

field for herself and troupe in London this winter and is planning to return there for a season. It was to hold the rivalry set up by the coming of the big Petrograd company that she made a staggering investment in the Boston Opera company venture. That enterprise, according to rumor, is to be abandoned.

Ned Wayburn, having lost the backing from Salt Lake City who provided the money with which he staged "Town Topics," is going to work for Mr. Ziegfeld as a stage manager.

A POPULAR PLAYHOUSE

The Bijou theatre is fortunate in having a manager such as Mr. Belmont, for with his experience in the show business it is readily seen that he is an expert in selecting the subjects for his patrons. No wonder that the Bijou is second to none in the city regard to the program played each day. The Standard has visited this popular theatre and has always found a bill that would be a credit to a much larger city. The serial of "Graft" is something out of the ordinary, and this is shown by the crowded houses which greet the pictures daily and which are taking advantage of this exceptional picture. Mr. Belmont, not being satisfied with this, has other pictures as well that would be a creditable show, and we are sure that thousands that have visited this popular house will agree with us in saying that Mr. Belmont always considers his patrons above all things.
