Hat or Scarf is Endorsed by Fashion.

The parasol offers just one more item for the ensemble enthusiast. The woman who likes to buy things n sets has a different scarf to mate different hats. Sometimes there is a hat to match a frock. There are purses or handbags to go with some f the frocks or hats. A pair of of the trocks of hats. A plan gloves is an essential adjunct of a hat that shows the same sort of trimming. And now parasols match scarfs, or bathing suit, or hats.

These sets were first shown for the

enefit of those who were going southward for the cold, windy months, but of course they made the purchase of a parasol a rather expensive adventure. Some of the most charming of these sets show a pure thing in the cold and white heat with white silk parasol and white hat with the same design painted elaborately by hand on both pieces. One set that has been much admired shows a pir tree design of green with a touch gold against the white taffeta of the parasol and hat. This sort of en-semble might be made at home by the woman who is deft with the use of paintbrush and oil paints. For a clever scarf and parasol set for warm weather you might select interesting printed scarf and then copy the design on the parasol by

means of brush and paints.

The size of the parasol is something that has caused comment. The thing that has caused comment. The very small parasol has been carried by fashionable women at southern resorts—following, of course, the lead of smart women at French resorts. This is a revival of the small sunshade that we find in quaint old prints of a hundred years ago. Of course when you get used to it, there is nothing quaint about it. It really looks smarter than the large parasol, and with the very small hats we are wearing it is large enough for usefulness. usefulness.

Interesting materials are used for parasols this year. Fine suede is used for some of the very small Cretonne makes many smart examples, especially those to be carried with bathing costumes.

The People of the Pasture Are Upset When It Is Being Cleared of Bush

By THORNTON W. BURGESS.

At first the little people who watched Farmer Brown's Boy tramping about through the Old Pasture were filled with nothing curiosity. They were not troubled by it. They were merely puzzled. But there came a day when all those who lived in the Old Pasture and some of those who, though they did not live there, visited it often, were very much upset. That was the day when Farmer Brown's Boy began to cut off the brush and brambles in the upper part of the old pasture.

But when he kept on cutting and cutting and making big piles of the brush some of them began to be inbrush some of them began to be indignant, and then actually became worried. Old Jed Thumper, the gray

Sit pretty, Julia, sit pretty and You have your six little children to consider, and as long as their father provides a good home and a good living you have no right to break up your home, and deprive them of the food and clothes and education that he gives them. Nor would you better your own condition by d:vorce. A woman trying to support a family of little children has to put up with far worse things than the philandering of a weak and foolish man.

From your letter I gather that you have enough wisdom to realize that, and that you are not thinking of leaving your husband. Also that you have enough humor to perceive that his conscience is making him treat Baker, in St. Thomas, has returned to town.

That happens over and over again, Julia. Many a wife's jewels and furs and limousines are bought with conscience money.

> Inasmuch as you have no idea of divorcing your husband, keep silence concerning his affair with the other woman. Don't let him know that you know it. In that way you save your face. No good could come of discussing the matter-nothing but bitter quarrels and recriminations.

DOROTHY DIX.

Dear Dorothy Dix-Some ten years ago I married a widower because I loved him. And I still love him, but during all this time I have felt that Elizabeth McLeod, who was gowned in pink charmeuse and carried carmy predecessor is ever present with My husband discourses about her, and her many perfections, morning, noon and night.

On every social occasion she is really the hostess, and not long ago immigration department, Mrs. Nellie a guest told me that she was com-cox and Mrs. Margaret O'Hagan. ing back to visit me some time, and not wife No. 1.

I knew from members of the famly that my husband's first marriage was a tempestuous one and left him with shattered nerves, with which I have to battle. I know he loves me, but how am I to prevent him from continually humiliating me by giving the impression to strangers that he is still mourning the departed? ADVICE SEEKER.

You will have to follow the example of another woman I knew who was also married to a man who continually held up his first wife to his second wife as a model of all virtues. Finally one day this woman burst into uncontrollable weeping, and her husband asked her what she was crying about. "Oh," sobbed the woman. "I am weeping for your first wife. Nobody else in the world can possibly regret her death as I do."

Thereupon the husband saw great light, and he never mentioned

You would think that a man who had once been married would have to go. What will I do? What will I do? What will I do? What will I do? What will I do?"
