## Aeroplane Flight From London to Manchester.

### Paulhan, the Frenchman, Wins the Daily Mail Prize of \$50,000.

Special to Evening Telegram. LONDON, April 27. Louis Paulhan, the Frenchman, has won the \$50,000 prize donated by Lord Northcliffe for the first aeroplane flight from London to Manchester, a distance of 186 miles. The winning of the prize involved one of the most sensational contests that has ever occurred in Great Britain. It was a race between G. White, the English aviator, and Paulhan, who a few days ago attempted the trip, was compelled to descend at Letchfield, after covering 115 miles. Paulhan then appeared on the scene and the two aviators made hasty preparations for the flight, each striving to be first at the start. Paulhan stole a march on the Englishman, ascending from Hendon at 5.20 p.m. yesterday. White, who was sleeping at the time, was apprised of this fact and made a quick start from Park Royal at 6.30 p.m. Paulhan, flying high and fast, covered 117 miles before he landed, making that distance in 2 hours and

15 minutes. He descended at Letchfield at 8.10 p.m., and reascended at 4 a.m. to complete the journey, at 5.20 a.m. White succeeded in reaching a distance of 60 miles descending on account of darkness. He managed to overcome the handicap by starting again on the long journey to Manchester. Paulhan, in describing the first part of his flight, said:—The puffing railroad trains enabled me to keep the route. It was very cold and after going an hour the rain hit me. It came faster and faster and blinded me, but I determined to keep up the flight, and it soon stopped raining. The tooting of railroad engines sounded beneath me, and looking down I saw my special train and my wife waving a handkerchief. I waved mine back and shouted greetings. After passing Rugby I lost sight of the train but could see many people watching me. It grew darker and darker and seeing another big town I decided to alight, though I had plenty of fuel and could have gone on."

## FINANCE BILL BEFORE THE LORDS.

Special to Evening Telegram. LONDON, April 27. Chancellor Lloyd George's Finance Bill, the rejection of which by the House of Lords cost the nation, as Premier Asquith announced in his final speech tonight, £6,500,000 in money, passed the third reading in the House of Commons by a majority of 93 amid enthusiastic cheers from the Ministerialists. It was immediately carried to the House of Lords, which was waiting in session to receive it, and in a quite uneventful mood the Lords passed the first reading of the bill.

## A SENSATIONAL LAWSUIT

Special to Evening Telegram. NEW YORK, April 27. The Times to-day says: The sensational controversy over the peculiar will of Louis C. Hammersley, which aroused interest in this country and Europe more than 25 years ago on account of the prominence of the persons involved, and the fight over the Hammersley-Mason fortune of \$7,000,000, which has now increased to approximately \$15,000,000, will presently occupy once more the centre of the legal stage in this city. In answer to the suit brought last fall by the executors of the late Duchess of Marlborough on behalf of her only son, William De Papoe Beresford, the 14 year old child of the Duchess's marriage to Col. Sir Wm. De Papoe Beresford, for an accounting of certain large sums, the house of Hammersley together with nearly one hundred members of the house of Mason will oppose the action by appearing as defendants in a suit which will test the validity of the Hammersley will on entirely new grounds. The answer of the defendants, setting forth the grounds upon which the claims of the Mason family and others is made, is now ready for presentation to the court.

## Complains of Roads.

Editor Evening Telegram. Dear Sir,—I would like to ask the Government if the farmers must wait till the potatoes are sown before the suburban roads receive repairs. I will take the Heavytree Road, St. John's West, as a specimen of the neglect of the powers that be. This thoroughfare which is much used, is in a disgraceful condition, filled as it is with ruts, and farmers and others have cause to regret the necessity of passing over it. Axles of carts, wheels, and springs of wagons are daily broken as vehicles pass along that way, and immediate repairs are required.

Yours truly,  
TRAVELLER.  
St. John's, April 27, 1910.

## Nocturnal Prowlers.

At 1.30 yesterday morning as Mr. M. Crotty was at work building an out-house near his residence at Walsworth town off Signal Hill Road, he heard a noise in the distance, and going out to ascertain the cause saw a man walking away in the distance with a log of lumber on his back. He gave chase, and when the fellow heard him coming he dropped the material and the climbing over Score's fence escaped. Mr. W. Brophy recently had some lumber stolen on him at night in that section, and it is thought that the man who tried to get away with Crotty's property is the thief in this case also, and is accountable for the larceny of goods from Mr. Geo. Cook's place.

## Keep Chimneys Clean.

We have it on the authority of the Chiefs of the Fire Department that many of the fires in the city are caused by the chimneys of the houses in which the fires occurred not being kept clean. Such a condition of affairs is always a menace to the safety of the city especially under existing conditions. A very dry period of weather is with us, the shingles of most houses are as dry as tinder and the slightest spark lodging on them, especially when a high wind prevails is quickly fanned into flame. There is now a chimney sweep in the city, a man named England, but if there were ten they would find plenty of work to perform in the cleaning of flues. While chimneys are left filled with soot the danger of calamitous outbreak of fire is always present, and citizens to avoid the trouble incident to a fire in their domiciles, and to conserve their property should keep the chimneys clean. It has been suggested that if a fine were imposed on the owners of houses in which outbreaks occurred due to unclean chimneys the danger would be minimized, and this is a matter which should be attended to by our city fathers. Inspector General Sullivan is doing his best to impress on citizens the danger of having unclean chimneys, and Head Dawe has done good work up to date. However, many people are unconcerned of the danger, and in the past the difficulty of getting a chimney sweep has been great. If the city is to be saved from another scourge of fire some stringent measures must soon be taken.

St. Bon's L.A.

