

GRAND FALLS DEVELOPMENT

Opinions from Far and Near Gathered by the
Edmundston Observer

(Edmundston Observer)

"We produce below opinions gathered by wire from different points in New Brunswick regarding the development of Grand Falls Hydro. Our readers will notice that these opinions are from widely different places, and that they are invariably in favor of the IMMEDIATE development of the Falls. At second and most noteworthy thing, is that the answer received show that there is practically a unanimity of opinion that the power SHOULD BE DEVELOPED BY THE GOVERNMENT OF NEW BRUNSWICK.

During the past generation Grand Falls has been in the hands of private corporations. Last year the Government backed by public sentiment, cancelled the leases which private corporations had over Grand Falls. The experience of the past should surely be sufficient for any thinking man, and never again should these God given resources be taken away from the people of the Province.

Grand Falls belongs to the people, not of this generation alone, but of future generations. The Power inherent in those Falls should be developed for the people by the Government. Any Government which puts the Grand Falls hydro into the hands of corporations or private individuals will be unworthy of the trust which the people have given it.

MRS. MISENER'S
ACHES AND PAINSVanished After Using Lydia
E. Pinkham's Vegetable
Compound

"Branchton, Ont.—'When I wrote to you for help my action was mostly prompted by curiosity. I wondered if I, too, would benefit by your medicine. It was the most profitable action I have ever taken, I heartily assure you, for through its results I am relieved of most of my sufferings. I have taken six boxes of Lydia E. Pinkham's Vegetable Compound Tablets and a bottle of Lydia E. Pinkham's Blood Medicine, and I can honestly say I have never been so well before. I had suffered from pains and other troubles since I was fifteen years old, and during the 'Great War' period I worked on munitions for two years, and, in the heavy lifting which my work called for, I strained myself, causing pelvic inflammation from which I have suffered untold agony, and I often had to give up and go to bed. I had doctored for several years without getting permanent relief, when I started to take your medicines."—Mrs. GOLDWIN MISENER, Branchton, Ont.

Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text Book upon "Ailments of Women." C

BRIDGE NOTICE

NOTE—No tenders will be considered unless the persons tendering distinctly state that they have made or caused to be made an inspection of the site of the proposed work.

SEALED TENDERS, marked "Tenders for Stickney Brook Mouth Bridge" will be received at the Department of Public Works, Fredericton, until Wednesday, 19th day of March, 1934, at 5 o'clock, p.m., for building Stickney Brook Mouth Bridge, main road east side St. John river, Parish of Pepl, Carleton Co., N. B., according to plans and specifications to be seen at the Public Works Department, Fredericton, N. B., at the office of the Provincial Tax Inspector, Bank of Montreal building, St. John, N. B., at the office of A. D. McCallum, Esq., Florenceville, and at the store of Allen Curtis, Esq., Stickney, N. B. Each tender must be accompanied by a CERTIFIED BANK CHEQUE made payable to the PROVINCIAL SECRETARY TREASURER or Cash for an amount equal to five per cent of the total amount of the tender, which will be forfeited if the party tendering declines to enter into contract when called upon. Such Certified Bank Cheque or Cash will be returned to the parties whose tenders are not accepted, but with the party to whom the contract is awarded, it shall be retained until the final completion of the contract and its acceptance by the Department. Not obliged to accept lowest on any tender.

P. J. VENIOT,
Minister of Public Works,
Department of Public Works, Fredericton, N. B., February 27th, 1934.

And events will have to be watched with the greatest care to see to it that the people are not deceived, that the people are not cheated. For efforts will be used, efforts are even now being made, to get New Brunswick to place the heritage which has come down through the ages, into the hands of men who will at every chance exploit the Province and the people of the Province thereof.

From J. King Kelley the County Secretary of St. John, and Secretary of the union of New Brunswick Municipalities, the following telegram was received. Mr. Kelley is expressing not his own views alone, but the views of the Association of New Brunswick Municipalities:

"The Union of New Brunswick Municipalities has solemnly declared as its policy that the water powers of this province should remain part of the public domain, to be developed and managed by this province. If the government is satisfied from best information and advice obtainable that Grand Falls can be made commercially profitable, the logical conclusion is to proceed with all possible speed to construction."—J. KING KELLEY, K. C.

From the village of Bath we got this: "Believing that development of Grand Falls Power absolutely necessary future prosperity this Province, strongly recommend immediate development said power."—BATH VILLAGE COMMISSIONER.

