATION WORK ALLIANCE

At the call of Inspector Colles, a meeting of the head masters of public schools doing continuation work as Class A schools, under the new regulations, was held in the county clerk's office on Saturday forenoon. Inspector Park was also present. A society, to be known as the Continuation Work Alliance, was organized for the purpose of mutual assistance in doing the advanced work now called for by recent legislation and being carried on in every town school throughout the county, and for which substitute legislation and municipal grants are now provided. The Alliance will include in its membership Messrs. J. G. Cameron, Thompsonville; G. A. Miller, Dresden; P. B. Petterly, Highgate; J. W. Piewee, Wallaceburg; J. C. Hamilton, B. A., Blenheim; Henry H. Kelly, B. A., Bothwell; and Messrs. E. Lafferty, B. A., and J. B. Jambridge, Wallaceburg, and Miss E. Hardcastle, Highgate. The next meeting will be held in Chatham on Saturday, Jan. 6th, 1900, and meantime the members will keep in touch with one another in their work by a system of correspondence which is being arranged. J. G. Cameron was elected president of the Alliance.

## Loafdom a Winner

Continued from Fifth Page.

Ald. Fleming thought the by-law was not reaching the people intended, but rather proving a menace to the general public.

Ald. Marshall said he hadn't viewed the matter in that light. It did appear that the by-law was not reaching the right crowd. The loafers described like the darkness of the buildings and doorways are not found as a rule on the sidewalk.

Ald. Martin did not believe the by-law would carry through the Court of Appeal. He did not think they had power to deal with parties on private property or doorways.

The motion was put and lost on the following division:—

Yeas—Ald. Cowan, Marshall, McKeough and Scane.—4.

Nays—Ald. Sulman, Stephens, Martin and Fleming.—4.

Ald. Scane asked if the chairman was entitled to vote and thereby negative the motion.

The clerk said the rules entitled him to vote.

Ald. Sulman suggested that a new by-law be passed embodying that part of the present by-law dealing with the throwing of refuse and the spitting of tobacco juice on the sidewalk.

Ald. Cowan—You can do as you like, but I'll have nothing more to do with it. You've defeated the first class and I'm not going to father a crippled by-law.

ANOTHER DEFEATED.

The by-law to further regulate city officials was then introduced by Ald. Cowan and read in committee and adoption defeated on another tie vote.

The council then resumed.

Ald. Scane moved in amendment to the report of the committee of the whole that it be referred back to committee of the whole to consider the loafing by-law. Ald. Cowan seconded.

Ald. Sulman moved in amendment to amendment, seconded by Ald. Scane, that the police be requested to take proceedings against all loafers making themselves a nuisance.

Both amendments were defeated.

The report was then adopted. The by-law to appoint municipal returning officers and two local improvement by-laws were then read a third time and finally passed.

A GENUINE TRIUMPH

In the medical line it is made by a Brantford druggist, called Merriall System. Tonic. It embodies an idea long thought of but just recently made chemically possible. When System Tonic is taken the old blood is purified, new rich blood is made, while all the principal organs in the body are toned and new tissues constructed. The result is perfect health. Sold in 50c bottles, at the Central Drug Store. Pamphlet free.
