M. A. Bastow & Sons,

In Memoriam.

THOMAS F. JUDGE. (Grand Falls.)
The entire community sustained a severe shock this morning when it became known that Thomas F. Judge, Esq., Superintendent of the Anglo-Newfoundland Development Co's Mill, ned passed away. To the writer who is attempting this imperfect sketch it was more than a shock—it was a blow akin to violence. This sad event is

unequalled in the history of Grand Falls, excepting possibly at times during the Great War period, when casuality lists contained names of those near and dear to the residents of the and on every face may be noted an expression of genuine regret, on the passing of this noble-hearted, generous and tolerant minded man. Of the defive miles west of here, over the eased it might truthfully be said that Brazos River. figuration of death was not necessary Nature's noblemen. Then it would be the turn of the violins. Gilbert and Sullivan enthusiasts will learn with surprise that Mr. Lytton, who joined the D'Oyly Carte company when still in his teens -he is now in his 55th year cannot read a note of music.

Don't Rock Your Baby.

On the Continent they have a prorecked into stupidity." Baby-rocking is forbidden nowadays by many doctors, because they say it is liable to make children stupid. But it is not alone rocking in the cradle that is objectionable; rocking an infant in the arms is just as bad. All methods of putting children to sleep artificially onotonous sensations ought to be forbidden, including monotonous lullabies. It is undesirable either to interrupt or to prolong artificially the slumber of infants and young folks. During the first five or six weeks of its life a baby ought to be awake two hours in every day, and the waking period should be increased

Too much sleep is harmful, and even a newborn infant ought not to be allowed to spend all its time in slumber. Up to two years of age a child needs sixteen to eighteen hours a day of sleep; from three to four years it requires fourteen to sixteen hours; from four to six years it ought to have thirteen to fifteen hours: from six to nine years ten to twelve hours: and from nine to thirteen years the proper allowance of sleep is eight to ten hours. After the conclusion of growth the sleep allowance can be brought down safely to six or eight hours.

A Curious Village.

Your whole system depends for its health and strength on the stomach. The stomach, in turn, depends on the teeth.
