It does more soort, and more kinds of voork, that any other machine made. Its motions are all positive; there are no gear or cams to get out of order ; and its simplicity enables the most inexperienced to operate it with the save of an expert. It does not require fare thread on the under than on the upper side, and will seve across the heaviest seams, and from one to several thickness of cloth, in the breaking of thread. It runs light an ensything, and make perfect and com- piete corners. It has a self-adjusting shut- tension more simple and perfect that any other machine. It combines strength and durability, and so simple as to be readily understood by every one, at the same time offered at a price within the reach of all.	<text><text><text><text><text><text><text><text><text><text><text></text></text></text></text></text></text></text></text></text></text></text>
