Water Cure In Minnesota

A St. Paul man tells of a Swedish farmer in Minnesota who was taken suddenly and violently ill on one occasion. His wife telephoned for a doctor.
 "If you have a thermometer," answered the physician, "take his temperature, I will be there presently to see him."
 When the doctor arrived, the wife met him at the door.
 "How is he?" asked the doctor.
 "Val," she said, "I ban put the barometer on him like you tal me, and it say 'very dry,' so I give him a pitcher of water, and now he ban gone back to work."—The Country Gentleman.

She Did It!

Somebody said that it couldn't be done.
 But she with a chuckle replied: That maybe it couldn't but she would be one
 Who wouldn't say so till she tried.
 So she started right in with the trace of a grin
 On her face, if she faltered she hid it;
 She started to sing as she started the thing,
 That couldn't be done, and she did it.

The following resolution was enthusiastically adopted by the National W. C. T. U. Convention which met at St. Louis in November. "Whereas the present style of women's dress is justly criticized from the standpoint of health, modesty and purity of thought and life, we make our

Well Satisfied With Baby's Own Tablets

Mrs. A. Bernard, La Presentation, Que., writes:—"I have used Baby's Own Tablets for my baby and am well satisfied with them. I have recommended them to several of my friends who have also used them with beneficial results." The Tablets are a mild but thorough laxative which regulate the stomach and bowels and thus prove of benefit in cases of indigestion, constipation, colic, colds, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The order of the Board of Commerce fixing the profits of clothiers at 26 per cent on suits costing less than \$25, and 33 1/2 per cent on suits costing over that amount, will not become effective until after February 15. During hearing of the objections of the Ottawa clothiers to the proposed order, Chairman Robson, of the Board gave a verbal ruling extending until February 15th the time in which clothiers throughout Canada must send in replies to the questionnaire of the Board relating to their business.

We Need Pluck

The same lively little quality called pluck is the lifeblood of moral and physical activity. You need to be plucky to face life's disappointments and disillusion without growing cynical or bitter. When men and women come through severe trials of faith and yet retain a sweetness of temper, a general kindly tolerance in character, it is not that trouble has impressed them very little, but that they have put up a very plucky fight against a proneness to become bitter. Cynicism is only futile anger against self-created illusions.
 There is pluck needed to enter upon any great enterprise; to launch out into unknown, unconventional ways. We are not naturally so conservative as we are afraid of untried paths. What is easiest to us is frequently what needs least pluck.
 We think that much of our failure to realize the best that is in us is owing to a want of pluck to realize fully our moral disabilities.

What we are, and what we are not, we are only too ready to forget, simply because we fear to face the truth. But we show a lack of wisdom in this. Certain it is that no man ever mended his faults by shutting his eyes to them. It is equally certain that many a man has become great by a plucky recognition of his own limitations.

Baptist, Methodist and Presbyterians of West Vancouver have united in one church under one Constitution. A compromise was reached in Baptism that was agreeable to the three denominations.

Forty-One Years at the Throttle

Forty-one years of continuous service as a locomotive engineer without one accident to mar his work is the remarkable record established by Mr. Lew Patrick of Revelstoke, B. C., and previous to October 31, 1919, an engineer operating trains out of Revelstoke on the mountain division of the Canadian Pacific Railway main line.

MR. LEW PATRICK.

He is one of the pioneers who came west with the railroad and developed as it developed. Starting with the Canadian Pacific at St. Boniface Manitoba, when a young man of twenty-five years of age he passed successfully through the occupations of brakeman, conductor, fireman, and engineer during the first year of his service. His first engine was one of the old, wood-burner type and he has seen railway motive power develop from that stage through coal burners of various grades to the latest type of oil-burning mogul. As engines developed Mr. Patrick kept pace and operated them as fast as they came.
 He was working on construction trains in British Columbia, and was present at the summit when Lord Strathcona drove the last spike that linked the Atlantic with the Pacific ocean. Since then Mr. Patrick has been driving engines on the mountain sections. From June, 1896 to the spring of 1918 he was driver on the fast Imperial Limited passenger train. On those alone he has carried tens of thousands of passengers in safety. Perhaps no other man in the service of the great railway company has carried more people than he has. Long before he retired from active service his reputation as the safest engineer of the whole country had gone abroad. People liked to know they were to be drawn by Lew Patrick, because it meant that the chances of accident had been reduced to the minimum. Though the Canadian Pacific Railway Company prides with pride to its own wonderful record in protecting the lives of its passengers, and its own reputation in this regard has always been very high among railroad men and the travelling public, yet to know that Lew Patrick was at the throttle was added assurance to those who knew.

Mr. Patrick is an example of the splendid type developed by the railroad service. His duty to his company and his passengers was his governing influence. The Canadian Pacific Railway Company through the whole gamut of officials and men, from president to the newest brakeman feels pride in the record of this veteran engineer.
 Mr. Patrick was born in South Durham, 65 miles east of Montreal, 66 years ago. His parents were farmers and he followed the same occupation until he went west to railroad. He was married in 1896, and has three children, Miss Jean and Mr. John Patrick of Vancouver, and Mrs. R. Boyce of Calgary, Alberta. L. V. K.

For Kickers

Running a newspaper is just like running a hotel, only different. When a man goes into a hotel and finds something on the table which does not suit him, he does not raise his voice with the landlord and tell him to stop his old hotel. Well, hardly. He sets that dish to one side and wades into the many dishes that suit him. It is different with some newspaper readers. They find an article occasionally that does not suit them exactly, and without stopping to think it may please hundreds of other readers, they make a grand stand play and tell the editor how the paper should be run and what should be put in it. That such people are becoming fewer every year is a blessing.—Ex.

HOW THIS NERVOUS WOMAN GOT WELL

Told by Herself. Her Sincerity Should Convince Others.

Christopher, Ill.—"For four years I suffered from irregularities, weakness, nervousness, and

was in a run down condition. Two of our best doctors failed to do me any good. I heard so much about what Lydia E. Pinkham's Vegetable Compound had done for others, I tried it and was cured. I am no longer nervous, am regular, and in excellent health. I believe the Compound will cure any female trouble."—Mrs. ALICE HELLER, Christopher, Ill.

Nervousness is often a symptom of weakness or some functional derangement, which may be overcome by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, as thousands of women have found by experience.
 If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for suggestions in regard to your ailment. The result of its long experience is at your service.
