Dealing with the cases of Aheren and Cook, His Lordship recases of Aheren and Cook, His Lo evidence would show the jury that there was practically no supervision and no regulation of such places, and undoubtedly if these matters had the proper attention of the municipal council they would not need to come before the grand jury at all. Mr. S. Perry Mills for the prisoners pleaded guilty to a common assault, and thought a small fine would meet the case.

To this the Crown agreed.

Mr. Mills explained that McCabe, who was one of those men who went about sell-ing liquor to Indians, had really assaulted one of the Indians first by knocking him one of the Indians first by knocking him down. The Covyn was represented by E. J. Monk and constables Cameron, Palmer and Smith, who told of the finding of the meat in the men's cabin, and Burn's coat having brine and sawdish on it.

charged, and this included a gaming house. His Lordship explained that a gaming house was one where there was an advantage given to one or other of the players, for instance where there was a banker. In Cock's solon, the Beehive, it was stated that a number of people had engaged in a game called "Black Jack," in which the chances are not equal. His Lordship also briefly ran over the points of the other cases. Flynn, who has been sentenced to three months' imprisonment for supplying liquer to Indians and took the sirest opportunity to escape; David, stealing apple trees from Galiano falsand George and Ucum, assaulting and beating a white man named McCabe; Buchanan, Burns, Stanton, Hunt and Harkins, breaking into a butcher shop and stealing meat; Hall and Smith obtaining money under false pretences by passing a Confederate note; Aheren, stealing \$300 from William Hussey.

The rest of her story was practically the same as in the police court.

William Hussey, the next witness, and the man who claims he was robbed, didn't seem to recollect anything very clearly of what went on that day; he claimed that he had been drinking the night before, but had no drinks at the Johnson street house; when he went to the Trade Dollar in the morning he might have been a little under the influence of l'quor, but he recollected nothing after the morning drinks there; had a hazy idea that he went to the drug store and the doctor's in the afternoon; he had a sleep in the Trade Dollar and next remembered himself at 127 Johnson street the same afternoon; he denied having spent any money after breakfast or giving Josey the \$45 she claimed.

Cross-examined by Mr. Belyea—Must have had over \$300 in his pocket when he went to the druggist's in the afternoon, as he had not spent it; did not remember buying champagne; didn't know why he went anywhere that day.

"Well, juz' let us hear what took you to the Telegraph," inquired Mr. Belyea.

During the afternoon the meat thieves were brought up for sentence. His Lordship gave Buchanan, Burne and Harkins two years in penitentiary, and Hunt, who was recommended to mercy by the jury, twelve months in jail. Stanton was discharged. Hunt begged to be sent to the penitentiary, too, for two years, so that he could learn to do something. His Lordship replied that Hunt could learn some honest oalling without going to the penitentiary and refused to change the sentence.

Harkins remarked, with an impudent tosa of his head, as he was led away, "Well, I won't go sealing for two years anyway."

The Grand Jary brought in true bills in Regina v. Jackson and Macdonald, keeping a gaming house. The cases will go over until next assize.

HON. MR. DAVIE moved the second reading of the workmen's wages bill (No. 1). Its object he said is to secure the payment of their wages to workmen at fixed periods, either weekly as provided in the bill as submitted, or bi-weekly, monthly or otherwise as the house might decide. He thought all would agree that it is in the interest of business men and the whole community that there should be no long periods between the settlements between workmen and their employers, and that the times of settlement should be so fixed that the storekeeper giving a workman credit might know when he could reasonably expect to get his money. This bill has nothing whatever to do with the mechanics' lien bill also on the order paper, which is intended to make provision for giving a lien for material and larger amounts than the weekly wage.

MR SEMLIN asked that, as he had not had time to confer with those principally interested in this bill, its consideration should be further postponed, if this would not inconvenience the government.

HON. MR DAVIE said there was no doubt some other business which could be gone on with, and at the desire of the hon, leader of with and at the desire of the hon, leader of
