Prince Ito's Death Not to Affect Japan's Actions in Korea

MURDER PLOT HATCHED AT SEOUL

Body of Statesman Accorded

Unusual Honors by His
Country

Tokio, Oct. 27.—The body of the murdered statesman will be taken aboard the Japanese warship I wato at Dairen, and will be brought to Japania accompanied by a full suite representing the nation. The body today lay in the hotel at Dairen, the confin covered by a simple white pall. Guards surrounded the hotel, and only Prince Ito's personal staff was admitted.

Throughout the day telegrams poured into Tokio from every country of the world, and the officials of the foreign office are busily engaged in answering them.

Before the official announcement of Prince Ito's death difficulty was encountered, which was of a purely technical nature, in avoiding announcement of the statesman's actual defines. This was obviated later when the death was officially announced, an ordinance being simultaneously issued and antedated bestowing unusual honors, one of these being advancement from the junior to the first grade in the court rank.

She was burned on the heel, instep, and on the thigh very badly. I at once applied some Zam-Buk, which eased the pain, and in the course of a few days the wounds were thoroughly healed."

Mrs. George Aldridge, 12 Louise Street, Stratford, says:—"While playing barefooted about the yard my son Bertram, 6 years old, stepped on a broken glass bottle, which cut very deeply into his big toe. The cut was so deep that I sent for a doctor and had the foot properly dressed, the doctor leaving a lotion to be applied daily. Under this treatment, however, the wound seemed to get no better, but on the contrary inflamation set in. A kindly neighbor then recommended Zam-Buk. We obtained a supply, and after a few applications the child seemed to rest better, and the pain was very much reduced. In a few days, under the Zam-Buk treatment, the wound assumed a better appearance, and from that time healing was very rapid. Inflammation and soreness were finally completely banished, and in ten days from the first application of Zam-Buk, we took the bandages from the foot. I feel sure that but for Zam-Buk the child would have had a very bad time, and might have had to very bad time, and might have had to very bad time, and might have had to sarifice the toe."

CHILLIWACK, Oct. 28.—A survey party of 14 are running a line for the Canadian Northern railway. They entered the extreme east end of the Chilliwack valley at Popcum, coming down from Hope, and are now working in the vicinity of the East Chilliwack Presbyterian church. Indications are that they will run a direct line across the eastern side of the valley to Vedder crossing, and from there parallel the British Columbia Electric Railway to Abbotsford. Third acts Stewart says that the Hestia impaled herself on the rocks on Monday morning, instead of Tuesday morning, and that he aind his five companions who had been unable to find places in the small boats remained aboard on the rigging for thirty-eight hours without food or water before they were taken off by the life savers.

So far as can be learned tonight those on board the Hestia comprised Capt. Newman, a crew of thirty-five, three cattlemen and two boys.

The discovery of the plight of the vessel was delayed because of thick weather, which obscured a view from shore all day Monday.

It is believed that the Canadian authorities took charge of the steamer as far as possible and prevented the looting of the craft by wreckers, especially as her general cargo includes a big consignment of Scotch whiskey.

MELBOURNE, Oct. 28.—Referring to a cable stating that the Canadian government proposed that Dominion warships be interchangeable with British warships. Premier Deakin said yesterday that the Australian naval proposals included a provision for interchanging ships' crews with those of the Imperial navy, cruisers to be sent when it was thought desirable, not only for attachment to other units, but also for sections of the Imperial fleet itself, they being placed in the meantime by Imperial cruisers. Interchange by yessels in eastern waters was feasible to the Commonwealth owing to the geographical position, but if it was necessary or desirable Australian cruisers could be commissioned in more distant waters.

No statement is obtainable as to the attitude of the elevator owners.

Women in Strike Riot.

NEW BRUNSWICK, N. S., Oct. 27.—
Several hundred women took part in rioting yesterday outside the cigar factory of Hirchhorn & Co., where a strike is in progress. Three women were knocked down and roughly handled. Nearly 500 young women left their work Saturday when their demand for an increase in piece work rate was refused. A number of American girls who refused to strike were attacked when they attempted to leave the factory yesterday.

was to become his wife, and returned to his apartments at the hotel. The next day his dead body was found in his room. He had blown out his brains during the night.

It now transpires that Captain Hildobrandt, whose tragic end immediately before his wedding has aroused universal sympathy, especially with the lady who was engaged to him, was the central figure of a sensational duel that took place eight years ago at Insterburg.

Lieutenant Curt Blaskowitz, of the 2nd Battalion of the 147th Infantry Regiment, was to celebrate a Polterabend preceding his marriage on November 2, 1901. On the last day of October of that year he gave a farewell bachelor dinner to his unmarried comrades of the officers' corps in the Casiño at Insterburg. Late that night Captain Hildebrandt met Lieutenant Blaskowitz in the street, and found that he was somewhat intoxicated and hardly in a condition to be left
