LONDON, FRIDAY, JAN. 22. North Oxford.

Every device is being employed in the effort to stampede the Liberals of North Oxford. Gamey has been imported into the riding, and as a piec of bravado was billed to make his first stronghold of West Zorra. It looked as though his managers were inviting trouble, and would have welcomed a fracas to enable Gamey to keep up his pose as an injured hero. Those who imagined that a man of Gamey's stamp left \$2,000 to the Provincial Governwould electrify North Oxford know ment in case the succession duties on nothing of the character of the electors. his estate did not reach that amount The meeting last night was a tame one, He does not agree with Mr. Whitney composed mainly of Colonel Munro's a robbery of the rich.

supporters. Another feature of the plan of the campaign is the free distribution of the Toronto News, which has become the chief organ of the Opposition, though masquerading as a candid friend of the Liberal party. It calls on the riding to uphold the traditions of Hincks, Baldwin, Brown and Mowat, by turning its back on the Ross Government and embracing the Whitney-Gamey-Birmingham combination. In the name of political purity the Liberal stalwarts are asked to vote for a candidate, who, though thoroughly respectable himself, has weakly surrendered the control of his campaign to a pastmaster in the arts of political corruption. Mr. Robert Birmingham, who has charge of the Conservative forces, was the organizer of the party in Ontario in the most debauching period of Conservative rule at Ottawa. He had a difference with his chiefs over money enatters, and five years ago threatened some days ago merely to comfort the gards England, in the position of the to make damaging exposures if his Free Press, which had the fit of the pulling its tail in the opposite direcclaims were not recognized. Since then blues over the prospect of Mr. Hy-tion he has been reappointed organizer, as man's advancement. The latest reports the price of his silence. In 1896 a school indicate that Mr. Hyman will be called for the instruction of deputy return- to the Cabinet beyond a doubt. The Liberals of North Oxford, in the name of public morality, are also asked to vote to place in power a party which places in its front rank a mendacious and death, will make comparisons to adventurer, who should be outside the pale of respectable society. The bitterest denunciations of Gamey have come from Conservative newspapers, like the Toronto World, and Conservative laymen, like A. R. White, K. C. of Pembroke. Even the Toronto News is constrained to hold its nose in Gamey's presence. Yet this sinister figure dominates the titular leaders of the Opposition, and is paraded as the chief a few of the other fire-eaters with an asset of the party.

In Colonel Munro the North Oxford Liberals have a candidate whose honor has never been tarnished by the breath of suspicion. A clean-handed and clean-living man, he would be a wholesome influence in the politics of the Province. He has gone so far as ful busines men of the day. And newspaper advertising is the best kind of advertising. avoid even the appearance of underhand practices. The upright Liberals MARRIED AND BACHELOR ANGof the riding are asked to withhold their suffrages from such a man and give them to the Birmingham-Gamey coterie in the interests of sweetness and of the Liberal party.

A Canadian Club.

a movement to form a Canadian Club in this city finds much favor and will probably take practical shape behonored by the presence of the Governor-General, the Premier of Canada and the leader of the Opposition. Lord Minto made a plea for the cultivation of a Canadian spirit, and inferentially every assertion of Canadian nationality. Sir Wilfrid Laurier made extension of Canada's treaty-making powers, and Mr. Borden argued the uestion from another point of view. In bringing distinguished men of both parties together to discuss the higher politics of the country as Canadians first and partisans afterwards, the Canadian clubs are doing a patriotic work. A similar organization in this city, where party feeling occasionally runs high, would do something to soften political asperitles. It is rarely a person has the privilege of hearing any public man of the opposite political faith except in the heat of an election campaign, when the party man is averse to being seen in any camp but his own. As members of a Canadian club. Liberals and Conservatives would enjoy this privilege. There are many

Canada is taking a conspicuous place in the family of the nations, and Canadian citizenship is a badge to be worn with increasing pride. The party spirit should not stifle the spirit of Canadianism which is needed to bind together the different race elements of the country.

and Ointment

When All Other Remedies and Physicians Fail.

Instant relief and refreshing sleep for skin-tortured bables and rest for tired, worried mothers in warm baths with Cuticura Soap, and gentle anointings with Cuticura Ointment, purest of emollient skin cures, to be followed in severe cases by mild doses of Cuticura Resolvent. This is the purest, sweetest, most speedy, permanent and eco-nomical treatment for corturing, dis-figuring, itching, burning, bleeding, scaly, crusted and pimply skin and scalp humours, with loss of hair, of infants and children, as well as adults, and is sure to succeed when all other remedies and the best physicians fail.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in acne and ringworm; the swful suffer-ing of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum, -all demand a remedy of salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures and humaour remedies of the

much of the Legislature's attention and providing a living for hundreds of men. Its value and influence may be gathered from the fact that in 1903 no fewer than 7,494,691 lobsters were taken in Maine through the mountain known as waters, a catch valued at \$1,219,949, while

In Utah there are large deposits of When the Maine Legislature passe what is known as the seed lobster bill it did the best piece of work possible for the preservation of the fish in these waters. The law provides that the state shall purchase from fishermen all seed lobsters caught, and, when the fish cannot be turned over to the United States Government hatcheries, shall liberate

them in the waters where caught. Under this law the state fisheries department purchased in 1903, up to Nov. 30, 14,173 seed lobsters. Of this number 1,925 have been paid for by the United States Government, their eggs taken at the Gloucester hatchery, and the mother lobsters returned, with the fry, to Maine waters; 6,801 have been paid for by the United States Government and placed in a pound at Bristol, Me., to be used at the hatchery now building at Boothbay, and the remaining 5,447 have been liberated in Maine waters where they were caught. In all 383 lobsters were taken the second time, bought and liberated: twelve the third time, and two the fourth time. When bought and liberated the second time the middle flipper of the tail is punched, leaving one small hole; the third time purchased a second hole is punched, and so on. Under the law there is no inducement for the fishermen to remove the eggs and sell seed lobsters with market lobsters, because the

state pays 25 per cent more than the narket rates. Each female lobster carries from 10,000 to 90,000 eggs. At the low average of 20,-000 eggs each, the state has, therefore, by the purchase of 14,000 seed lobsters, saved 280,000,000 eggs.
