Mrs Griffin, widow of the late Lawson Griffin, of Greenwich, died very suddenly on Tuesday morning last. She arose in the morning in her usual health and prepared dinner and suddenly fell dead without any warning.

The attendance at the churches has been small the last two Sundays in consequence of the very inclement nature of the weather. We have had two very unpleasant Sabbaths in succession and a change would be most acceptable.

Mr Geo. Lockhart, engine driver on the W. & A. R., who had been absent from his post for several days on account of illness, was on Sunday last stricken with a paralytic shock. Though at present in a critical state he hopes soon to see him in his responsible position again.

We would direct the attention of our readers to the adv. of the skating carnival to be held in the Kentville rink on Thursday evening next. Extensive preparations are being made by the enterprising manager and a good time will no doubt be had. Special trains are to be run to Wolfville and Kingsport at the close. We bespeak for it a liberal patronage.

Ash sifters to fit on barrels, great coal sizers, for sale by WALTER BROWN.

Mr C. R. H. Starr showed us the other day a curiosity in the shape of an ingeniously constructed and prettily inlaid box made of different kinds of Japanese wood, and containing sixteen different specimens of native woods of that country. It was sent from Japan by Mrs Starr's sister, and shows the mechanical skill of the Japanese as well as the excellent quality of woods to be found in that country.

We have received the first number of the Canadian Dry Goods, Hats, Caps, Furs, Millinery and Clothing Review, representing the trades indicated. As there is no organ directly interested in these important trades *The Review* should have a wide field of usefulness, and a large measure of support. Its get up is most creditable to the publishers, being far ahead of any other Canadian trade journal in this respect, and its pages are filled with interesting and instructive matter. We predict a speedy and lasting popularity for *The Review*. It is edited by Mr Chas. Morrison, who occupied the city editor's chair of the *Mail* for several years. The office of the publication is at 6 Wellington street, Toronto.

"Diamond N" Melasses: 17 lbs Sugar \$1; 4 gallons Mayflower Oil \$1; 7 lbs good Tea, \$1, at R. Pratt's.

In the case of the Queen vs Jenkins an order of certiorari has been granted by the courts and an application has been made by the prosecution to set the order aside. The matter will probably be decided in a few weeks.

Miss Hattie McLellan, the talented young elocutionist of Windsor, gave a recital in that town recently which was very highly spoken of by the press and those who attended. Miss McLellan recently graduated with high honors from a school of oratory in Washington. We would like to see arrangements made to have her give a recital here.

Money for the Boys.

The Detroit Free Press wants to secure a lively boy in this locality to sell their famous weekly. *The Free Press* is the most popular and one of the best selling papers in the United States. It is supplied to dealers on very liberal terms, the company taking back all unsold copies and requiring payment only for such papers as are sold.

Only one boy is appointed in a town, so the boy that writes first, giving good business references, will probably get the agency. State how many papers you think you can sell at five cents each, and they will at once be forwarded reaching you in time for Saturday sales. Address, *The Free Press Co.*, Detroit, Mich. Wolfville, Jan. 20th, 1891.

A Concert for a Worthy Object.

Mr Edmon, —We understand that the Perian Society, of Acadia Seminary, assisted by ladies and gentlemen of Wolfville, intend giving a concert on Feb. 6th, to aid in building a church in Berlin for the benefit of English speaking students who go there to study. This church is necessarily non-sectarian, its pastor, the Rev. J. H. W. Stuckenberg, D. D., is a devoted, earnest Christian worker, struggling against great difficulties. We quote below from a pamphlet from his pen giving a statement of facts which cannot fail to interest many of your readers, as Wolfville has furnished during the past two years a large number of students to the various departments of study pursued there. We hope that the coming concert will be patronized by all denominations, as all are represented in this church at Berlin. It is expected that this concert will be followed by others in different parts of the province.

"During the winter 1889-90 there were in the university alone 184 matriculated students. They are earnest and ambitious, many of them having taken prizes, fellowships or scholarships. The specialists in medicine, theology, philosophy, science, languages and history are most numerous. Many of them have profound views on view or enter special researches with a view to authorship. A large number of Americans matriculated in the university are already professors, preachers, or practicing physicians, who spend a year or two on leave of absence to devote themselves to a specialty.

"Besides the university numerous other schools are attended by students from this continent. Especially large is the number of those who devote themselves to music and art. In all there are now from six hundred to a thousand American students, men and women, here in the course of a year. Many of them make sacrifices to secure the educational advantages of Berlin, and it is evident that they cannot build the church needed now and for coming generations.

"That the importance of the church here is great beyond estimation is admitted by persons who have carefully examined the situation. Frequently it has been declared that no other church is in a position equally to affect the highest and most influential thought of America. The hundreds here influenced will in turn influence many thousands through books in colleges and seminaries, in the pulpit and in all the professions.

"Our rented building holds 350 persons, and is too small for the morning services. We need a church which will hold 500 or more. The Sunday evening meetings for students, at the pastor's house, are overcrowded. They are never announced, except at their opening in the autumn; and yet room cannot be found for all who desire to be present. Some stay away that others may attend. The three rooms and the hall are crowded by about two hundred persons. The number might be doubled, if we had the accommodations. Can it be possible that with such demands for a church building and with such marvelous opportunities for good the work in Berlin can still be permitted to suffer? With such interests at stake a church edifice ought to be erected at once.

"The prize is to be free, but arrangements have been made so that a person can be endowed in the name of an individual, or church, or institution, for one thousand dollars. Many of the colleges and seminaries ought to have prizes for their students; some need several. Two hundred dollars will endow a sitting."