The sale of work held yesterday in the Aula Maxima of St. Bon's College was successful beyond the most sanguine expectations of the promoters. At 4 o'clock the Archbishop, attended by Rev. Pres. Culhane, Rev. Pro. Kennedy, and Messrs. J. J. McGrath and W. J. Carroll, representing the St. Bonaventure's Association, in a most interesting speech, reminiscent of the past and prophetic for the future, declared the sale open. His Grace paid a well merited tribute to the ladies, who have done, and are doing, so much for this educational institution. After His Grace finished the business of the evening began. A brisk sale of pretty and dainty articles of needlework took place, and when the accounts were reckoned ladies were surprised and pleased to find that they had secured another \$20 to the College fund. During the evening teas were served by a bevy of fair maidens, who attended to the wants of their patrons. A concert in which the Collegians under the baton of Prof. Flynn rendered the "Soldier's Chorus" from Faust, and in which Misses Strang, Hepler, Ross, Power, Meehan, Messrs. O'Reilly, C. Fox, Halley and others took part, was not the least pleasant part of the entertainment. In fact a pleasant and profitable evening was spent by all who participated. The promoters deserve praise, and the success of yesterday's little sale will prove an incentive to them to make a more ambitious effort later in the season, when other circles will be organized and a larger number of dainty articles will be offered for sale.

## Sociable To-Night.

Don't forget that the place to spend this evening, will be at the "Guards" Sociable, in the College Hall. A good programme has been prepared and will include solos by Misses Herter and Russell and Messrs. King, Courtney and Tuft. The Brigade Band will be in attendance and will play four selections, "Miserere," "Austrian Eagle," "Coronation March" and "Koh-I-Noor." Concert will commence at 8.15, after which refreshments will be served and ice-cream and candy will be on sale. Those who attend this Sociable to-night are assured of a most enjoyable evening.

## Fire Near Cupids.

When the shore train which left here yesterday morning was nearing Cupids it was seen that the bush near the side of the railway track was on fire, and in the high wind there was danger of it sweeping down on some houses a short distance away. The train was pulled up and the train hands, led by Conductor Kelly, after a hard fight of half an hour beat out the flames with poles and drenched the woods with water taken from a stream in buckets. The fire was caused through the carelessness of a man who was engaged clearing land near.

## Eczema's Tortures

All treatments failed for three long years—Cure complete with DR. CHASE'S OINTMENT. Mrs. Link, 12 Walker St., Halifax, N. S., writes: "After three years of miserable torture and sleepless nights with terrible eczema, and after trying over a dozen remedies without obtaining anything but slight temporary relief, I have been perfectly and entirely cured by Dr. Chase's Ointment. After the third or fourth application of this grand ointment I obtained relief, and a few boxes were sufficient to make a thorough cure. It is six months since I was freed of this wretched skin disease, and as there has been no return of the trouble I consider the cure a permanent one." Such cures are not brought about by imitations and substitutes for Dr. Chase's Ointment. It is therefore necessary for you to be certain that the portrait and signature of A. W. Chase, M. D., the famous Receipt Book author, are on the box you buy. 50 cts. a box, all druggists or Edman's, Bates & Co. Toronto. Write for a free copy of Dr. Chase's Receipts.

# MARSHALL BROTHERS.

## The Kite Here.

### Has 4100 Seals.

The last of the Gulf fleet, the S. S. Kite, Capt. Wm. Carroll, arrived here at 10 o'clock last night to Messrs. Bowring Bros. with 1,800 young harps, 1,800 old harps and bedlamers, and 500 old hoods, and has in weight equal to about 7,000 seals. The ship struck the fat on the 18th March, and the crew killed about 2,000 on that day. The work was kept up on Saturday, the 19th, seals being plentiful about the ship. But before all could be picked up very stormy weather set in. A heavy sea ran through the foe smashing it up and it was impossible to secure any more young seals. When this weather came on a number of pans of seals were lost, but for which mishap the Kite would have a full cargo. The ship after this went down through the straits and down on the Canadian side of Labrador and was for quite a while in the neighbourhood of the S. S. Labrador, and there secured 500 bedlamers. Last week a number of old harps and bedlamers were taken, and but that the coal ran short, and the vessel had to reserve it, and could not steam about so well, otherwise she would have filled up on old seals. Captain and crew are well, but Capt. Carroll was greatly affected on learning of the death of his wife. We recommend the extreme eastern end of the patch of young harps from which the Viking, Southern Cross and Harlaw took their loads, and was into the seals as quickly as these ships. The ship lost fully 3,000 seals, which included 2,000 young and over 2,000 old harps, and had not this occurred she would have had a full load. Though it was asserted by the Labrador crew that the Kite had not been seen by that ship, Capt. Carroll says he was four days nearer her and could plainly see the men on the Labrador's deck. The vessel captured 100 families of hoods west of Anticosti Island. Had the ship been more powerful when the fat was struck she would be one of the first in port with a load of fat.

## Drinking Water Scarce

In several of the suburban settlements owing to the protracted period of dry weather most of the wells have gone dry and people in many instances are put to great inconvenience to get a supply of water for household purposes. They are compelled to go long distances to brooks and streams, and a good rain storm would now be heartily welcomed.

## Mark Twain's Photo.

An article in the Strand tells this story of Mark Twain apropos of his photograph being taken by Sir Benjamin Stone: "Amongst other honours heaped upon me by Englishmen was that of being photographed in Parliament. But neither am I a member of Congress. Has any fellow-American suggested that I should be photographed in Congress? No. I blush to say that they have not. And yet here is an honour that might without risk be bestowed on any great man. And yet it was not bestowed on Washington, Jefferson, or Lincoln. When I saw that photograph with the Mother of Parliaments, in the background, and realized my advancing years, I said to myself, 'Here are two noble monuments of antiquity—two shining examples of the survival of the fittest!'"
