S. J. PROUSE,
 Proprietor.
 McCOIG & HARRINGTON,
 Auctioneers.

Do it now!

Minard's Liniment cures Burns, etc.

MILLER—BURNS

Last Wednesday a pretty event was solemnized at Ridgetown, when Mr. Albert Miller was united in marriage to Miss Lillian Burns, of Amherstburg, Rev. Father James, of this city, officiating.

The ceremony was performed in St. Michael's church. Miss Annie Miller, of this city, was bridesmaid, and Mr. Frank Purvis, of New Scotland, acted as best man. After the ceremony all returned to Mrs. Mooney's, a sister of the bride, where a fine wedding dinner was in waiting. Many beautiful and costly presents were presented to the bride and groom, showing the high esteem in which the young couple are held.

They will make their home on Harvey street, this city, and will be at home to their friends after October 1st.

MILTON'S LAST.
 Milton's wife left him, didn't she? Did he write anything after the event? Oh, yes, Paradise Regained.

CARD OF THANKS

The family of the late Thos. H. Baxter desire to thank the brother workmen for the prompt payment of the insurance, and also wish to thank the many friends and neighbors who so kindly assisted during their sad bereavement.

While the people were rushing to the fire, and commenting on the heroic and efficient actions of the firemen, there were two men who were not so prominently in the limelight, who are also deserving of some

MR. DRADER AGAIN SUFFERS

Continued from Page 1

blocking of the Fifth street bridge approach.

DELAYED TEN MINUTES.
 The blocking of the northern approach to Fifth street bridge by Blight & Fielder's workmen may result in an inquiry being made into the matter by the powers that be. Through the blocking of this thoroughfare the firemen were delayed ten minutes in getting to the Drader fire Sunday morning. There was no possible way to get over the approach, and the brigade had to gain access to North Chatham by way of Aberdeen bridge. This matter will probably be brought up at this evening's meeting of the City Council, and someone will probably be called up on the carpet to explain the cause.

ALD. POTTER ACTS.
 Directly after the firemen returned from the Drader fire yesterday afternoon, Chairman Potter of the Property committee rang up City Engineer E. B. Jones, and asked him why it was that the street was blocked. Mr. Jones replied that the concrete was still soft Saturday night, and it had to be blocked to protect it from traffic.

CHIEF GETS WARM.
 Fire Chief Richard Pritchard afterwards rang up Mr. Jones, and a heated conversation took place between the two. The Fire Chief claims that he notified the Board of Works department that this street must not be blocked, and that a passageway sufficient to let the department get through must be left. His instructions were not heeded, it seems, and when he arrived back in the city Saturday night the street was blocked up with two machines and a pile of gravel. The machines stood side by side, and the balance of the roadway was blocked with a pile of gravel.

SOME ONE AT FAULT.
 Just who is to blame may be ascertained at the inquiry which it is proposed to make at the session of the Council this evening. It may be that Mr. Jones is not deserving of the blame, as the paving company may have disobeyed instructions, but it is quite evident that some one is at fault somewhere. The blocking of this entrance into North Chatham was certainly a menace in the case of fire, though it is doubtful as to whether the firemen could have done any more towards checking the blaze had they got there ten minutes sooner. The alarm was sent in too late anyway.

INCENDIARISM!
 The fact of the two fires following so closely upon each other has aroused the suspicion in some minds that some evil person, with a possible grudge against Mr. Drader, has been at work, and that the last fire at any rate, might be accounted for through the theory of incendiarism. The fact that the mill was burning so long before the alarm was sent in strengthens this theory in many instances. It is said that the insurance companies may investigate the fire, to find out if possible the real origin.

HOW ALARM WENT IN.
 The fire was first noticed by the watchman of the wagon works. He was near his own factory at the time, and as soon as he saw the smoke, he at once sent in the alarm from the wagon works. After sending in the alarm from the inside of the building, he came outside and saw Cuba Darr standing near. He asked Cuba if he had heard the fire bells, but Cuba had not. He then went in and sent in another alarm, asking Cuba to stay outside and listen for the bell. Then he came out, but Cuba had still failed to hear the bell. The alarm was then sent in from the corner of Thames street and Grand avenue, but by this time the fire department were on their way to the scene. Both of the other alarms had been received at the hall.