From His Worship the Mayor of Grand Falls the following was received: "I strongly endorse the immediate development of power at Grand Falls. It should be developed by Provincial Government; if that is not possible then the Government should assist to the extent of fifty-two per cent in order to protect peoples interests. Unless our powers are developed for manufacturing purposes our population will continue to decrease."—D. J. COLLINS, Mayor.

From Ottawa comes this wire from Pius Michaud, M. P., member for Restigouche-Madawaska: "The Grand Falls Water Power should be developed immediately. New Industries will be established in New Brunswick; more people will be employed, our raw materials will be manufactured at home, our population will increase, if we have more hydro energy. Every interested citizen should urge this development."—PIUS MICHAUD.

Right to the point is the following: "My own opinion is that the neglect to develop Grand Falls power in the past has been a serious loss to development of the Counties adjacent, and the sooner it is done the better. Development of our own natural resources is the right policy."—A. F. CAMPBELL, Manager for F. E. Sayre, Hartland.

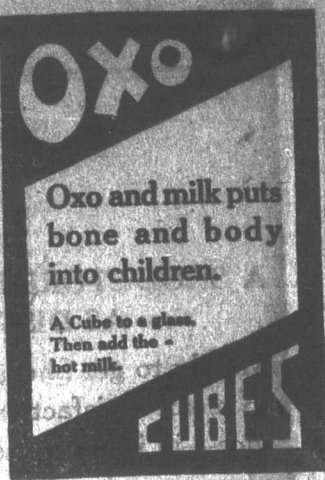

"I heartily endorse the immediate development of Grand Falls Power for hydro. Have it done by a commission under control of Government of the Province. That every inducement be given capitalists to establish industrial, especially pulp wood, and other wood into finished products, on the upper St. John and elsewhere."—L. E. McFARLAND, Mayor of Hartland.

The Mayor of Sackville, aptly uses a quotation from the Bard of the Avon: "This section would heartily endorse development of Grand Falls power. The whole Province is calling for this power. In Grand Falls nature comes to our aid bidding us harness up; and there is a tide in the affairs of men which taken at the flood leads on to fortune. It would mean a building up of the whole Province, and be a mighty stimulus to the industrial and commercial prosperity of New Brunswick."—A. CAMERON, Mayor of Sackville.

From across the border of New Brunswick at Van Buren, comes this wire: "Develop the power at Grand Falls. Here is power that nature furnishes free, going to waste for thousands of years, when it should furnish cheap electricity. Industries here-tofore unthought of for this section will spring up, labor will receive better returns than ever, and capital its due recompense. Its benefits and advantages will flow to all without exception."—THE HAMMOND LUMBER CO.

From the Progressive member for Victoria-Carleton at Ottawa, T. W. Caldwell, we get this: "I notice engineers report on Grand Falls power development is ready for consideration by Provincial Government. The future prosperity of New Brunswick depends largely on manufacture of our raw materials, such as pulpwood, hardwoods, etc., into the finished article before being exported. This is only possible by the development of cheap power. It is therefore imperative that Grand Falls, the best water power in the Province, should be developed as speedily as possible."—T. W. CALDWELL.

From Campbellton, and from the lumber firm of Richards & Son Ltd., comes this: "If commission and experts report Grand Falls power can be developed at reasonable cost, we

think Government should develop and control as more and cheaper power is badly needed along North Shore. We are in favor providing costs of development are within reason."—W. S. RICHARDS.

From Grand Falls, and another lumber concern: "We favor immediate development Grand Falls power by Government."—JAS. BURGESS & SONS.

And from Grand Falls again: "We favor Government developing Grand Falls Power, and operating for the people of the province."—GREEN RIVER LUMBER CO., O. B. Davis.

And from the Mayor of Bathurst: "Most heartily approve of proposed hydro electric development at Grand Falls whether by Government or private enterprise. The great benefits derived by our town from Nepequin water power must satisfy everyone

that Grand Falls power would greatly assist industrial development. If transmitted Bathurst could use a lot of this power."—W. J. KENT, Mayor. That Telegram tells of what has been done and shows what can be done.

And from another public man. This time from Campbellton: "If the Government of New Brunswick can reasonably be assured to sell sufficient electrical energy to look after the sinking fund and the interest on the bonds, they should lose no time in proceeding with the immediate development of Grand Falls. It would relieve certain sections of New Brunswick especially small towns, of serious problems now confronting them."—ARTHUR T. LEBLANC.

And from a newspaper in Bathurst: "Bathurst looks to the Government to undertake the development of Grand Falls Power just as quickly as it can make the necessary arrangements. Development of such an important public resource should not be left in private hands nor control ever allowed to pass from the people."—NORTHERN LIGHT.

