"Referring to an item in last eveng's Advertiser regarding certain deredations said to have been committed by the rough element of Lambeth last Tuesday evening, I wish to say there is no element in Lambeth rough enough to be guilty of such dastardly tricks, and further, we can prove there were not five boys on the street after eleven o'clock, although they were out in considerable numbers early in the evening. It is the general opinion of the people of Lambeth that what was done could probably be traced to some friends of the bicycle party, who perhaps considered themselves slighted in some way. Thanking you for your space, I am, a friend of the boys."

There is nothing to throw light on the mystery of Mafeking. The usual stock exchange and elsewhere, based mostly on the fact that this day, May 18, is the earliest date on which Lord Roberts held out to Mafeking the prospects of relief. The national anxiety is strained almost beyond endurance, although nowhere is there the slightest doubt that Col. Baden-Powell will keep

the Union Jack flying.
On the line of Lord Roberts' advance the Boers have blown up a bridge over the Rhenoster River, 37 miles north of Kroonstad.

#### The Situation.

PEACE PARTY AT PRETORIA. London, May 18.—Details of the past operations tend to confirm the view that the end of the war is within measurable distance.

From Kroonstad comes a story, at tributed to excellent authority, to the effect that a peace party is being formed at Pretoria, while reports from Pretoria itself indicate discouragement at the recent reverses, and the possibility of an early suing for peace.

#### **ROBERTS' ADVANCE**

Has Been Promptly Resumed-The Botha Captured by Hutton's Men Probably Not the Commander-in-

London, May 18.—From both the right and left flanks of the British comes the important news that Lord Roberts has brought the two wings of his forces on a level with the main body, as shown in his dispatch announcing that Lord Methuen had entered Hoopstad yesterday, and that Gen. Broadwood's cavalry had occupied Lindley the same day, and Lord Roberts' advance has been promptly resumed.

ANOTHER BOTHA

Evidently the Commandant Botha whom Lord Roberts reported to the war office as captured, with a number of others, 30 miles northwest of Kroonstad, is not the federal commander-inchief, or he would have mentioned that fact in his dispatch.

Rumors are current at Lorenzo Marquez that further fighting has occurred on the railroad south of Mafeking.

[Special to The Advertiser per C.P.R.] Ottawa, May 18.-The Welland Canal will be permanently patrolled by a squad of Dominion police in the future. The militia now guarding the canal will be withdrawn at once.

Toronto, May 18.—Detective Murray has been on a long search through the principal cities of the United States for evidence in connection with the dynamiting of the Welland Canal. His investigations led him to the conclusion that Nolin and Walsh were the tools of a Fenian organization known as the 'Napper Tandy Society." He is convinced that until the hour that Dullman appeared on the scene in Buffalo neither Walsh nor Nolin had ever set eyes on the man before. Mr. Murray states that a number of English detectives are at present in New York making inquiries as to the operations of the physical force party.

Chicago Bricks To Be Made by Union

Men Only-Carlton Men Succeed. The long-standing boycott in the brick industry in and around Chicago has been practically settled. terms provide that union labor shall be exclusively used in the brick com-pany's yards, and that the market shall be open to all buyers.

The striking brickmakers at Carlton (Toronto Junction) have been almost entirely successful in their demand for an increase in wages, and the major-ity have resumed work in the yards there. The men asked for an all-round increase of 19 cents per 1,000, which they claim was promised last year. All the manufacturers have conceded this, with one exception.

At a mass meeting of the St. Louis street car employes last night, a re-solution was adopted calling on all labor unions and sympathizers to quit work after next Saturday in support of the street car men's strike and unionism, and a circular was addressed to the public giving a history of the strike. Last night a riot call was turned in. A crowd of 2,000 persons gathered on Franklin avenue, and 500 men any boys were at work cutting trolley wires and tearing up the track and street. Edward Cleary, a striking mo-torman, was shot in the thigh. His injury was pronounced serious. As a car was passing Drand avenue and Kossuth street it was stoned by a mob. Citizens on the car opened fire with ... TROUBLE SETTLED.