THE CITIZENS' SYMPATHY.
 The service in First Church was in progress yesterday morning when the fire alarm sounded. When the bell rang it was noticed that several of the people of the congregation, owing to the many recent fires, became anxious and nervous. With commendable forethought, Mr. MacGillivray announced that a man from the congregation would find out where the fire was so that if there was anyone in the audience who would be interested enough to leave the service, they would be informed.

When it was known that Mr. Drader was again visited Mr. MacGillivray expressed the feeling of sympathy which the citizens of Chatham have for him in the heavy losses which he has sustained during the past few days. It is indeed regrettable, not alone on Mr. Drader's personal account, but for the large numbers of men who will, as a result, be thrown out of employment. It is estimated that directly and indirectly fully from 100 to 150 men will be affected, and many of these will be robbed of their means of living.

Mr. Drader is one of Chatham's most respected and valuable citizens. He has done much to forward the city, and it is sincerely hoped that he will be able to surmount all of his recent serious difficulties, and once more establish his business interests in this city on a firm and profitable foundation.

WHERE CREDIT BELONGS.
 While the people were rushing to the fire, and commenting on the heroic and efficient actions of the firemen, there were two men who were not so prominently in the limelight, who are also deserving of some

POLICE NOTES

Bordeau, the man who is accused of stealing a watch from a man named Carron, of Big Point, was arrested Saturday evening by Officer McGregor. Bordeau was put under arrest while in the city Saturday. Quite a scene was created by his mother and father, who were present, and made great protestations against his arrest.

As young wife, a bride of but four months, was almost distracted, and between sobs, pleaded for the release of her husband. Bordeau's case will come up Friday.

GAVE FAKE NAME

Toledo, Ohio, Sept. 21, 1907. Chief of Police, Chatham, Ont.—Dear Sir—Would you kindly get that watch and chain and the \$2 from that fellow you arrested last night. He took them off me. His name is Fred Finch, of Toronto. Send them express and charge to me.

JACK WHITE,
 Gen. Del. Toledo, Ohio.

SMALL FIRE

While the firemen were still engaged at the Drader fire, Sunday morning, they were called away by an alarm from box 32, to a house fire on Queen Street. The blaze was on the rear floor of a house belonging to Mr. Putnam, at the corner of Queen Street and Lorne Ave., which was occupied by some English immigrants.

The fire was put out with pails of water, but not before about \$150 worth of damage was done to the roof.

CHRIST CHURCH

Miss Rice officiated at the organ at Christ Church Sunday, at both morning and evening services. She did so to the entire satisfaction of all concerned.

At the morning service Rev. Robert McCosh preached a very interesting sermon, in which he made quite a masterful arraignment of the religious faddists, who appear ready at all times to accept any new sect which may come along. In the evening he preached an eloquent sermon on "Life."

TWO KILLED; THREE WILL DIE

Gas in Mine Ignited by Using Naked Light.
 Wilkes-Barre, Pa., Sept. 23.—Two men were killed and three others probably fatally injured here yesterday by an explosion of gas in No. 3 mine of the Lehigh & Wilkes-Barre Coal Co. The dead are Anthony Mall, driver; Tallie Evans, patcher. The explosion is said to have been caused by one of the men lighting a body of gas with a naked light.

DROWNED IN COBAULT

Cobalt, Sept. 23.—S. L. Graham of Sutton, Ont., surface manager of the Nipissing Mines, was drowned in Cobalt Lake on Saturday.

He started across Cobalt Lake in a canoe, accompanied by Shift Bees McCadden, to secure a doctor for two men, who were overcome by gas in the shaft, but who afterwards recovered. On their return a heavy wind blowing from the south drove them farther up the lake and capsize their canoe. The body was found at one o'clock at the north end of the lake.

AN EXTREMIST

Fludub nearly always goes to extremes. Yes, he says every time he gets a headache his corns hurt him.