(Our sentiments exactly.—Editor Observer.)

From H. B. Anslow, editor and proprietor of the Campbellton Graphic: "Grand Falls Development will mean the beginning of an industrial development in the counties of Restigouche and Madawaska such as has never been witnessed. Hydro power will mean more to us than the wealth of our forests, it will make possible the establishment of many plants for the manufacture of all things dependent upon forests for raw material."—H. B. ANSLOW.

From our neighboring town of St. Leonard's comes a message from the

Mayor: "I have always been a booster for Grand Falls power, there is no doubt that the immediate development of this power will be a great asset to our Province. May the Government do its utmost to give cheap power to the Northern Counties. The people will approve of the project."—FRED. E. RIVARD, Mayor.

And from the local member, Dr. Violette, there comes the second message from St. Leonard's: "In my address at Fredericton last year I strongly urged the development of Grand Falls power. Ever since then I have done my utmost to help bring on such development. I hope that before long cheap power will be available for all the northern counties of New Brunswick, including Madawaska."—L. J. VIOLETTE, M. P.

From the St. John Globe, ever the Champion of Government Ownership, we received this heartening message: "With business to carry construction and operating cost, immediate Grand Falls development means tremendous impetus to industry, and abolition of oil lamp all over Province. Musquash cut St. John Light and Power cost in two, and has given energy to farms and homes and factories throughout southern New Brunswick. Insist that control of development and sale of power be kept public, no matter what private interests may promise."—ST. JOHN GLOBE.

From Woodstock the Mayor wires as follows: "Believe immediate development of Grand Falls would fill a long felt want in furnishing necessary power for industries that are fighting for their existence at the price they have to pay for power and fuel. Would endorse development at once by private

"What Is The Meaning Of
Neuralgic Pains?"

PERSISTENT attacks of Neuralgic or Sciatic pains point to an impoverished nervous system and a weak, watery condition of the blood.

Darting, stabbing pains with intervals of pain or aching are common to neuralgia, sciatica and lumbago.

The pain follows the nerve trunks or spreads to other nerves and there are tender spots.

In the head—neuralgia. In the back—lumbago. In the hip—sciatica.

Temporary relief is not sufficient for the attacks become frequent and more severe as age advances and it is more and more difficult to obtain relief.

Sleep, relaxation, nutrition are necessary to restore the nervous force exhausted by the activities and worries of life.

And in this connection Dr. Chase's Nerve Food is the most satisfactory treatment available as a means of enriching the blood, strengthening the nerves and building up the system, so that it is able to throw off ailments of this nature.

Why suffer these repeated attacks of pain and torture when by a few weeks' patient treatment with this well-known and

proven restorative you can bring your system up to a condition that throws off such ailments.

With vitality running low you are an easy prey to colds and all sorts of dangerous diseases.

Neuralgia and sciatic pains are a warning to you to fortify the system by the use of such reconstructive and invigorating treatment as Dr. Chase's Nerve Food.

Miss Margaret Conolly, Brantford, Ontario, writes: "For three or four years my health had not been very good, and especially in the Spring I used to become quite run down. For some months before I started using Dr. Chase's Nerve Food, I had a tired feeling continually, with pains up the back of my neck and head, and at times felt I would have to give up work. I could not think clearly and often had neuralgia, followed by dizziness. I was nearly 'all in' when I began using Dr. Chase's Nerve Food, but after I had completed a treatment of six boxes, I felt better than I had ever felt before."

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c, the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c. for 35 pills, instead of 25c. for 25 pills. Edmondson, Bates & Co., Ltd., Toronto.

SATISFACTION

A seemingly low price for an article is always attractive, but unfortunately frequently misleading. How often is heard the remark—"I would rather have paid a little more and got the quality I wanted."

As a matter of fact that "little more" was necessary to obtain the better quality. Good goods require a higher price to be good.

There are cheaper teas than "KING COLE"—but would you be satisfied with their quality?

company with Government assistance."—J. R. BROWN, Mayor. (Continued next week)

ASTHMA RAZ-MAH
No Smoking—No Spraying—No Soot
Just Swallow a Capsule
Restores normal breathing, stops mucus gathering in the bronchial tubes, gives long nights of quiet sleep; contains no habit-forming drugs. \$1.00 at your druggists. Send 4c. in stamps for a generous sample. Templeton, 142 King West, Toronto.

Relieves Promptly:
Coughs, Colds, Bronchitis, Grippe, Whooping-Cough, &c.

Colds when neglected or wrongly treated give rise to consequences of such a grave character that you should not risk using inferior preparations.
