**CAPITAL AND LABOR**

(Toronto World, May 11, 1911)

In no civilized country is the interminable struggle between organized labor and organized capital more continuously severe than in the United States. The opposing forces are once more in close combat over responsibility for the explosion that wrecked the offices of the Los Angeles Times in October last, and for other explosions which have occurred in various parts of the republic during recent years. According to that section of the press which more or less represents the capitalist class, these explosions were directed against buildings where structural iron was used; the implications being that they were attributable to the workers' union and intended to intimidate the employers who maintain "open shops." The recent arrest of a prominent official of the International Association of Bridge and Structural Iron Workers and two other men charged with complicity in the Los Angeles explosion, and the circumstances connected with the former's removal from Indiana to California, have stirred labor circles to their depths.

Of equal gravity are the counter charges made by the spokesmen of organized labor. In brief they claim that responsibility for the explosions, in so far as they were due to external causes, rests with the capitalistic combines that have united in a supreme effort to crush trades unionism in the United States. They charge a private detective conspiracy in connection with which the law governing the extradition of accused parties from one state to the jurisdiction of another, and the rights of the accused to legal advice and to a hearing in court have been entirely disregarded. Whatever may be thought of these charges and cross charges, the mere fact that they have been made testifies to the unhealthy state of the industrial and social conditions of the United States, and it would be wrong to minimize the irregularities alleged to have occurred in the Indiana procedure. Wealthy malefactors have succeeded in fighting extradition for years, and there cannot be one law for the rich and another for the worker. Meantime, the prudent course is to suspend judgment until the real facts have been ascertained.

**RE BANKS**

Mr. Lewis of Huron has introduced in the Canadian Commons a bill "To amend the Criminal Code respecting banks," which would make compulsory an eight hour day for bank employees except for tellers (whose hours are shorter) and on balance days, and would severely punish any undue preference to certain creditors, the making of any deceptive returns, acceptance of any consideration other than salary from bank with which one is employed, and assisting in the creation of any watered stock in the institution.

Dr. Sprule suggested that in the bill "The bankers' embargo on marriage should be made a punishable offence." He would place "A very severe penalty on this interference with personal rights, which should not be allowed to exist in any civilized country."

The comments of Mr. Lewis and Dr. Sprule were, we understand, vigorously applauded by members on both sides of the house, but the leaders were, evidently, silent, and we doubt whether the gist of the bill will be adopted by the government in their new banking act now being prepared.

The Banks have far too many

privileges and far too much power in this country. Their autocratic powers should be greatly reduced, or, better still, the banking institutions of the country should all be run directly by the government for the benefit of the whole people.

**MIRAMICHI WELL SERVED**

Northumberland County fares well in the supplementary estimates. Besides provision for wharves at Chatham and Millerton, and the grant of \$2000 for a clock at Newcastle, part of the \$200,000 for dredging in the Maritime Provinces is to be spent in deepening the North West Miramichi at Lawlors and Redbank. Much of the credit is due to our enterprising representative, Mr. W. S. Loggie, and much to the persistent agitation of Newcastle and Chatham Boards of Trade. What we should have at once in addition is a fast night train from Campbellton to Moncton and a fast morning train from Moncton to Campbellton, and an up-to-date suburban service between Newcastle and Doaktown via Millerton.

**A COSTLY JOKE**

Complacent gentlemen, connected with the big cement company, say Sir Sandford Fleming's outcry about that thirteen millions is only a belated gurgling of the water put into the concern at the time of the merger. Saturday's stock market showed cement to be unshaken by the revelations, or threats of revelations at Ottawa. The time to look after such matters is when the merger is being formed. It is too late to shout after the water has been capitalized and sold or devoured by the promoters. The incident will serve to direct more attention to the methods followed in forming Canadian mergers. So far as cement is concerned, the promoters will probably show that their course was legal. If, so, it is merely another bad and costly joke on the consumer.—Telegraph.

Mr. Max Aiken, M. P., is to entertain lavishly in London during the coronation festivities. No doubt for the purpose of further "cementing," as it were, the good relations existing between British and Canadian Tories.

**THE DRIVES**

Reports from the lumber drives are most encouraging and the operators think most of the large drives will be gotten in safely. The cut is reported to be very large.

