THE MAILS.  
The couriers effected a crossing for the first season, on Wednesday last, from Cape to Cape Traverse, with several mails accumulated for the previous fortnight. The mails were forwarded to Charlottetown the 1st, and notwithstanding their unusually early departure, the Post Office authorities, with a view to the convenience of the public, have had time to more than glance through the papers received, and what interest we have noticed in Colonial, American and European affairs will be found in to-day's Herald. The mail for this island, which arrived on Tuesday last week, was not here until Saturday night.

Telegraph to the Charlottetown News Room, that the Dominion Tariff, which imposes a duty upon all imported goods and other goods, is to be applied to this island or Newfoundland, where it is allowed, as usual, to enter all parts of the island free. We are glad of this, not on account of the trade between the Dominion and this island, but because of the feeling of a discriminating duty (if it had been carried against this island) would have excited because it would undoubtedly have led to the Legislature imposing a prohibitive duty on Canadian flour, which might have been done, while the Nova Scotia and the New Brunswick would have had to pay "through" for the additional duty imposed upon island goods.

Departmental elections held in Nova Scotia (24th inst.), the Government officers were re-elected by overwhelming majorities, where a contest place.

Seth D. Shaw opened the following subject at the Charlottetown Debating Club on evening last, viz:—"Is man the creature of chance?"

Young Men's Christian Association have a Reading Room for the benefit of the members in the building near the Union formerly occupied as Ale Depot for Smith's Bay.

OUR FISHERIES.  
Motion of Capt. Fortin, a return has been of all sums paid by Americans for licenses to our waters for the past two years, and the result is the return:—  
In 1866, 341 vessels at 50 cents each, yielding \$9,368 50; in 1867, 277 vessels, 50 per cent, amounting to \$13,122.  
In 1866, 10 vessels by schooner La Manche, at 50 cents each, amounting to \$2,500.  
In 1866, 1 vessel, at 50 cents each, amounting to \$500.  
In 1867, 10 vessels, at 50 cents each, amounting to \$2,500.  
In 1867, 1 vessel, at 50 cents each, amounting to \$500.  
E. Island makes no return to the Dominion, and this year a great number of licenses have been issued by the Government of that Province, to the great benefit of its Treasury. But even could suppose that during the two years the Province issued as many licenses as all the other Provinces put together, how paltry a price \$23,100 a year for fisheries which we have been so long of being invaluable? The whole amount would pay for one month's expenses of the gubment employed to afford a quasi protection to the fisheries. This is the way Confederation protects our fisheries.—[St. John Freeman.]

News by Telegraph.  
London, Dec. 8.  
Fears are entertained in Paris of a Ministerial crisis, in consequence of the last speech of M. Rouher on the Roman question before the Corps Legislatif.  
The speech of the French Minister, M. Rouher, which he said that Italy should not take forcible possession of Rome, gave rise to an angry debate in the Chamber of Deputies yesterday. Prime Minister Menabrea informed the House that he had asked the French Government for an explanation of the speech, and he expected to receive a reply from Paris by Monday. He added that Italy could only

possess possession of Rome with the consent of France and the other European Powers, and that it would be impossible to achieve that object by force. At the end of the debate a vote was taken, and the Government was sustained by a majority of three members.

New York, Dec. 19.  
Adverse from Porto Rico to the 23d inst. have been received. A terrible earthquake shock occurred there on the 1st. At one place the inhabitants were at Church Hill, and the noise which ensued was most peculiar. The people were dashed together, the conversation was terrible, and the cries of the women and children were heard reading.

London Dec. 18.  
Powder was placed under one wall of Millbank Hill, in which a number of Fenians are confined.—repairs were all completed, some lighted with an attracting attention, fortunately some defects in the arrangement of the materials, the powder did not explode, and the plot was discovered before the attempt could be renewed, no arrests made, nor no could be obtained to the guilty parties.  
Gold 133 1/2.

A large meeting held in Dublin on Sunday, a powerful speech was made by John Martin, of Killybegs, which is generally considered to have obtained sentiments of a treasonable nature.—Martin was formerly a prominent member of the young Ireland party, and was associated with Mitchell in the publications of the United Irishman, and was exiled for participation in the Rebellion of 1848. He has since been an advocate for the repeal of the Union, and is the Chief of the Irish National League, an organization indirectly connected with the Fenian movement. His rest is anticipated.

Brig, Ada, of Walton, from Portland to Halifax with a cargo of flour, was wrecked at or near Cape Sable on Wednesday night, the 4th inst. It is supposed that all hands have perished, as the boat has drifted ashore, bottom up, and nothing has been seen of any of her crew. Part of the cargo has also been discovered by Capt. E. Crowell, of Hantsport. The Ada was built at Walton, in 1858, and was owned by John Mosher, Esq. and others. Brigs Rogers and Laura, of P. E. I., bound to Port Hainan, are both at Hantsport, very leaky, and will require to be put on the Marine Slip for repairs.—[Hix, Express.]

Holloway's Pills and Ointment.—Rheumatic Pains, Gout, &c.—These diseases are unfortunately very prevalent in this country, and are frequently most distressing, sometimes for years baffling all medical skill to alleviate the sufferings of the victim. In no case have Holloway's Pills failed to produce a cure. The Ointment exerts a peculiar and soothing influence over the nerves and muscles, relaxing spasms and subsiding pain; attack soon becomes milder and the intervals between the paroxysms longer, until they cease altogether. Pills restore the body from a weak and debilitated condition to a state of health and strength. Persons ridden for months with rheumatic pains and swellings, after using the Ointment, have been cured in an awfully short period.