**FALLING HAIR**

Mrs. Jas. Harris of Wappella, Sask., says:—  
 "I have found Parisian Sage to be the best scalp and hair tonic and dressing. I have ever used. My hair had been coming out in combs full and was very dry and brittle and the scalp was always itching and full of dandruff. I have used two bottles of Parisian Sage and it has stopped my hair from falling, the itching and dandruff have disappeared and my hair is fine and soft and glossy. I would not be without this fine Hair Tonic for many times the price."

For women, men, or children Parisian Sage is without any doubt the finest preparation for the hair. Daintily perfumed, it is free from grease or stickiness and ought to be where every member of the family could use it daily. Large bottles 50 cents at all druggists or from the proprietors, The Gironx Mfg. Co., Fort Erie, Ont., postpaid. The girl with the Auburn hair is on every package. Sold and guaranteed by T. J. Durick.

The invitation list is now being prepared and prominent people all over New Brunswick will be included. Between 1,500 and 2,000 invitations will probably be issued and guests will come from different parts of the province.

**DOUGLASTOWN SERVICES**

Rev. F. C. Simpson, of Douglastown, N. B., is at present in Bridgeport, N. S., assisting at the Evangelistic services in Rev. Mr. McGlashen's church. Mr. Simpson some years ago was assistant pastor of St. Andrew's church. He is leading the singing exercises for Mr. McGlashen, and will be absent another week. Last Sunday Mr. Simpson's services were taken by Rev. Mr. Matthews, pastor-elect of Bathurst, who will supply next Sunday also.

**CHATHAM FIXES 1911 TAXATION**

A special meeting of the Chatham town council was held Thursday evening when warrants were made out for taxation. These show an increase of \$2,000 over last year, and the rate will probably be 250. The warrants are: Interest, \$9,000; sinking fund, \$2,040; school sinking fund, \$150; \$10,500; street lights, 2,400; water works, \$1,800; board of health, \$350; fire, \$2,000; contingencies, \$1,500; park, \$100; permanent street work, \$2,500; other public works, \$4,237.83; county assessment, \$5,022. Total, \$42,000.

**NEARLY DROWNED**

Sunday afternoon while playing with a little Galley boy Claude, the young son of Mr. and Mrs. Frank Masson, fell off the logs at Hickson's mill and but for the timely arrival of a sailor from the German Steamship Elisabeth, who plunged in and brought him up, would have been drowned. Mr. Masson, it will be remembered, lost a boy by drowning two years ago. He is being warmly congratulated on the escape of Claude.

Robert Baldwin, of Nelson, who was sitting Saturday night on the wharf rail waiting to board the Dorothy N. fell over backward into the river and was rescued by some gentlemen on board Fletts gasoline launch.

**NEWCASTLE CHORAL SOCIETY CONCERT**

The annual concert of the Choral Society will be held in the Opera House, Tuesday evening, the 23rd inst, beginning at 8.15 sharp. A very attractive program has been prepared and it is hoped, and expected, that this entertainment will mark a distinct step forward in Newcastle's musical affairs. The patriotic finale alone will be worth much more than the price of admission. Tickets will be on sale at Shaw's drug store within a few days. The prices will be fifty cents for adults and twenty-five cents for children. Tickets may also be obtained from members of the society. This society is doing a worthy work in Newcastle—one that the citizens should encourage in every way that lies in their power, and a bumper house will no doubt greet the coming performance.

**SUCCESSFUL SOCIALS**

The supper and sale held in St. James' Hall, Thursday evening, was a great success. The tables were crowded and the sale of fancy work was brisk. The receipts were more than \$100.00.

The Methodist Social at the residence of Stationmaster and Mrs. H. D. Atkinson, Derby Jct., the same evening, was also well attended, a very good time being enjoyed.

**FEEDING BRAINS**

**Why Studious Children Always Crave Oatmeal**

Nature gives oats more organic phosphorus than to any other grain she grows. And phosphorus is the brain's main constituent. Brains can't grow, brains can't work without it.

Oats also contain more lecithin—the nerve food—than any other grain. They form our greatest energy food.

That's why growing children love oatmeal. Some instinct within them calls for these elements, and woe to the child who doesn't get all it wants.

The right oats for food are the rich, plump grains. In the choicest oats there are but ten pounds to the bushel. In making Quaker Oats these choice grains are selected by 62 separate siftings.

Quaker Oats—just the cream of the oats—costs but one-half cent per dish. One dish is worth two dishes of common oatmeal. Don't you think it would pay to serve your children such oats?
